

Skyflo Digital – Pricing Document

All prices are agreed in advance and start from £350 per day, exclusive of VAT. The minimum engagement is one (1) day. Standard working days are Monday to Friday, excluding UK public holidays. Pricing is based on a standard 7.5-hour working day, equivalent to 37.5 hours per week.

Delivery is remote by default. Pricing does not assume regular or multiple on-site days. Where on-site attendance is required, this will be agreed in advance with the client.

Skyflo Digital recognises that, on occasion, delivery requirements may necessitate working in excess of standard hours to meet agreed timescales. Where this is expected to be significant or ongoing, this will be discussed and agreed with the client in advance, including any impact on pricing.

Reasonable travel and subsistence expenses may be charged where on-site attendance has been agreed in advance and will be invoiced at cost, in line with public sector expectations. No expenses will be incurred without prior approval.

Volume discounts may be available on a case-by-case basis for larger or longer-term engagements. Service levels and delivery models can be tailored by mutual agreement.
