

Q PPM Pricing Document

Q PPM Pricing Overview

This document outlines the pricing structure for Q PPM, including deployment tiers, add-ons, support plans, and additional services.

Pricing for Q PPM is fixed for the duration of the G-Cloud 15 framework agreement. All costs are transparent and VAT-exclusive as shown in this document. There are no hidden charges.

Optional add-ons, tailored services, and support plans are listed separately with clear pricing. Any additional work outside the scope of the listed services will be charged at the published day rate.

Lot Mapping:

G-Cloud 15 Lot 2b – Software as a Service (SaaS). Q PPM is a one-off license cost, utilising cloud Microsoft 365 software delivered within the customer's Microsoft 365 tenant (Dataverse/Power Platform/Planner), accessed over the internet, and managed as a cloud service.

Price Mechanism

Prices in this document are VAT-exclusive and fixed for the duration of the G-Cloud 15 framework. Baseline one-off deployment prices are listed for Core and Enterprise. Optional modules, integrations and data migration are fixed-price menu items. Any further configuration, custom development or integration not covered by fixed packages is charged at published day rates. Any additional environments beyond the included number are priced on request at the published day rates. Required Microsoft licences (e.g., Power Apps, Planner/Project, Power BI) are customer-procured and not included in Q PPM prices. Public baseline pricing is this document.

Price Certainty

All list prices are fixed for the duration of G-Cloud 15 and will not increase during the framework term. Quotes remain valid for 90 days. Changes to scope (e.g., additional environments or custom development) must be pre-agreed via a written Statement of Work (SoW) using the published day rates. No indexation applies to listed items during the framework. There are no hidden charges; any travel or expenses will be pre-agreed at cost, if applicable. Please note that QDC is not liable for the Microsoft licences required as part of this engagement and does not accept responsibility for any changes to Microsoft's licence price list.

Deployment Tiers

Q PPM is offered under a one-off perpetual license model, meaning customers pay a single upfront fee for deployment and ongoing use of the solution. This pricing approach differs from subscription-based models and provides long-term value without recurring license costs.

The prices listed below represent the one-off costs for deploying Q PPM at different tier levels.

Tier	Description	Environments (i.e. Dev, Test & Prod)	*Price (Ex VAT)
Q PPM Core	• Full Q PPM Core Deployment, with scaled back features. • Dedicated Project Manager assigned for smooth implementation and coordination. • Up to 4 hours of user & admin training (can include tailored sessions or role-based training). • Technical Handover & Documentation	Up to 3	£19,950.00
Q PPM Enterprise	• Full Q PPM Enterprise Deployment, including all features. • Dedicated Project Manager assigned for smooth implementation and coordination. • Up to 8 hours of user & admin training (can include tailored sessions or role-based training). • Technical Handover & Documentation	Up to 3	£39,950.00

*Please note the full one-off license cost as stated above, will be invoiced upon Q PPM deployment into the customer

Additional modules, integrations, and tailored services are available at separate costs (see sections below)

Add-ons (For Q PPM Core)

Extend the capabilities of your Q PPM Core solution with our optional add-on modules. These features are designed to deliver advanced functionality and greater flexibility for your PMO.

Please note: All listed features are included as part of the Q PPM Enterprise tier.

Add-on Feature	Price (Ex VAT)
Training App	£4,950.00
Advanced Plan Actions	£3,500.00
Document Management & Teams Integration	£3,500.00
Timesheet App	£7,950.00
Advanced Resource Management	£4,950.00
Advanced Financial & Cost Management	£4,950.00
Portfolio Scenario Planning	£8,950.00

Future Roadmap Modules (Release Dates TBC)

As part of our ongoing development of Q PPM, we're introducing a range of optional add-on modules designed to extend functionality and deliver even greater value to your organisation:

Roadmap Module	Label	Price (Ex VAT)
Business Case Management	Q PPM	£9,950.00
Q Ideation Integration	Q Ideation	£14,950.00
Q Goals Integration	Q Goals	£8,950.00
Confidential projects	Q PPM	£5,950.00

Tailored Services

We understand that every organisation has unique requirements, which is why we offer tailored services to meet your specific needs. Our team can provide custom development to extend functionality, integrate with existing systems, and deliver solutions aligned with your business processes.

Pricing:

- **Day rate: £1,000 (Ex VAT) per day for Q PPM custom development.**

This approach ensures flexibility and scalability, allowing you to enhance your Microsoft PPM solution with bespoke features that drive efficiency and deliver measurable value.

Exit & Offboarding

Standard data export (CSV/Excel) and removal of QDC access are included at no additional cost. Optional assisted exit activities (e.g., packaging Power BI assets, environment cleanup) are available at the published day rate and scoped via Statement of Work.

Annual Support Services:

Please note support services are invoiced upfront and in full upon commencement for the agreed support term.

Plan	Features	Price Per Annum (Ex VAT)
Core	• SLA based, core break-fix support package • Standard UK working hours (09:00 – 17:30 PM, Monday to Friday) • Up to three named administrators will have access to the support portal to raise tickets • Free updates to Q PPM (UI, security, performance, and bug fixes), plus stability assurance for Microsoft platform changes.	£10,500.00

Additional Services

Data Migration:

Packages	Description	Price (Ex VAT)
Data Migration	If you require QDC's support to migrate data into Q PPM, our fixed-price, one-off migration package can be procured. <i>Please note: This package is only valid if the data is available and provided in Excel format.</i>	£7,500.00

Integrations/APIs (Out-Of-The-Box):

Packages	Description	Price (Ex VAT)
Azure DevOps	Enable seamless collaboration between development and project teams. Sync work items, track progress, and maintain visibility across your delivery pipeline.	£8,500.00
JIRA	Integrate agile project management with Q PPM for streamlined sprint planning, issue tracking, and real-time reporting - all in one place.	£8,500.00
ServiceNow	Connect IT service management with your PMO.	£8,500.00

	Automate workflows, manage incidents, and align projects with service delivery for greater efficiency.	
--	--	--

For any custom integrations with other third-party systems beyond the list above, these are available on a day-rate basis of **£1,000 (Ex VAT)**.

Required Microsoft Licenses

Please note, QDC is not a Microsoft license provider. You will need to procure the necessary licenses through your existing Microsoft licensing provider. QDC is not liable for any changes to Microsoft's price list.
