PURPOSE

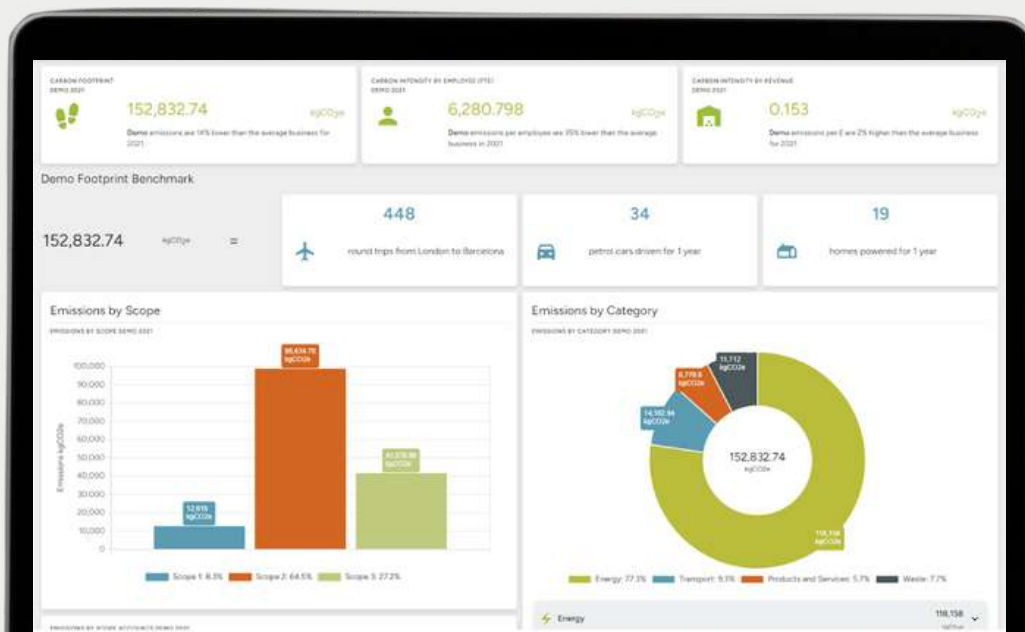

MEASURE OPERATIONAL EMISSIONS

UNDERSTAND CARBON IMPACT

CREATE REDUCTION STRATEGY

Climate Essentials for Businesses allows organisations to measure their carbon emissions, create an **interactive reduction strategy**, and map their **pathway to net zero** via data insights, carbon analytics, and scenario mapping.

Our software **supports businesses** to measure, track, reduce, and report their carbon impact.

AIMS

SIMPLIFY

Climate action with a user-friendly carbon management platform.

BUILD

personalised plans and reports to stay ahead of regulation and compliance requirements.

SHOWCASE

climate commitment, enhancing brand awareness and reputation.

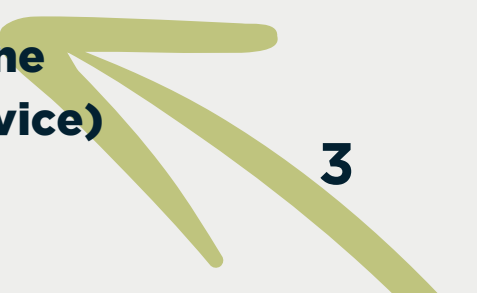

IDENTIFY

cost-saving opportunities through increased emissions visibility and efficient, sustainable practices.

ACCESS

knowledge and expertise through the support of our team, our exclusive online community, and resources (add-on service)

ADDITIONAL FEATURES

Versatility

Assign tags to your site data so you can analyse and filter emissions data to your specific needs.

Automation

The platform does all the calculations you'll need to clarify your organisational footprint of Scope 1, 2, and all categories of Scope 3.

Visibility

Create an interactive dashboard that provides a granular view of your carbon data across all of your sites.

Benchmarking

Our dashboard allows you to contextualise your carbon footprint into relatable activities i.e. homes powered for a year.
