G Cloud 15

Software as Service Pricing

About Ingentive

Ingentive is a UK-based Microsoft accredited partner providing licensing, advisory, and enablement services across Microsoft Dynamics 365, Power Platform, Microsoft 365, Azure, Security, Data & Analytics, and Microsoft AI capabilities. We support clients in selecting, procuring, and managing Microsoft cloud licences aligned to operational, functional, and commercial requirements.

Scope of this Pricing Attachment

This licensing pricing applies to the associated G-Cloud 15 service submission. It supports the provision of Microsoft software licences supplied as part of SaaS solutions delivered under the G-Cloud framework.

Microsoft Licensing Pricing

Ingentive does not set Microsoft licence list prices. Microsoft software licensing is priced in accordance with Microsoft's published pricing and applicable licensing agreements.

Licence costs may vary based on factors including (but not limited to):

- Licence type and edition
- Number of users or capacity required
- Subscription term and billing frequency
- Microsoft price changes and promotions
- Applicable discounts available at the time of purchase

Indicative pricing may be provided during call-off discussions; however, final licensing costs will be confirmed at the point of order in line with Microsoft pricing effective at that time.

Licensing Model and Procurement

Microsoft licences may be supplied under the appropriate Microsoft commercial licensing model, such as the Cloud Solution Provider (CSP) programme or successor arrangements, subject to eligibility and client requirements.

Microsoft Licensing Reference Pricing

Microsoft publishes list pricing for its cloud licences on its official licensing pages. These prices are provided by Microsoft for reference only and may change.

Microsoft licensing pricing information is available at: <https://www.microsoft.com/en-gb/licensing>

Final licence pricing will be confirmed at the point of order in line with Microsoft pricing effective at that time and the applicable licensing agreement.

Exclusions

This SaaS pricing attachment does not include:

- Azure consumption charges
- Consultancy, implementation, or support services (unless explicitly stated)
- Third-party or non-Microsoft software licences

These elements may be covered under separate pricing attachments or agreed as part of a call-off contract, where required.

Disclaimer and Confidentiality
