

Pricing - Climate Essentials Net Zero Community

Pricing for Net Zero Community is based on a fixed annual access fee, providing organisation-wide access to the Climate Essentials Net Zero Community for the duration of the contract year.

The fee covers platform access for unlimited organisations, community resources, educational content, monthly webinars, and ongoing platform maintenance.

Multi-year contracts are available at a discounted rate, with reduced annual pricing applied when two- or three-year access is purchased, as shown in the pricing table. The service is sold independently or alongside other Climate Essentials products and does not depend on the number of sites or suppliers.

Additional support and advisory services can be purchased separately if required, for example, to provide tailored workshops, facilitation, or programme support. All optional support is priced transparently and is not mandatory.

Period	Cost
1 year	£6,000.00
