

Pricing – AIMS Grant Management System (G-Cloud 15)

1. Supplier details

Supplier name: AIMS Software Ltd

Registered address: Ushers Court, 31–33 Ushers Quay, Dublin 8, Ireland

Website: <https://www.grantmanagementsoftware.com>

Framework: G-Cloud 15

2. Overview of pricing approach

AIMS is provided as a **subscription-based Software-as-a-Service (SaaS)** solution.

Pricing is based on:

- the **scale and complexity** of the solution
- the **hosting and support requirements**
- optional professional services required for onboarding or change

Pricing is **not based on the number of users** (internal, external, applicants or reviewers).

3. Core subscription pricing (annual, recurring)

The annual subscription includes:

- software licence
- hosting
- security
- maintenance
- defect support
- standard service availability

Subscription tiers

Subscription tier	Annual price (from)	Description
Foundation	£43,000	Single or low-complexity schemes, limited configuration

Subscription tier	Annual price (from)	Description
Standard	£52,000	Multiple schemes, moderate configuration, higher volumes
Enterprise	£63,000	Complex workflows, integrations, high volumes

All tiers provide access to the full AIMS platform. Pricing reflects **complexity and scale**, not functional restriction.

Tier selection factors

- number of schemes / programmes live
- workflow complexity (simple vs multi-stage scoring/panels)
- integrations required
- expected volumes

4. What is included in the subscription

The annual subscription includes:

- Production environment
- Test/UAT environment
- Hosting and infrastructure
- Security monitoring
- Product maintenance and bug fixes
- Standard support during UK business hours
- Embedded analytics and reporting platform

5. One-off onboarding and implementation costs

Implementation services are typically required when first adopting AIMS.

One-off onboarding costs (from):

Service	Price (from)
Onboarding & implementation	£55,000

Onboarding typically includes:

- project initiation
- discovery and configuration
- testing support
- training

- go-live support

The final price is determined by selecting the applicable tier and options in this pricing document, based on the buyer's confirmed scope at call-off.

This excludes complex migration, bespoke integrations.

Available options include:

- Additional non-production environment (per year)
- Integration (day rates provided)
- Data migration support (day rates provided)
- Onsite training day (plus expenses)

6. Optional professional services (non-recurring)

Professional services may be required for:

- design consultancy
- additional configuration
- reporting changes
- integrations
- data migration
- advisory support
- training

Day rates

Role	Day rate
Professional services	£1,000
Management / project services	£1,120

Professional services are optional and are **not included** in the core subscription unless explicitly stated in the Order Form.

7. Chargeable support services beyond the SLA (optional)

Support requests outside defect resolution (for example configuration advice or "how-to" support) may be provided as chargeable professional services.

Any:

- support allowances

- bundled support
- caps or thresholds

will be specified in the applicable **Order Form**.

8. Expenses

Where on-site services are requested, reasonable travel and subsistence expenses may be charged with prior agreement.

9. Invoicing and payment terms

- Subscriptions are invoiced **annually in advance**
- One-off services are invoiced per agreed milestones
- Payment terms: **30 days from invoice date**
- Prices are exclusive of VAT (where applicable)

10. Price validity

Prices are valid for **30 days** from the date of issue unless otherwise stated.
