Who we are

We are a digital transformation consultancy with deep higher education expertise

We partner with universities to modernise the platforms and processes behind the student journey. Our work spans student records, integration and data, cloud migration, MI and change.

We take an adopt, not adapt approach wherever possible, reducing complexity so solutions are sustainable and easier to run.

We're trusted to deliver at pace, with clear governance and a focus on measurable outcomes, so time, budget and effort are invested where they matter most.

Our purpose is to help universities deliver world-class teaching and research through better data, better systems and better ways of working.

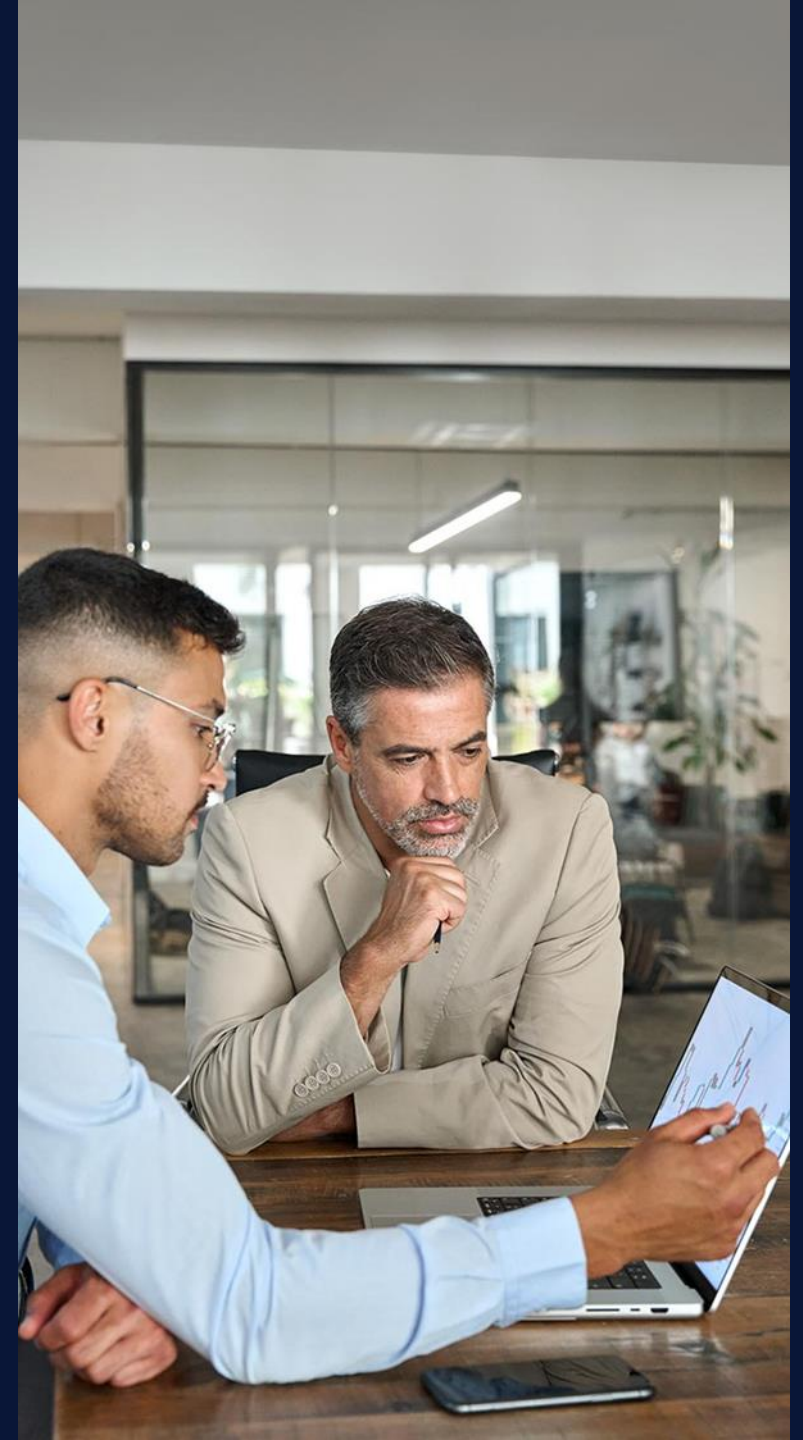

Azure Integration Accelerator (AIS)

We provide a higher education Azure Integration Services (AIS) accelerator, helping universities replace fragile point-to-point interfaces with scalable integration patterns.

We rapidly define integration requirements, design target architecture and implement APIs, messaging and event-based workflows using proven patterns on AIS.

We establish security, monitoring, logging and operational controls, alongside clear documentation and handover to support sustainable operations.

Our approach accelerates delivery while creating reusable integration components your teams can build on.

Features

01

Accelerated Azure Integration Services delivery using proven patterns.

02

Requirements capture and interface catalogue creation for integrations.

03

Target integration architecture and design assurance for AIS.

04

API design, implementation and management pattern guidance.

05

Messaging and event-based workflows using Service Bus and Logic Apps.

Features

06

Integration development using Functions and connectors where appropriate.

07

Security design: authentication, authorisation, secrets and access controls.

08

Monitoring, logging, alerting and operational runbook creation.

09

Testing approach, defect management and release governance sup

10

Documentation, knowledge transfer and handover into BAU support.

Benefits

Your organisation will realise the following benefits from delivery of this service, providing measurable value during our engagement and sustainable improvements that remain in place long after our engagement

03

Improved reliability through monitoring, alerting and operational controls.

04

Better security through consistent authentication and access management.

01

Faster integration delivery using standard patterns and accelerators..

02

Reduced integration fragility compared to point-to-point interfaces.

05

Lower maintenance effort through reusable components and documentation.

06

Improved data flow visibility via logging and traceability.

07

Easier onboarding of new integrations through standardised approaches.

08

Reduced delivery risk through design assurance and testing discipline.

09

Improved scalability for increased volumes and future integrations.

10

Sustainable operations through runbooks, handover and capability uplift.

Why PACT Solutions?

Your institution will benefit from a higher education specialist partner that delivers measurable value and sustainable improvement.

01

Higher education specialist in the UK and Republic of Ireland

02

Independent and vendor-neutral, focused on what works for you

03

Collaborative delivery working alongside and with your teams

04

Clear governance, controls and transparency throughout delivery

05

Sustainable outcomes through knowledge transfer and reusable artefacts

06

Proven track record with multiple institutions, with over 90% repeat business

Why PACT Solutions?

From our partners

BIRMINGHAM CITY
University

“This is a complex and strategically significant programme for the University. PACT’s experience, approach, and commitment to sector best practice gives us real confidence that we deliver lasting improvements for our students, staff, and stakeholders.”

Nick Moore
Director of IT and Digital
Birmingham City University

“One of the things I’m most proud of is that our project was delivered on time and on budget, which is relatively rare within the sector. PACT ensured that happened.”

Jim Irving
Pro Vice-Chancellor, Students & Governance
Southampton Solent University

Royal College of Art

“We have seen tangible improvements in how our integration services are delivered; fewer delays, better data quality, and reliable integrations.”

Seema Kisnay
Assistant Director of Digital Products
Royal College of Art

Next Steps

01

Share a short brief (what you need, timescales, constraints, stakeholders, and success measures). We'll respond with clarifying questions.

02

Arrange a 30–45 minute session to validate scope, agree the right engagement model (project, programme, assurance, recovery), and confirm the most suitable consultant roles.

03

We'll provide a concise statement of work aligned to G-Cloud terms, confirm resourcing, and start mobilisation (kick-off, governance, plan, and delivery cadence).

Digital Transformation for Higher Education

We've lived and learned from the sector's challenges.
Partner with PACT to unlock your digital potential.
