SERVICE DEFINITION

Business Consulting Services

INTRODUCTION

Decillion Digital provides targeted cloud consulting aligned to organisational needs, helping maximise the return on cloud investments. We deliver strategic planning, cloud architecture design, and FinOps-driven cost optimisation. Our team conducts detailed assessments, migration planning, and Splunk-based analytics to strengthen security, compliance, and operational efficiency across infrastructure and digital-transformation programmes.

SERVICE FEATURES

- Develop cloud business cases and strategic roadmaps aligned to organisational priorities.
- Define target-state cloud architectures and detailed design blueprints.
- Execute proofs of concept and plan end-to-end cloud migrations.
- Establish cloud controls, compliance frameworks, and enterprise integrations.
- Modernise infrastructure across IaaS, PaaS, and SaaS to improve agility and resilience.
- Optimise cloud costs with FinOps practices and continuous spend governance.
- Implement and support the Splunk platform for observability, security, and analytics.
- Design and deploy machine-learning algorithms to unlock data-driven value.
- Deliver turnkey solution development, including analysis, build, and handover.
- Conduct performance evaluations and regulatory assessments to ensure compliance and reliability.

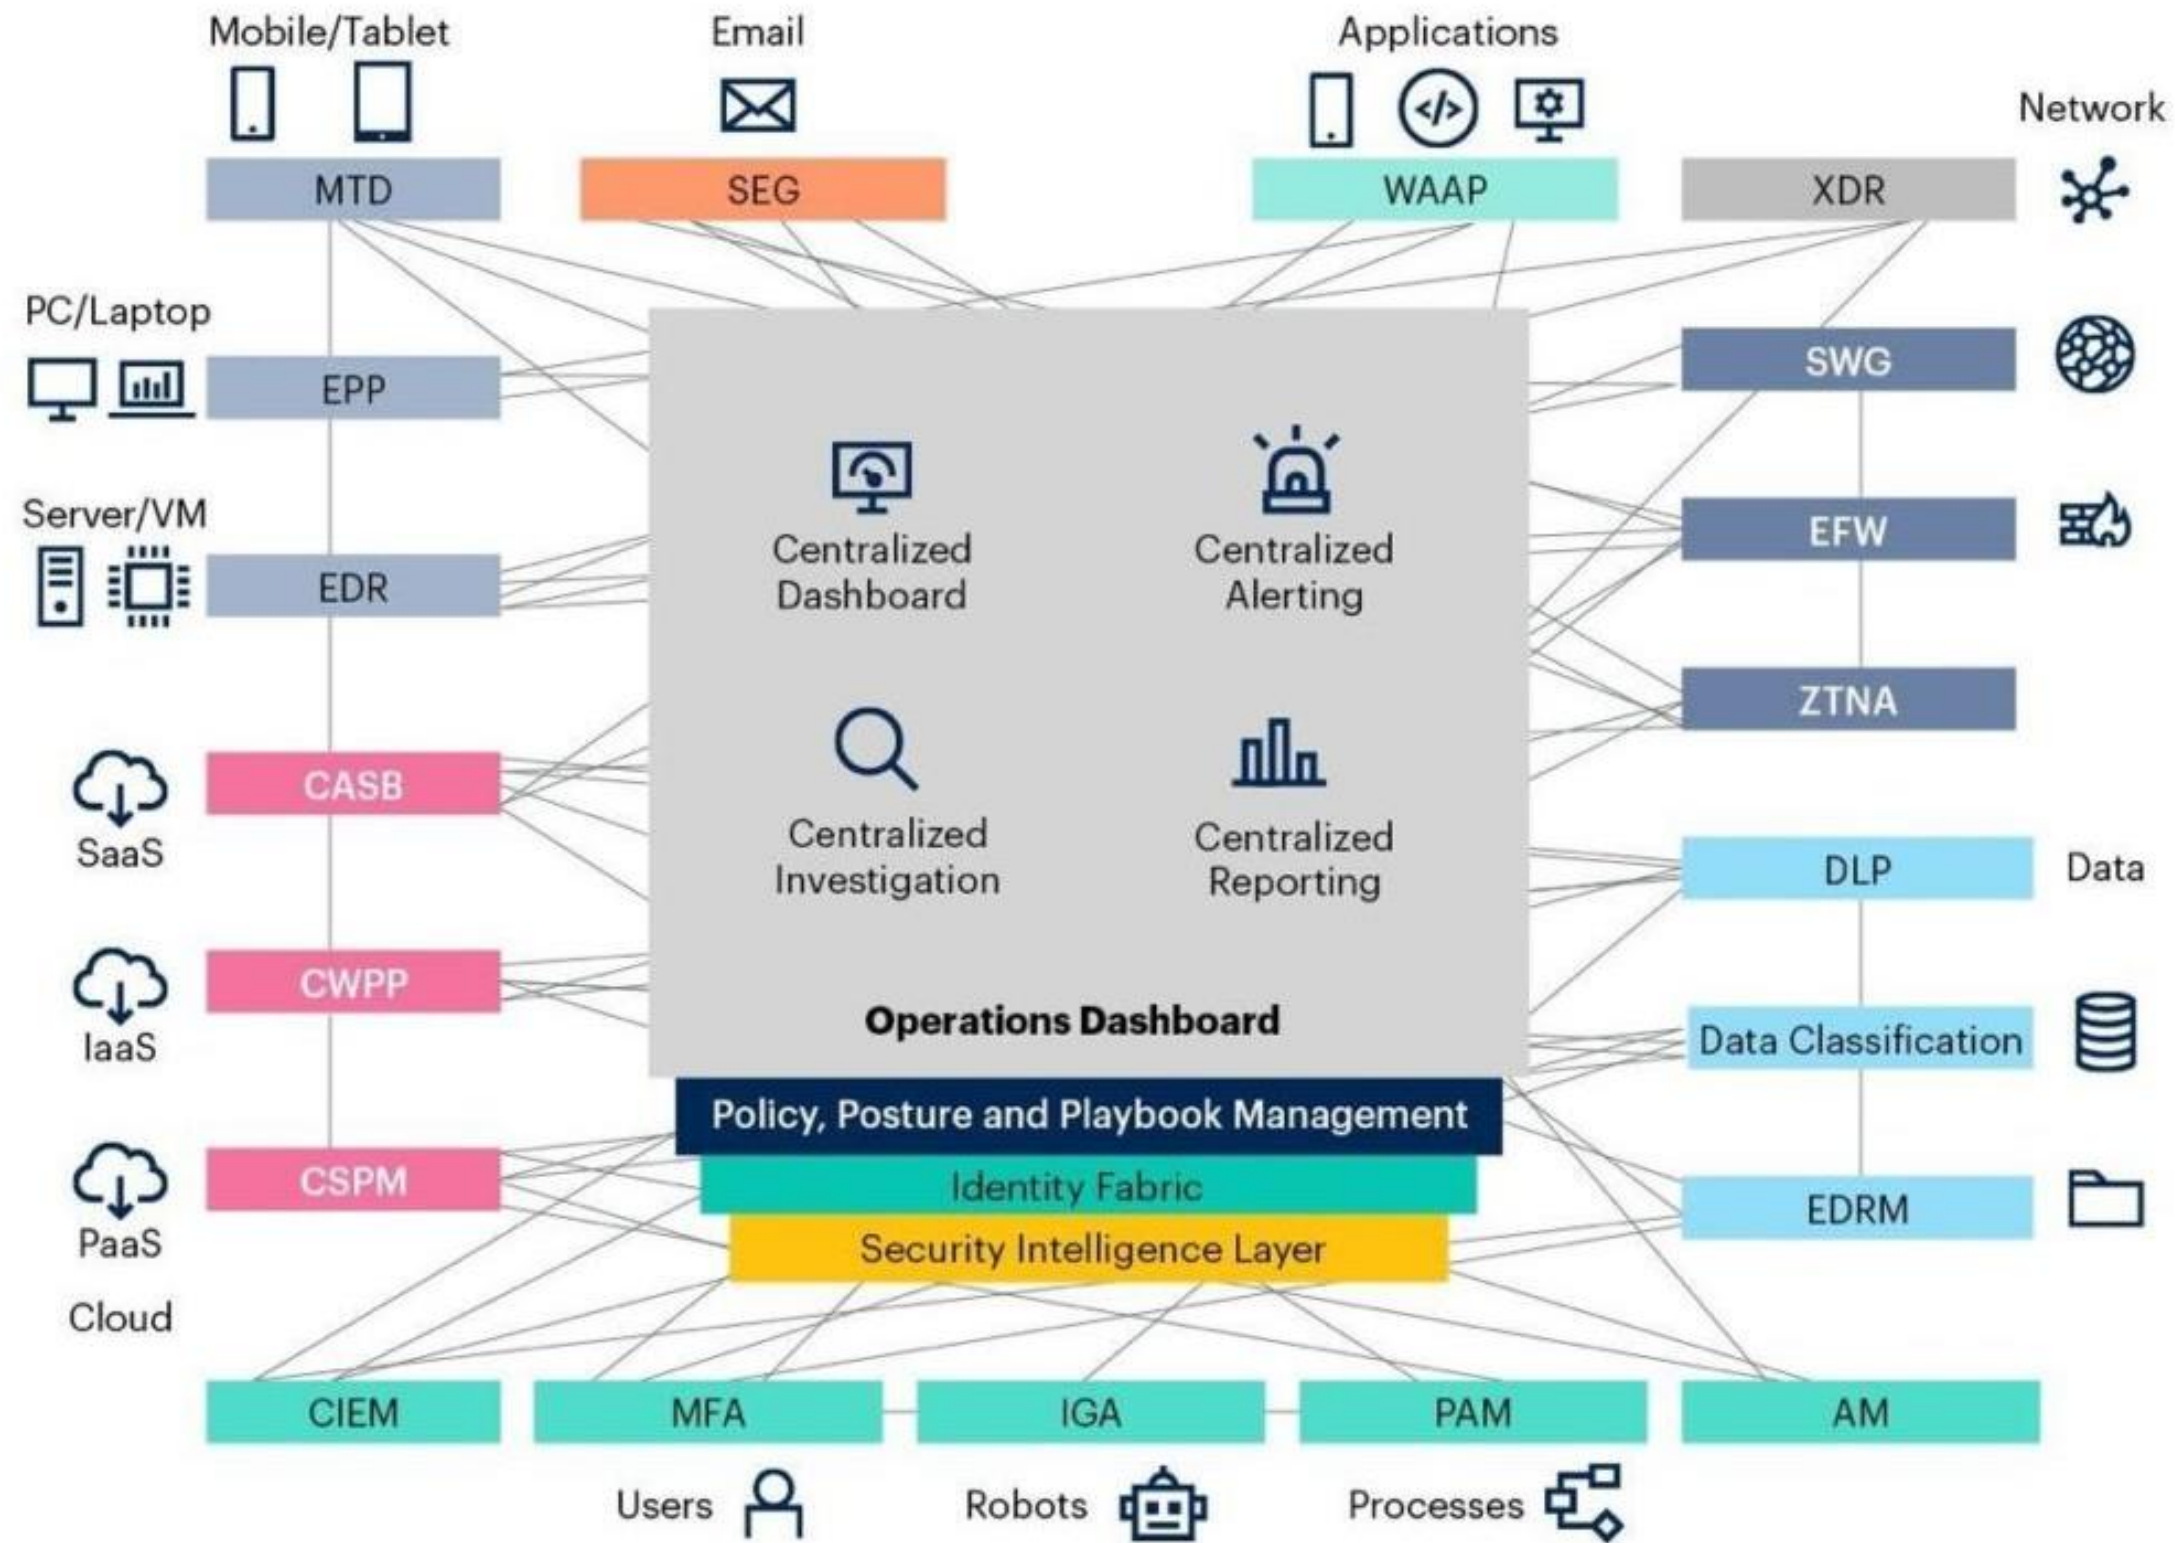

SERVICE BENEFITS

- Provide targeted consulting aligned precisely to organisational priorities and outcomes.
- Deliver clearly defined, tangible outputs that demonstrate measurable value.
- Ensure cloud initiatives are tightly connected to business strategy and long-term goals.
- Apply proven frameworks, toolkits, and methodologies to accelerate delivery.
- Improve time-to-market for digital and cloud-native development activities.
- Reduce operational costs through tailored managed-service and optimisation models.
- Increase procurement efficiency with structured, vendor-agnostic recommendations.
- Strengthen decision-making with guidance from highly experienced cloud specialists.
- Use flexible, agile delivery approaches that adapt to evolving needs.
- Enhance automation and analytics maturity through expert-led consultation.
