

Recorded Future Price Guide

- This pricing document includes annual pricing for current SKUs. This guide might not include legacy or archived products which may be available for renewal only.
- Further discounts may be available depending on the overall scope of requirements, as assessed and approved by Recorded Future sales.
e.g. Bundles - Essentials (Brand and SecOps), Foundation (Brand and Threat), multi-year discounts, and other factors.

Essentials bundle

- SecOps and Brand are the core use cases of our customers at a beginning maturity level and are just starting their Threat Intelligence program.
These 2 modules would satisfy most of the threat intelligence use cases needed at this maturity level. There are further discounts available for purchasing as a bundle.

Foundation bundle

- Threat and Brand are the core use cases of our customers who are mature or higher and are scaling their threat intelligence programs.
These modules are the most popular and purchased. There are further discounts available when purchasing as a bundle.
