Where the Customer accesses this site from locations outside the United Kingdom, the Customer does so on the Customer's own initiative and is responsible for compliance with local laws.

12.10

The Customer understands that by placing information on root servers, depending on the configuration of the server, possibly due to client staff configuration changes, such information may be accessible to other Internet users. Mission does not limit or restrict access to such information, nor protect any such information from copyright infringement or other wrongful activity. The Customer assumes full responsibility and risk for their use of the Root Server. It is the Customer's sole responsibility to evaluate the accuracy, completeness and usefulness of all opinions, advice, services, and other information, and the quality and merchantability of all merchandise, provided through Mission or on the Internet generally.

15.1.

Except with respect to issues concerning the physical security of Mission's data centre facilities, the Customer agrees that should any customer administrator change certified security settings, the security of the server and all Services is solely the Customer's responsibility. It then becomes the sole responsibility of the Customer to maintain and update security software on the Root Server. Under no circumstance will Mission be held liable for security breaches and damage caused by the Customer's changes or failure to maintain or update the security software or to maintain adequate security protocols in the administration of the Root Server. Any security setting changes required or made by client administrators must be notified to Mission within 1 day of any changes being made.

15.2.

To secure Root Servers from external misuse, Customers are encouraged to utilise packet filtering technology as part of any changes.

The Customer agrees that if any security contraventions are believed to have occurred in association with the Customer's server, Mission has the right to suspend access to the server pending an investigation and resolution. The Customer also agrees that Mission has the right to cooperate in any government or legal investigation regarding any aspect of its services, including any servers used by the Customer. Any use of Mission's system to engage in software piracy or other contraventions of law will result in service suspension and be immediately reported to the appropriate authorities.

The Customer must take adequate measures which comply with the current state of technology to ensure that any misuse of the server is effectively prevented. Mission reserves the right to block any server at any time which causes a loss of network integrity or affects the network operation of other servers without prior warning including those actions which are not specifically referred to below. Mission further reserves the right to remove a server from the network if it is deemed to be causing excessive load or traffic over an unacceptably long period. Mission further reserves the right so far as permitted by law to maintain logs of impermissible actions and to preserve the contents of servers as well as the right to hand over such logs or contents in accordance with legislation, on Order of the Court or orders from any other body appointed by law. PROHIBITED ACTIONS AND CONSEQUENCES OF INFRINGEMENTS

2. IP SPOOFING

IP spoofing refers to the falsification of the IP sender address for outgoing IP packages. This technology is generally used to conceal the origin of IP packages. Mission has installed anti-spoofing filters in order to prevent IP spoofing. All attempts at IP spoofing are automatically logged. Any attempt at IP spoofing will lead to the immediate blocking of the server without prior warning.

3. MAC SPOOFING AND MAC FLOODING

MAC spoofing refers to the falsification of a sender address of an Ethernet framework. This technology is often used to give a false identity in the local network or for a router. MAC flooding refers to the sending of Ethernet frameworks with a number of different sender addresses for the purpose of flooding MAC databanks of switches thus causing a malfunctioning of these switches. Mission has put in place measures which in the event of any attempt at MAC spoofing or MAC flooding trigger an immediate and automatic blocking of the server without prior warning. All attempts at MAC spoofing and MAC flooding are automatically logged.

4. ARP SPOOFING AND ARP FLOODING

ARP spoofing refers to the falsification of an ARP entry on a router by unsolicited ARP replies. This technology is often used to prepare a man-in-the-middle attack. ARP flooding refers to the mass transmission of ARP replies for the purpose of flooding the ARP databank of a router and thus causing a malfunctioning of this switch. All attempts at ARP spoofing and ARP flooding are logged and will lead to the immediate blocking of the server without prior warning.

5. TRANSMISSION OF SWITCH PROTOCOL FRAMEWORKS

The transmission of switch protocol frameworks, in particular spanning tree protocol frameworks (BPDUs) will lead to the immediate and automatic blocking of the server without prior warning. All attempts to transmit switch protocol frameworks are logged.

6. TRANSMISSION OF SPAM AND MALWARE

Spam refers to the mass transmission of unsolicited or unrequested email advertisements. Malware refers to any type of injurious software e.g. viruses, worms, trojans, backdoors, spyware or illegal dialers. The sending of spam can lead to a warning being sent to the server operator or to the immediate blocking of the server without prior warning depending upon the gravity of the infringement. The sending of Malware will lead to the immediate blocking of the server without prior warning.

7. PHISHING

Phishing refers to illegal attempts to release access data for security areas to a wide distribution of users. Well known websites are often imitated so as to appear deceptively genuine for this purpose. The websites are reached under domain names which are similar to the original domain names. Users are invited by misleading emails to enter their access data on such hoax websites. Phishing will lead to the immediate blocking of the server without prior notice.

8. DENIAL OF SERVICE ATTACKS

Denial of Service attacks (DoS) refers to an attack on a server with the purpose of disabling one or more of its services. This generally occurs by overloading e.g. by attacks with a number of small UDP packages or TCP-SYN packages. Where the attack is coordinated by a larger number of other systems this is referred to as a Distributed Denial of Service (DDoS). Mission has put in place measures which permit the empirical recognition of Denial of Service attacks. All Denial of Service attacks are logged. A Denial of Service attack will lead to the immediate blocking of the system without prior warning.

9. SCANNING OF EXTERNAL COMPUTERS

The Scanning of computers refers to the systematic searching for services on this computer with the purpose of detecting weaknesses in the services in order to utilise them for hacking at a later time. The scanning of external computers can lead to a warning being sent to the operator of the service or to the immediate blocking of the server without prior notice according to the seriousness of the infringement.

10. NON-AUTHORISED ACCESS OR ATTEMPTS OF HACKING

All non-authorised or illegal access to IT systems (e.g. "hacking" will lead to the immediate blocking of the server without prior warning.

11. OFFERING OF UNLAWFUL INFORMATION

12. BREACH OF COPYRIGHT ETC.

The Customer is prohibited either from offering or distributing any information which is protected by copyright without lawful authority. The operating of so called P2P exchanges, download services or streaming services over which copyright protected information could be distributed without lawful authority is not permitted. It is also prohibited to make available links which connect to P2P exchanges, download services, streaming services or information provided by them. In case of infringement Mission reserves the right to remove the server from the network without prior warning and to terminate the agreement.

TERM

- 10.1 This Agreement shall run from the Commencement Date for an Initial Period of 12 [twelve] months. Thereafter for consecutive periods of one year (each such period being referred to herein as a "Renewal Term") until this Agreement is terminated either pursuant to clause 17 or by not less than two months' written notice given by the Licensee.
- 10.2 Should any ancillary, related or dependant software become unsupported, obsolete or be withdrawn from commercial sale, this agreement and liability shall terminate within 30 days and the User must terminate its use of the software.

- 10.3 There is no time limit on the use of this Software. The conditions of use within this document will apply continuously while the software is in use and until a termination of use takes place as described in this document. You accept that the Company will automatically lapse all upgrade, support and warranty obligations after 36 months but you will continue to be bound by all licence conditions while the software is being used.

LICENSEE'S RESPONSIBILITIES

- 11.1 The Licensee shall ensure that it has not less than one and unless otherwise agreed in writing by the Company not more than [2] Licensee Administrators and that its other personnel who use the Software receive adequate training as advised by the Company from time to time.
- 11.2 Where any Maintenance and Support is to be provided at the Licensee's premises the Licensee shall provide the Company's personnel with adequate facilities and a safe place of work and comply with all prevailing employee legislation.
- 11.3 The Licensee shall maintain a log of all faults and errors, possibly using the Company helpdesk system, that may arise in its use of the Software and make this log available to the Company whenever a request for Maintenance and Support is made.
- 11.4 The Licensee shall operate the Software in accordance with the Company's recommendations and shall purchase any other manufacturers licences required for the legal operation of the software. Where the number of simultaneous users exceeds the licensed number of users, the Licensee agrees to an additional licence fee per user per annum. This additional licence fee is payable at the beginning of the licence term.
- 11.5 The Licensee shall accept and operate the latest Maintenance Release of the Software wherever possible. The Company shall not be obliged to correct errors, which would not have occurred if the Licensee had been operating the latest Maintenance Release.
- 11.6 Requests for Maintenance and Support may only be made by a Licensee Administrator. A request for Maintenance and Support in respect of error correction may be made by telephone or web helpdesk and must be accompanied by details of the error message displayed by the Software and the circumstances giving rise to such error. The Licensee shall provide such further information relating to the error as the Company shall reasonably require.

12. PROVISION OF MAINTENANCE SERVICES

12.1 The Company shall respond to a request for Maintenance and Support in accordance with the following scale:

Severity 1 if a fault arises in the running of the Software rendering the Software or a major function of the Software unusable the Company shall respond within [one] working hour and if possible fix the fault within [eight] working hours.

Severity 2 If a fault arises in the running of the Software affecting the use or reducing the functionality of the Software but falling short of Severity 1 the Company shall respond within [four] working hours and if possible fix the fault within [twenty-four] working hours.

Severity 3 if a fault arises in the running of the Software giving rise to a minor problem which the Licensee can work around the Company shall respond within [eight] working hours and if possible fix the fault within [twenty-one] working days.

12.2 The Company may supply Maintenance Releases to the Licensee from time to time and the Licensee shall install and use such Maintenance Releases.

12.3 The Company is not obliged under this Agreement to provide Maintenance and Support in respect of errors caused either directly or indirectly as a result of:

12.3.1 Accident, negligence or abuse by the Licensee or any third party;

12.3.2 failure of the Designated Equipment for any reason whatsoever;

12.3.3 causes external to the Designated Equipment such as electric power fluctuations or failure;

12.3.4 insufficient resources in the Designated Equipment to run the Software satisfactorily.

LIMITATION OF LIABILITY

13.1 The following provisions prevail over all other clauses in these terms and conditions.

13.2 The Company does not exclude or limit its liability to the Licensee for death or personal injury caused by its negligence.

13.3 Except as otherwise stated in this Agreement, the Company's entire liability to the Licensee and the Licensee's sole remedy for any cause whatsoever, regardless of the form of the action, whether in contract or tort (including negligence) shall be limited to 25% of the cost of the initial licence fee.

- 13.4 The Company will not be liable to the Licensee for loss arising from or in connection with any representation, agreement, statement or undertaking made before the parties entered into the contract on these terms and conditions other than those representations, agreements, statements or undertakings confirmed by duly authorised representatives of the Company in writing and expressly incorporated or referred to in the Agreement. Nothing in these terms and conditions shall limit the Company's liability for fraudulent misrepresentation.
- 13.5 The Licensee warrants that the Software complies with the specification statements as set out by Mission both 30 days before and 30 days after the Licence Commencement date.
- 13.6 The Company has used reasonable endeavours to ensure that the Software is Year 2000 compliant (as defined in the British Standards Institution "Definition of Year 2000 Conformity Requirements"). However, the Company cannot accept any liability in contract, tort or otherwise in relation to any damages, losses, costs or expenses which arise through any difficulties caused over date changes and in particular, but without limitation, which arise through use of the Software other than on the Designated Equipment or use with other software or with the Licensee's data.
- 13.7 The Company shall not in any event be liable to the Licensee in contract, tort or otherwise for any loss of data, profit, production, anticipated savings, goodwill or business opportunities or any type of indirect, economic or consequential loss even if that loss or damage was reasonably foreseeable or the Company was aware of the possibility of that loss or damage arising.
- 13.8 The owner will warrant that the software supplied is free of virus infection, this being different to a warranty that the software is bug free.
- 13.9 The parties agree that the provisions of this clause are fair and reasonable having regard to all the circumstances, including but not limited to the unavailability of insurance cover on commercially acceptable terms in general and in respect of historic Year 2000 Compliance risks.

INTELLECTUAL PROPERTY RIGHTS INDEMNITY

- 14.1 The Company shall indemnify and hold harmless the Licensee against any damages (including costs) that may be awarded or agreed to be paid to any third party in respect of any claim or action that the normal operation, possession or Use of the Software Materials by the Licensee infringes the patent, copyright, registered design or trade mark rights of the said third party (an "Intellectual Property Infringement"), provided that the Licensee:
- 14.1.1 gives notice to the Company of any Intellectual Property Infringement immediately upon becoming aware of it;
- 14.1.2 gives the Company the sole conduct of the defence to any claim or action in respect of any Intellectual Property Infringement and does not at any time admit liability or otherwise settle or compromise or attempt to settle or compromise the claim or action except upon the express written instructions of the Company;
- 14.1.3 acts in accordance with the reasonable instructions of the Company and gives to the Company such assistance as it reasonably requires in respect of the conduct

of the defence.

- 14.2 The Company shall reimburse the Licensee its reasonable costs incurred in complying with the provisions of clause 14.1.
- 14.3 The Company will have no liability to the Licensee in respect of an Intellectual Property Infringement if it results from any breach of the Licensee's obligations under these terms and conditions.
- 14.4 In the event of an Intellectual Property Infringement, the Company will be entitled at its own expense and option either to:
 - 14.4.1 procure the right for the Licensee to continue using the Software Materials; or
 - 14.4.2 make such alteration, modification or adjustment to the Software Materials so that they become non-infringing without incurring a material diminution in performance or function; or
 - 14.4.3 replace the Software Materials with non-infringing substitutes provided that the substitutes do not entail a material diminution in performance or function.

TERMINATION

- 15.1 The Licence will continue until terminated in accordance with clause 15.2.
- 15.2 The Licence may be terminated:
 - 15.2.1 by the Licensee upon giving not less than 30 days notice in writing to the Company;
 - 15.2.2 forthwith by the Company if the Licensee fails to pay any monies due under these terms and conditions within 30 days of the due date;
 - 15.2.3 forthwith by either party if the other commits any material breach of any of these terms and conditions (other than one falling within clause 15.2.2) and which (in the case of a breach capable of being remedied) shall not have been remedied within 14 days of a written request to remedy it;

- 15.3 Any termination of the Licence will be without prejudice to any other rights or remedies a party may be entitled to hereunder or at law and will not affect any accrued rights or liabilities of either party nor the coming into or continuance in force of any provision which is expressly or by implication intended to come into or continue in force on or after such termination.

- 15.4 Within 10 days of the termination of the Licence (irrespective of the reason for termination), the Licensee shall at the Company's sole option either return all copies of the Software Materials in its possession or control or destroy all copies of the Software Materials in its possession or control.

FORCE MAJEURE

- 16.1 Neither party will be liable for any breach of its obligations under these terms and conditions resulting from causes beyond its reasonable control (an "Event of Force Majeure").
- 16.2 Each of the parties agrees to give notice to the other upon becoming aware of an Event of Force Majeure, such notice to contain details of the circumstances giving rise to the Event of Force Majeure.
- 16.3 If a default due to an Event of Force Majeure continues for more than 4 weeks, then the party not in default will be entitled to terminate the Licence. Neither party will have any liability to the other in respect of the termination of the Licence as a result of an Event of Force Majeure.

WAIVER

- 17.1 The waiver by either party of a breach or default of any of these terms and conditions by the other party will not be construed as a waiver of any succeeding breach of the same or any other provision nor shall any delay or omission on the part of either party to exercise or avail itself of any right power or privilege that it has or may have hereunder operate as a waiver of any breach or default by the other party.

NOTICES

- 18.1 Any notice, request, instruction or other document to be given under these terms and conditions shall be in writing and shall be delivered by first class post or by hand to the address of the other party shown in the Agreement (or to such other address for service of notices etc. as may have been notified by that other party in accordance with this clause) and any such notice or other document will be deemed to have been served (if delivered) at the time of delivery and (if sent by post) upon the expiration of 48 hours after posting.

INVALIDITY, SEVERABILITY AND WHOLE AGREEMENT

- 19.1 If any provision of these terms and conditions is found by any court or administrative body to be invalid or unenforceable, the invalidity or unenforceability of such provision will not affect the other provisions of these terms and conditions and all provisions not affected by such invalidity or unenforceability will remain in full force and effect. The parties agree to attempt to substitute for any invalid or unenforceable provision a valid or enforceable provision, which achieves to the greatest extent possible the economic, legal and commercial objectives of the invalid or unenforceable provision.
- 19.2 The Agreement and these terms and conditions constitute the whole agreement and understanding of the parties as to their subject matter and there are no terms, conditions, warranties or obligations whether oral or written, express or implied, whether by statute or common law, other than those contained in or referred to in these terms and conditions.

ASSIGNMENT AND SUB LICENSING

- 20.1 The Licensee shall not be entitled to assign or otherwise transfer these terms and conditions nor any of its rights and obligations hereunder nor sub-license the use (in whole or in part) of the Software Materials without the prior written consent of the Company.
