Cloud to Cloud Backup (CCB)

Description	Per User Per Year	Total per year for minimum 10 users
Barracuda Data Protection Cloud to Cloud Backup	£26.50	£265.00

Flexible, easy to use Microsoft 365 protection

Barracuda Cloud-to-Cloud Backup gives you the flexibility to restore Microsoft 365 Teams, Exchange, SharePoint, OneDrive, and OneNote data with highly granular detail.

Full SharePoint support means you can backup and restore everything in SharePoint including different site templates, custom lists, permissions, and metadata — eliminating much of the labor and expense associated with restoring files only. You can restore SharePoint libraries, lists, and documents to any SharePoint sites you choose. Backing up and restoring has never been easier.

Barracuda Cloud-to-Cloud Backup offers complete, granular protection of your data with point-in-time retrieval, and both scheduled and on-demand backup. In addition, your data is deduplicated and compressed to maximize storage efficiency and minimize the backup window.
