

Pricing - Climate Essentials Supply Chains

Pricing is based on the total number of suppliers assessed to produce a Scope 3 emissions result using industry-average, spend-based methodologies. From this total supplier list, a smaller subset of suppliers can be invited to access Climate Essentials directly to measure and submit their own primary emissions data, as shown in the second column. Example packages are displayed and other configurations can be accommodated.

The total annual price includes platform set-up, project management, administration, and analyst support. Multi-year contracts are available at a discounted rate, with indicative two- and three-year pricing shown.

Additional supplier licences and further project management or support can be purchased at any time.

Price per additional supplier licence

£150 per year

Total Suppliers Assessed	Suppliers Invited for Primary Data Collection	TOTAL/Year	Total 2 Years	Total 3 Years
250	25	£19,760.00	£37,638.10	£53,890.91
500	50	£24,260.00	£46,209.52	£66,163.64
1000	100	£35,390.00	£67,409.52	£96,518.18
2500	250	£50,640.00	£96,457.14	£138,109.09
5000	500	£75,110.00	£143,066.67	£204,845.45
7000	700	£82,110.00	£156,400.00	£223,936.36
