

G-Cloud Pricing Document

REACT

Community safety software

Case Management in Social Housing

Overview:

The REACT Case Management System G-Cloud Software is available as a Service (SaaS).

It is important to note that our pricing structure is based on the number of concurrent users only, and not the total number of users or number of business areas.

Onboarding:

There is an onboarding cost of £7000.

This cost can be spread across the contract length if required.

System Hosting:

£3,800 per year

A discount can be discussed if a contract includes multiple hosted sites or additional hosted sites are requested.

Licensing:

Concurrent licenses are available based on the following table:

Number of licenses	Per month per license (£)	Per year per license (£)
Up to 10	100	1200
11-20	90	1080
21-30	80	960
31-40	70	840
41-50	60	720
51+	50	600

Additional changes/work required for customisation costs:

Technical work including re-onboarding for new business areas and development work is £1000 per day, The number of days required is typically informed by the scope of the project.

Additional training is available from £500 to £1000 per session depending on the content. Training is delivered via Teams, in person training is available and may incur an additional charge.
