

Commercial options

The Touch Surgery™ Ecosystem can be deployed to an operating room within a matter of hours and offers unlimited recording and storage of laparoscopic or robotic surgical video in a secure cloud-based video library.

The Touch Surgery™ Live Stream add-on capability enables easy, secure, controlled broadcasting of surgical video footage from the operating room to selected participants for training and education purposes.

Medtronic offers flexible payment options for access to Touch Surgery™. These include, but are not limited to, annual subscription payment and up-front (advance) payment for contract term. Please contact your Medtronic Digital Surgery Account Manager with your specific requirements.

Packages available

Touch Surgery™ - Video Subscription only

- ✓ Unlimited cloud-based storage of recorded surgical procedures for duration of subscription
- ✓ Unlimited user accounts and software licenses (for employees of the purchasing Organisation)
- ✓ Staff training and ongoing technical support
