

Microsoft Sentinel Cloud SIEM

Keeping you protected.

What we offer:

Ingentive provides Microsoft Sentinel Cloud SIEM services that centralise log collection, threat detection and automated response across cloud and on-premises environments. Our service helps organisations monitor security events, identify risks and improve incident response using Microsoft's native analytics, threat intelligence and automation capabilities in Azure.

Service categories:

- Application development and deployment
- Application platforms
- Deployment centric application platforms
 - Application server software platforms
 - Cloud deployment-centric application platforms
 - Transaction processing monitors

Benefits:

- Faster detection of emerging threats
- Reduced investigation time with automated analysis

- Improved incident response consistency
- Enhanced visibility across multi-cloud estates

- Lower security management overheads
- Stronger compliance through centralised auditing

- Scalable security capability without hardware
- Better prioritisation using risk-based alerts

Add-ons & extensions

This can be used as a standalone service, or as an add-on.

Microsoft Sentinel extends Azure Monitor and Azure Log Analytics, and also integrates with Microsoft 365 Defender, Microsoft Entra ID. In addition to this, it will integrate into a wide range of enterprise systems that produce logs or security alerts. This enables centralised monitoring and threat detection across cloud and on-premises environments.

Getting started

Deployment of Microsoft Sentinel requires an active Azure subscription and an Azure Log Analytics workspace. Ingentive assists with initial setup, connector configuration, data ingestion and rule tuning. Access to Sentinel is granted through Azure role-based access control and managed by the customer's Azure administrator.

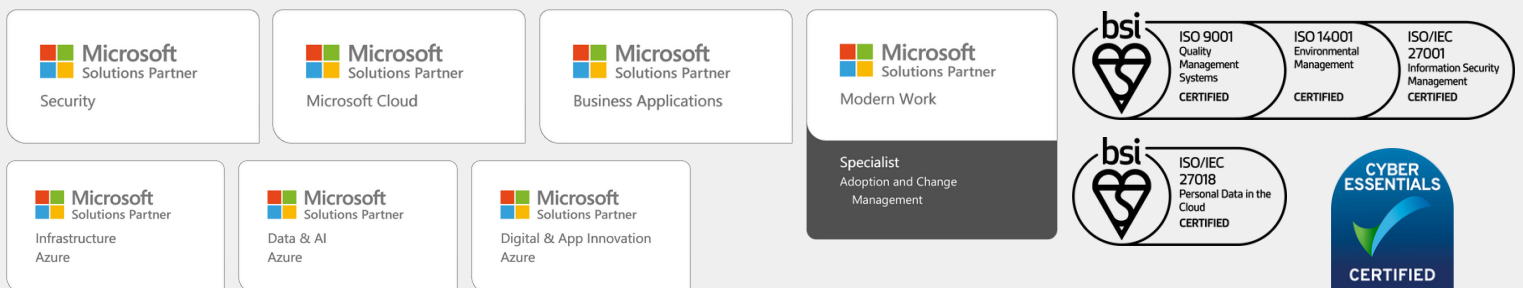

Why choose us?

We live, breathe, eat, sleep, repeat Microsoft and we always have.

As a trusted Microsoft **Inner Circle** member, we bring unmatched expertise, proactive managed services and a transformation-first mindset to keep your business secure, efficient, and future-ready.

Ingentive stands among a select group of organisations worldwide to have earned **all six Microsoft Solutions Partner designations**, plus an additional Microsoft Cloud designation. With seven in total, this exceptional achievement highlights our leadership, innovation, and unmatched capability to help you maximise your Microsoft investments.

Get started with Ingentive

As a Microsoft partner with years of experience providing Microsoft solutions, we want you to get the very best systems for your business, build solutions around you.
