Climate Essentials FOR SUPPLY CHAINS

SUPPLY CHAIN EMISSIONS ARE

ON AVERAGE 75%-98% OF

AN ORGANISATION'S FOOTPRINT

PURPOSE

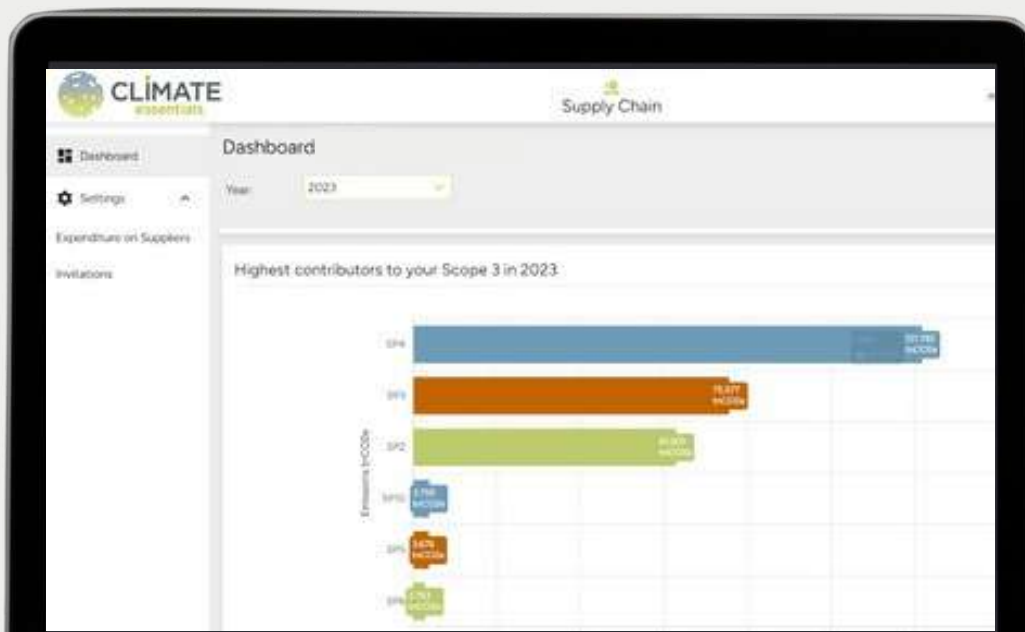

ENABLES ORGANISATIONS TO MEASURE

AND REDUCE CARBON EMISSIONS

ACROSS THEIR SUPPLY CHAIN

For many organisations, **supply chain-related emissions** are their **largest source of emissions**, and the **most challenging to reduce**.

Through this module, organisations will be able to **enrich their Scope 3 measurement** with primary data, collected straight from their suppliers, to aid them in making **remarkable reductions** to **their carbon footprint**.

AIMS

SIMPLIFY

Scope 3 measurement with a user-friendly supply chain engagement platform.

BUILD

Use industry averages to get a Scope 3 baseline. Improve it with suppliers specific data

SHOWCASE

Scope 3 reductions, enhancing brand awareness and reputation.

IDENTIFY

High-emitting suppliers, their reduction impact and their net-zero targets.

SUPPORT

suppliers with a carbon management platform, branded with your logo, and expertise through the support of our team.

ADDITIONAL FEATURES

Co-brand

Make your mark and invite suppliers to use a carbon management platform, branded with your logo.

Automation

The platform measures your Scope 3 emissions related to your supply chain, using industry averages or supplier-data

Visibility

Create interactive dashboards with carbon data from your suppliers, enrich your Scope 3 measurement as primary data becomes available.

Flexibility

Have the ability to add unlimited suppliers to the platform, as well as an unlimited number of buyers to the management dashboard.

BENEFITS

INCREASED SPECIFICITY AND ACCOUNTABILITY

You'll find more clarity
surrounding your overall
carbon footprint

HIGHER QUALITY SUPPLIER RELATIONSHIPS

By getting to know your
suppliers, you'll foster
stronger relationships

ENHANCED EFFICIENCY AND RESILIENCY

Engaging your suppliers
bolsters productivity and
ensures smoother recoveries

BUILD TRANSPARENCY AND CREDIBILITY

Tackling supply chain
emissions can convey your
brand values

POSITIVELY IMPACT YOUR NETWORK

Reducing these emissions will
positively influence your
business ecosystem

HIGH IMPACT REDUCTION OF CARBON FOOTPRINT

A way to tackle a huge
percentage of your carbon
footprint

HOW IT WORKS

Upload your supplier list, including sector and expenditure data, into the platform. You (the buyer) will be able to instantly measure and analyse supply chain emissions using industry averages for multiple years.

You can **invite suppliers to provide primary carbon data using Climate Essentials for Business**. For this, suppliers must input the following categories of emissions:

- 1) Scope 1
- 2) Scope 2
- 3) Freight
- 4) Purchased Goods & Services from Scope 3
- 5) Waste

Update, analyse and recalculate your Scope 3 footprint with ease, using the primary data directly collected from suppliers.

Access detailed and downloadable data insights at your fingertips, such as:

- Supplier reduction strategies and Net Zero targets
- Scope 3 emissions by year, sector and supplier
- Full supply chain analysis including top emitting suppliers and sectors

SAMPLE SCREENSHOTS

Our platform **simplifies carbon accounting** and provides your organisation with the tools **to reach net zero**.
