All prices are exclusive of VAT. VAT will be charged at the prevailing rate where applicable.

Pricing Overview

Service name	Service type	Price unit	Device/Network band	Unit price (£)	Description
Route Reports SaaS Platform	SaaS	Per device per year	1 device	£13,500.00	Cloud platform licence (Route View and data ingestion)
Route Reports SaaS Platform	SaaS	Per device per year	2-3 devices	£7,500.00	Cloud platform licence (Route View and data ingestion)
Route Reports SaaS Platform	SaaS	Per device per year	4-10 devices	£6,200.00	Cloud platform licence (Route View and data ingestion)
Route Reports SaaS Platform	SaaS	Per device per year	11-20 devices	£5,500.00	Cloud platform licence (Route View and data ingestion)
Route Reports SaaS Platform	SaaS	Per device per year	21+ devices	£5,100.00	Cloud platform licence (Route View and data ingestion)
Safety Inspection Data Module	SaaS add-on	Per device per year	Each device*	£4,500.00	Defect Detection and Exporting *(to be applied to all devices in a deployment when chosen)
PAS 2161 Data Module	SaaS add-on	Per organisation per year	Up to 500 km	£8,500.00	PAS 2161 accredited data and reporting
PAS 2161 Data Module	SaaS add-on	Per organisation per year	501-1,000 km	£12,000.00	PAS 2161 accredited data and reporting
PAS 2161 Data Module	SaaS add-on	Per organisation per year	1,001-2,500 km	£20,000.00	PAS 2161 accredited data and reporting
PAS 2161 Data Module	SaaS add-on	Per organisation per year	2,501-5,000 km	£32,000.00	PAS 2161 accredited data and reporting
PAS 2161 Data Module	SaaS add-on	Per organisation per year	Over 5,000 km	£44,000.00	PAS 2161 accredited data and reporting
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	Up to 500 km	£14,125.00	Deterioration Modelling, Advanced condition defect detection
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	501-1,000 km	£21,000.00	Deterioration Modelling, Advanced condition defect detection
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	1,001-2,500 km	£35,000.00	Deterioration Modelling, Advanced condition defect detection
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	2,501-5,000 km	£56,000.00	Deterioration Modelling, Advanced condition defect detection
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	Over 5,000 km	£77,000.00	Deterioration Modelling, Advanced condition defect detection
Multi-year discount	Discount	Percentage	24 months	-8%	Applies to all Lot 2 services for multi-year commitments
Multi-year discount	Discount	Percentage	36 months	-10%	Applies to all Lot 2 services for multi-year commitments
Multi-year discount	Discount	Percentage	48 months	-12%	Applies to all Lot 2 services for multi-year commitments
Multi-year discount	Discount	Percentage	60 months	-15%	Applies to all Lot 2 services for multi-year commitments

Pricing: Route Reports SaaS Platform

The Route Reports SaaS Platform subscription includes access to the cloud-hosted Route Reports platform, platform configuration, user onboarding and standard service support. Where required to enable the SaaS service, Route Reports may provide managed data capture enablement to support automated data ingestion into the platform. Users have access to automatically uploaded Route View imagery and associated geo-spatial data within the cloud platform, enabling visualisation and analysis of inspection data across their road network.

Standard SaaS support is included Monday to Friday, 9:00am to 5:00pm (UK business hours) via telephone or email.

Service name	Service type	Price unit	Device band	Unit price (£)	Description
Route Reports SaaS Platform	SaaS	Per device per year	1 device	£13,500.00	Cloud platform licence (Route View and data ingestion)
Route Reports SaaS Platform	SaaS	Per device per year	2-3 devices	£7,500.00	Cloud platform licence (Route View and data ingestion)
Route Reports SaaS Platform	SaaS	Per device per year	4-10 devices	£6,200.00	Cloud platform licence (Route View and data ingestion)
Route Reports SaaS Platform	SaaS	Per device per year	11-20 devices	£5,500.00	Cloud platform licence (Route View and data ingestion)
Route Reports SaaS Platform	SaaS	Per device per year	21+ devices	£5,100.00	Cloud platform licence (Route View and data ingestion)

Pricing: Safety Inspection Data Module

An optional add on to enable the automatic detection of road defects and other defects typically recorded by a Highways Safety Inspection. Includes integrations to commonly used Works Management Systems, allowing for a seamless workflow to export the automatically detected defects. Where this module is chosen, it must be applied across all devices in a deployment.

Service name	Service type	Price unit	Device band	Unit price (£)	Description
Safety Inspection Data Module	SaaS add-on	Per device per year	Each device*	£4,500.00	Defect Detection and Exporting *(to be applied to all devices in a deployment when chosen)

Pricing: PAS 2161 Data

The PAS 2161 Module is an optional SaaS add-on that provides PAS 2161 aligned workflows, data structures and reporting outputs within the Route Reports cloud platform. The module supports the generation of PAS 2161 compliant data and reports from inspection data captured using the platform. PAS 2161 formatted outputs can be exported directly from the platform.

Service name	Service type	Price unit	Network band	Unit price (£)	Description
PAS 2161 Data Module	SaaS add-on	Per organisation per year	Up to 500 km	£8,500.00	PAS 2161 accredited data and reporting
PAS 2161 Data Module	SaaS add-on	Per organisation per year	501–1,000 km	£12,000.00	PAS 2161 accredited data and reporting
PAS 2161 Data Module	SaaS add-on	Per organisation per year	1,001–2,500 km	£20,000.00	PAS 2161 accredited data and reporting
PAS 2161 Data Module	SaaS add-on	Per organisation per year	2,501–5,000 km	£32,000.00	PAS 2161 accredited data and reporting
PAS 2161 Data Module	SaaS add-on	Per organisation per year	Over 5,000 km	£44,000.00	PAS 2161 accredited data and reporting

Pricing: Advanced Road Condition Monitoring

Optional SaaS add-on providing advanced condition analytics, deterioration modelling and network-level reporting software to support asset management and long-term planning. Includes the PAS 2161 Data module.

Service name	Service type	Price unit	Network band	Unit price (£)	Description
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	Up to 500 km	£14,125.00	Deterioration Modelling, Advanced condition defect detection
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	501–1,000 km	£21,000.00	Deterioration Modelling, Advanced condition defect detection
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	1,001–2,500 km	£35,000.00	Deterioration Modelling, Advanced condition defect detection
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	2,501–5,000 km	£56,000.00	Deterioration Modelling, Advanced condition defect detection
Advanced Road Condition Monitoring	SaaS add-on	Per organisation per year	Over 5,000 km	£77,000.00	Deterioration Modelling, Advanced condition defect detection
