

G-CLOUD 15

Pricing Catalogue 2026/27

iTrackPPE, iTrackMED and iTrackSHIELD Cloud Services

Transparent public-sector pricing.

Operational readiness, compliance and asset intelligence for safety-critical equipment.

SERVICE OVERVIEW

One platform family. Three service packages.

The iTrack platform provides cloud-based lifecycle, compliance and operational-readiness management for PPE, breathing apparatus and critical equipment. Buyers select the package that matches their operational scope, with one subscription and one deployment fee.

PPE ESSENTIALS	PPE + OPERATIONAL EQUIPMENT	PPE + BA + OPERATIONAL EQUIPMENT
PPE lifecycle, personal issue, inspections, contamination, cleaning, compliance, dashboards, RFID and QR.	Everything in PPE Essentials plus operational, medical, police, correctional, specialist and consumable equipment management.	The complete package, adding BA sets, cylinders, PSS, personal logbooks and competency management.
Applicable across the iTrack product family.	Designed for iTrackMED and iTrackSHIELD.	Designed primarily for Fire & Rescue.

PRODUCT-FAMILY APPLICATION

iTrackPPE	iTrackMED	iTrackSHIELD
Fire & Rescue and organisations requiring PPE, BA and operational-equipment readiness.	Clinical PPE, medical equipment, consumables, make-ready and operational readiness.	Police, correctional and security PPE, specialist equipment, issue, return and readiness.

No stacked module onboarding fees.

All software capabilities purchased at commencement are covered by the single deployment package.

G-Cloud service boundary.

The subscription, implementation and software-support services are the G-Cloud offering. Physical RFID devices, tags and storage furniture are shown later for budget transparency but require confirmation of the appropriate procurement route.
