Who we are

We are a digital transformation consultancy with deep higher education expertise

We partner with universities to modernise the platforms and processes behind the student journey. Our work spans student records, integration and data, cloud migration, MI and change.

We take an adopt, not adapt approach wherever possible, reducing complexity so solutions are sustainable and easier to run.

We're trusted to deliver at pace, with clear governance and a focus on measurable outcomes, so time, budget and effort are invested where they matter most.

Our purpose is to help universities deliver world-class teaching and research through better data, better systems and better ways of working.

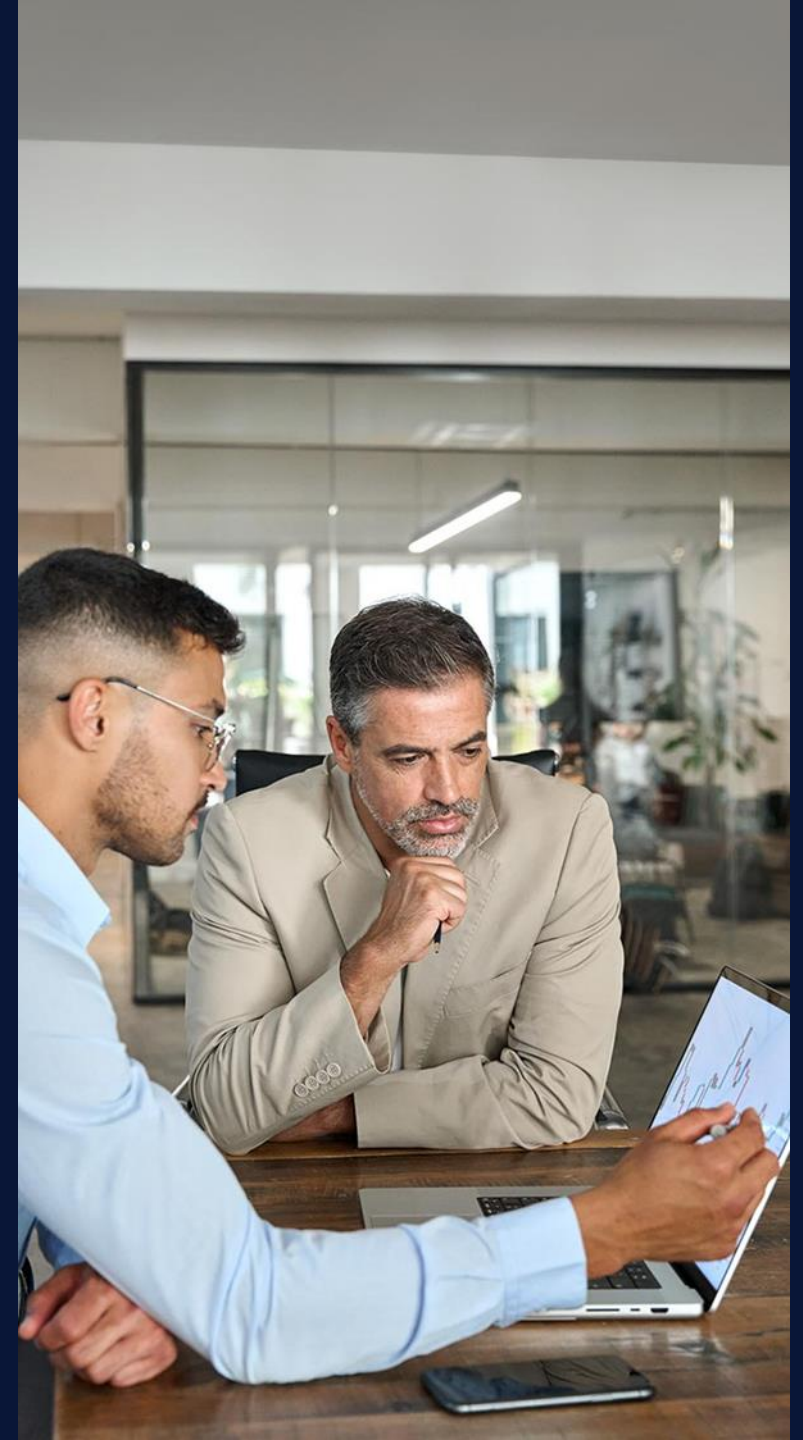

Tribal SITS Implementation

We provide higher education Tribal SITS implementation delivery, supporting universities to implement or re-implement SITS in a controlled, outcome-led way.

We support mobilisation and governance, requirements and design, configuration and build oversight, data migration planning and execution, integrations, testing and operational readiness.

We coordinate workstreams and suppliers, manage RAID and dependencies, and support cutover planning, go-live and stabilisation.

Our approach is collaborative and pragmatic, ensuring effective handover and transition into BAU support.

Why PACT Solutions?

From our partners

BIRMINGHAM CITY
University

“This is a complex and strategically significant programme for the University. PACT’s experience, approach, and commitment to sector best practice gives us real confidence that we deliver lasting improvements for our students, staff, and stakeholders.”

Nick Moore
Director of IT and Digital
Birmingham City University

“One of the things I’m most proud of is that our project was delivered on time and on budget, which is relatively rare within the sector. PACT ensured that happened.”

Jim Irving
Pro Vice-Chancellor, Students & Governance
Southampton Solent University

Royal College of Art

“We have seen tangible improvements in how our integration services are delivered; fewer delays, better data quality, and reliable integrations.”

Seema Kisnay
Assistant Director of Digital Products
Royal College of Art

Next Steps

01

Share a short brief (what you need, timescales, constraints, stakeholders, and success measures). We'll respond with clarifying questions.

02

Arrange a 30–45 minute session to validate scope, agree the right engagement model (project, programme, assurance, recovery), and confirm the most suitable consultant roles.

03

We'll provide a concise statement of work aligned to G-Cloud terms, confirm resourcing, and start mobilisation (kick-off, governance, plan, and delivery cadence).
