SERVICE DEFINITION

Digital By Default Services

INTRODUCTION

Deliver user-centric cloud and web-based services to GDS Digital by Default standards across Discovery, Alpha, Beta, and Live phases. Partnering with clients, we define digital strategies aligned with their goals, focusing on digital platforms/cloud infrastructure. Our outcome-based approach ensures adherence to GDS standards and Technology Code of Practice.

SERVICE FEATURES

- Expert SME's delivering success, assessing digital maturity and capability across Azure, AWS, and GCP.
- User research and service design, putting your people at the center of the solution.
- Prototyping/proof of concept and delivery management for seamless service development from Discovery to Live.
- Product management and digital transformation aligned with business and technology capabilities.
- Agile methodology with knowledge transfer and coaching for effective delivery.
- Clear strategy development to improve business and technology capabilities.
- Highly qualified Delivery team offering consultation and extensive experience in aligning solutions with business drivers.
- Skilled practitioners providing full development lifecycle capabilities and technical architecture expertise.
- Continuous delivery with automated testing and deployment to the Cloud, ensuring high-quality software.
- User Interface (UI) and User Experience (UX) design, in compliance with GDS standards, covering Java, C#, .NET, Scala, Ruby, Python, PHP, Node.Js, HTML.

SERVICE BENEFITS

- Delivery to Digital by Default standards, ensuring compliance with GDS approach.
- Robust, production-ready software meeting acceptance criteria.
- Services developed based on real user needs, fostering greater organizational agility.
- Swift deployment of cross-functional teams and resources to multiple UK sites.
- Flexibility to react to changing user needs with short feedback loops.
- Deep understanding of enterprise technology and complex public service organizations.
- Knowledge transfer of Service Standards, upskilling in-house teams.
- People-centered delivery, continuous feedback and involvement.
- Innovative ideas for time and cost savings, offering on and off-shore options.
- Guaranteed training and upskilling on delivery and handover.

ABOUT US

As a Decillion we partner in bridging technology and business innovation. With an extensive background across diverse technological verticals, we are dedicated to empowering your business through tailored digital solutions.

Our Expertise

Microsoft Dynamics	Technical Consulting	Azure DevOps	Technology Training	E-commerce Solutions
We specialize in MS Dynamics to streamline CRM and ERP systems, enhancing efficiency and productivity for businesses of all sizes.	Our expert consultants are adept at diagnosing your technical challenges and crafting strategic solutions that align with your business objectives.	We leverage Azure to improve your software development lifecycle, enabling faster deployment, reliable operations, and seamless integration of disparate systems.	Decillion Digital offers comprehensive training programs designed to upskill your team and keep them abreast of the latest technological advancements.	We create robust e-commerce platforms tailored to your specific needs, ensuring scalable, secure, and user-friendly shopping experiences.

At Decillion, we believe in the power of technology to transform businesses. Our approach combines innovative strategies with cutting-edge technologies to deliver measurable results. We are committed to providing exceptional service and building long-lasting relationships with our clients.

OUR MISSION

To enable businesses to achieve their full potential through the strategic implementation of technology.

OUR MISSION

To be a leading provider of technology solutions, known for our commitment to innovation, quality, and client satisfaction.
