

Cyber Toolkit is a new service offering many premium cyber tools in a single toolkit which is free to use for most. Our aim is to provide SME users with advanced technical auditing and monitoring free of charge while providing larger organisations and managed service providers with effective supply chain and customer risk management.

Cyber Toolkit tools are organised into the blow categories:

- Technical Assessments
- Real-Time Monitoring
- Cyber Assurance
- Investigations

Most of these tools are offered completely free of charge, with credits required only for specific advanced features such as subscribing to the data of suppliers or the creation of custom themes and URLs.

Paid Elements

Each credit is charged at £1, applicable for subscribing to supplier data or advanced tools. Credits can be purchased as needed.

Component Name	Unit Cost	VAT	Total Cost
Cyber Toolkit Credit	£1	20%	£1.20
