

The logo for PreActiv Pricing features the word 'PreActiv' in a stylized font with blue and orange colors, and 'Pricing' in a bold blue font below it. The text is set against a background of two overlapping circles, one light orange and one light blue.

PreActiv Pricing

PreActiv's pricing structure uses a flexible credit-based system, giving Trusts complete control over how perihabilitation services are delivered.

Credits & Base Pricing:

- Each 6-week prehabilitation episode uses 6 credits
- Each weekly extension uses 1 credit
- Credits can be used across surgical and oncology pathways. Periods of use can be determined by clinicians according to patient treatment timelines.

Upon enrolment, all patients are assigned an initial six-week credit block. This may be extended at the Trust's discretion, either weekly or in six-month instalments.

Where required, rehabilitation can be delivered through an additional six-week block.

All initial contracts include a one-off implementation fee of £5,000. This fee is non-recurring and applies only to the initial implementation and setup; it does not apply to contract renewal.

Credits are available for purchase in blocks via a tier system with volume discounts applied. Contact info@preactiv.co.uk for more information.

Item	Cost per patient	Credits Used
6-week Prehabilitation access	£54 - £72	6
Weekly Prehab Extension	£9 - £12	1
6-week Rehabilitation access	£54 - £72	6
