

G-Cloud 15 Services

Cloud Consultancy, Support, Professional and Managed Services

Service Attributes

Service Type – Cloud Support

Service Name

Cloud Migration Planning

About Your Service

Dacoll provides customers with on-going support/managed services to enable customers to effectively utilise the Cloud (private, hybrid or public cloud) for their benefit. We provide consultancy to assist in the planning of migrations from existing cloud or on-premises workloads. Migrations can be a move of existing technologies or transformation to native cloud services.
