Predictor

Asset Essentials' Lifecycle Modelling is powered by our Brightly Predictor solution. Brightly Predictor is a modelling tool that is designed to cater for the long-term planning of infrastructure assets. It has been developed with an embedded optimised decision-making framework that enables the evaluation of typical long term (25 year plus) scenarios.

Product	Annual Subscription per instance
Origin Annual Subscription (in addition to Origin User licenses)	£100,000

Services / Implementation

New customers will need to be evaluated and resource estimates supplied depending on the amount of data to be transferred, training required and consultancy services required.

We will use the Services Rate Card for this.

Services Rate Card

Resource	Daily Rate*
Distinguished Engineer	£1,750
Project Manager	£1,500

A Siemens Company

Principal Consultant	£1,500
Senior Consultant	£1,350
Consultant	£1,200
Associate Consultant	£950

*All rates are per day, in British Pound (GBP) and exclusive of VAT, expenses and travel.

Daily rates are based on the following assumptions:

- **Consultant's working day:** 7.5 hours exclusive of travel and lunch
- **Working week:** Monday to Friday excluding national holidays
- **Office hours:** Between 9:00am to 5:30pm Monday to Friday, and can be flexible depending on client requirements
- **Weekend work:** Defined as Services performed between 5:30pm on Friday and 9:00am on Monday and will be charged at double rates
- **Travel, mileage and subsistence:** Excluded from day rate & calculated based on proximity of consultant
- **Professional Indemnity Insurance:** Included in day rate
