Security tested
Compliance verified

V5 WINTER 2024

Foreword

With great pride and heartfelt gratitude, I present to you the Winter 2024 Service Catalogue for Cognisys. Over 2024, we have celebrated remarkable milestones, all made possible by the unwavering support and trust of our clients. It is my pleasure to share some of our exciting developments and new offerings that are paving the way for an even more impactful year ahead.

To begin, I am thrilled to announce that Cognisys has been recognised as Vanta's #1 Global Service Partner, an achievement that reflects our team's unwavering commitment to **Delivering Trust Worldwide** through our leading compliance and security services.

Aligned with our commitment to global expansion, we are delighted to officially launch Cognisys in the United States this month. This strategic move allows us to extend our cyber security and compliance expertise to an even broader audience. Our US presence will enhance our ability to support clients more.

The success of our Digital Trust Accelerator (DTA) program is another source of pride. With a remarkable 100% pass rate, the program highlights the synergy of our clients' dedication and our team's expertise. In response to this success, we are expanding our offerings to include a new **SOC 2 in 4 Weeks DTA program**, complementing our established ISO 27001 in 6 Weeks program. These accelerator programs are designed to streamline the compliance journey, helping organisations swiftly meet essential security standards.

In the face of an ever-expanding cyber security threat landscape, our penetration testing services have continued to lead in innovation. The rising demand for our Assumed Breach and Ransomware Readiness assessments reflects the critical need for proactive defence strategies. We remain committed to advancing these services to help you stay ahead of emerging threats.

Additionally, our SmartScan managed vulnerability scanning service continues to grow, providing continuous, real-time protection through continuous assessments. This service exemplifies our commitment to delivering adaptive, comprehensive solutions that meet your organisation's specific needs.

We look forward to continuing our partnership and reaching new milestones together.

Steve Byrom
COO, Cognisys

WE HELP CLIENTS
ACHIEVE FRAMEWORKS
INCLUDING:

Your security and compliance partner, delivering **trust** worldwide

WHO ARE COGNISYS?

Cognisys are your trusted security and compliance partner delivering GRC consulting, CREST-accredited penetration testing and industry-leading vulnerability management.

As Vanta's leading global partner, we've helped hundreds of businesses achieve their security compliance goals. We have a proven track record of delivering trust to companies of all sizes - from tech startups to global industry leaders.

EXPERT-LED PENETRATION TESTING

Our methodology has been audited and approved by CREST, and we are ISO 27001 and ISO 9001 certified, ensuring the highest levels of security and quality. From the minute we onboard you and our detailed processes kick in, you'll feel like you are in safe hands.

SMARTSCAN VULNERABILITY MANAGEMENT

SmartScan consolidates data, automates remedies and delivers real-time threat intelligence, empowering you to prioritise risks and fortify your defences. SmartScan has remediated over 15,000 vulnerabilities for our clients in the last 12 months.

COMPLIANCE DELIVERED BY VANTA'S LARGEST PARTNER

Our experienced governance, risk and compliance team uses tried and trusted methodology and Vanta's leading compliance automation platform to shorten our clients' time to audit and compliant status.
