## **SERVICE DEFINITION**

**Linux/UNIX Architecture &  
Lifecycle Support**

# INTRODUCTION

Decillion Digital delivers Cloud-Native design, build, and support services for complex Linux and Unix-based platforms across Public, Private, and Hybrid cloud environments. Our multi-skilled DevOps teams specialise in Red Hat, security hardening, and high-availability engineering, providing end-to-end lifecycle support and seamless infrastructure integration for mission-critical systems.

# SERVICE FEATURES

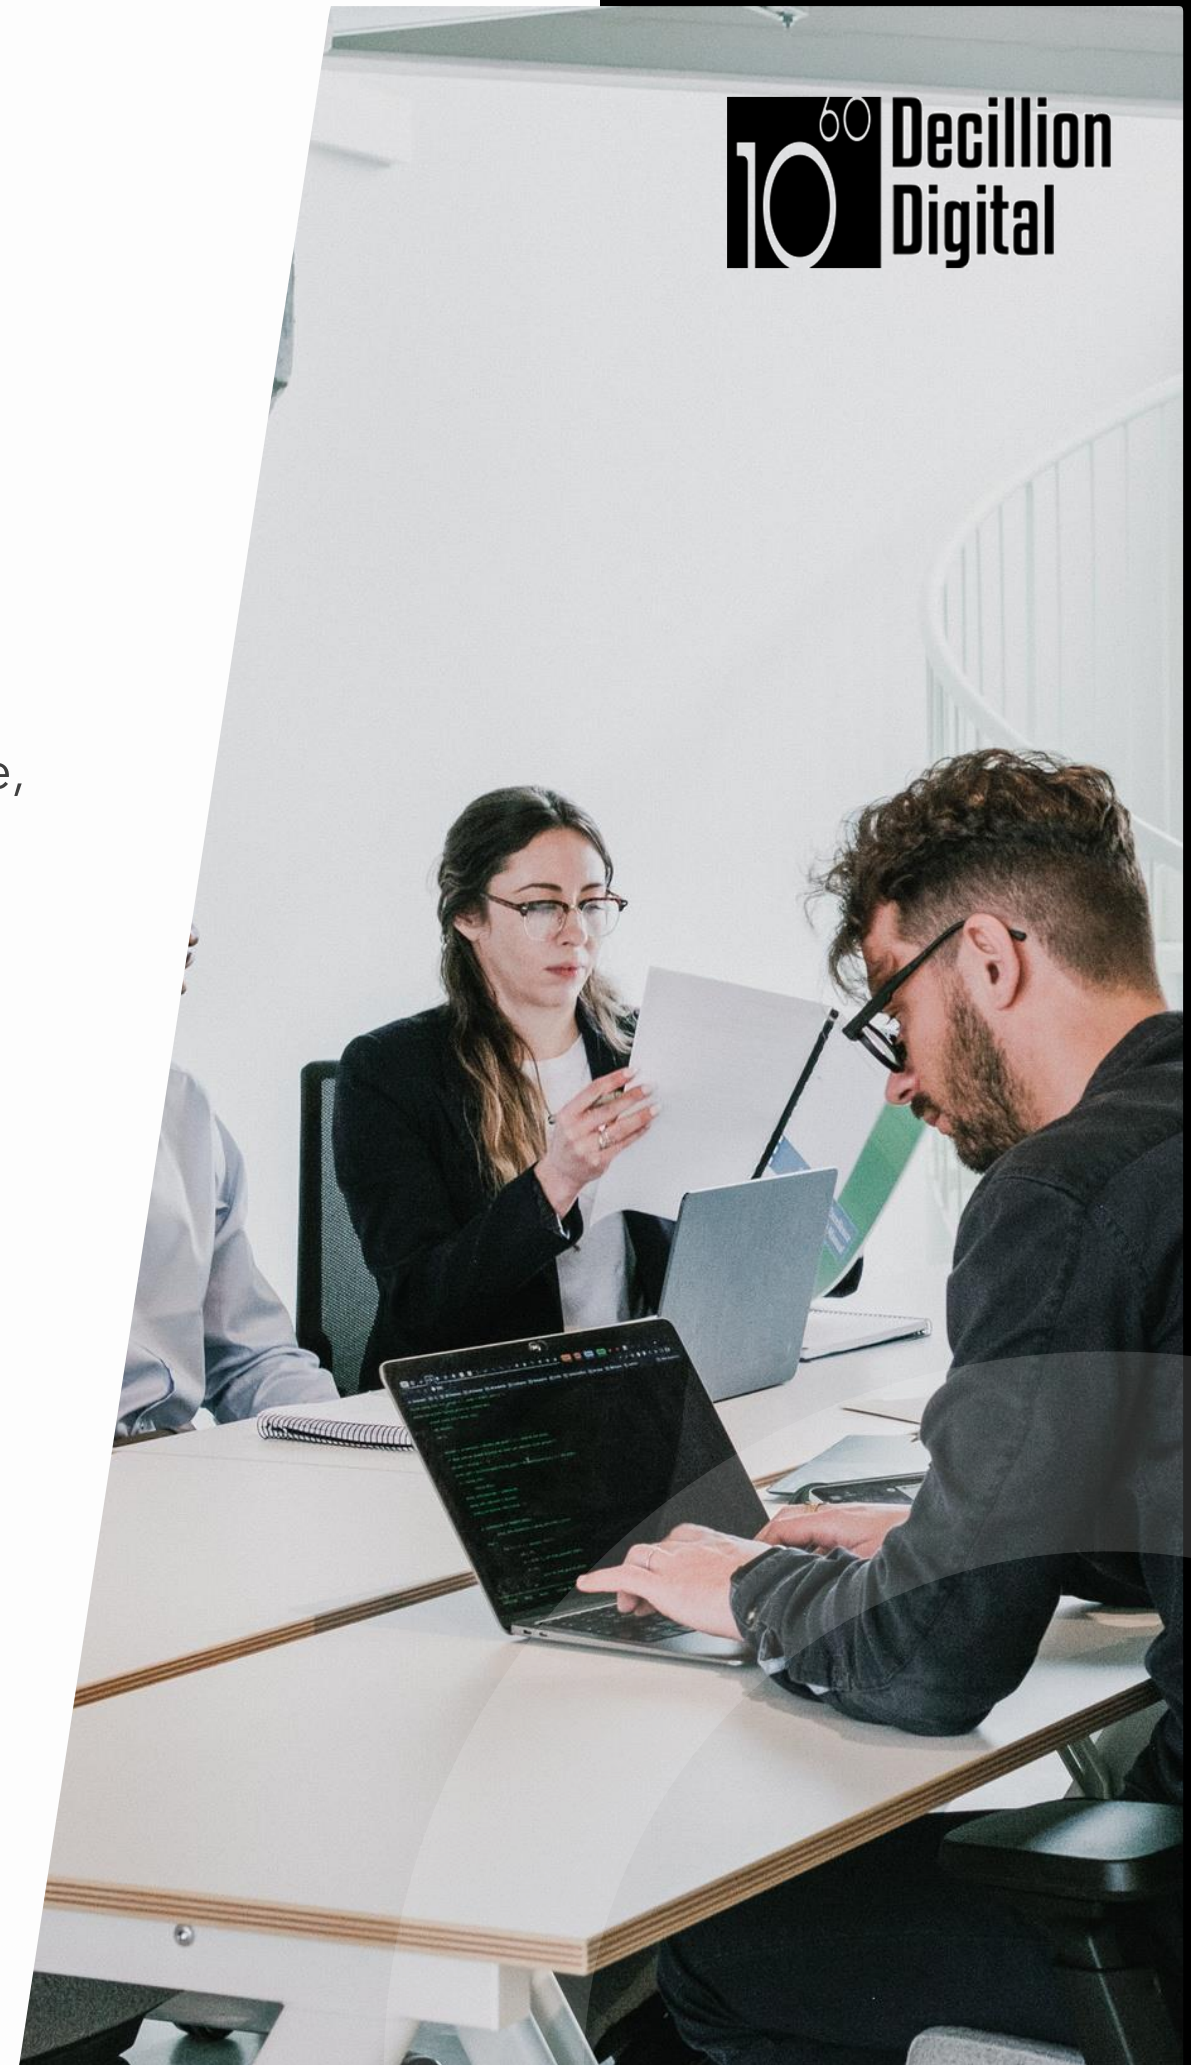

- Specialists in designing and architecting advanced Linux and UNIX environments.
- Certified Red Hat consultants (RHCSA, RHCE) with deep enterprise expertise.
- Custom operating system builds with fully automated Kickstart deployments.
- High-availability engineering, including clustering with GFS2 and Red Hat HA.
- Comprehensive performance tuning and system optimisation services.
- Seamless integration with VMware and other leading hypervisor platforms.
- Rigorous security hardening aligned to EAL4+, CIS, STIG, and SCAP standards.
- End-to-end system patching, maintenance, and through-life support.
- Integration of core infrastructure software and enterprise middleware.
- Deployment and optimisation of web servers and database platforms.

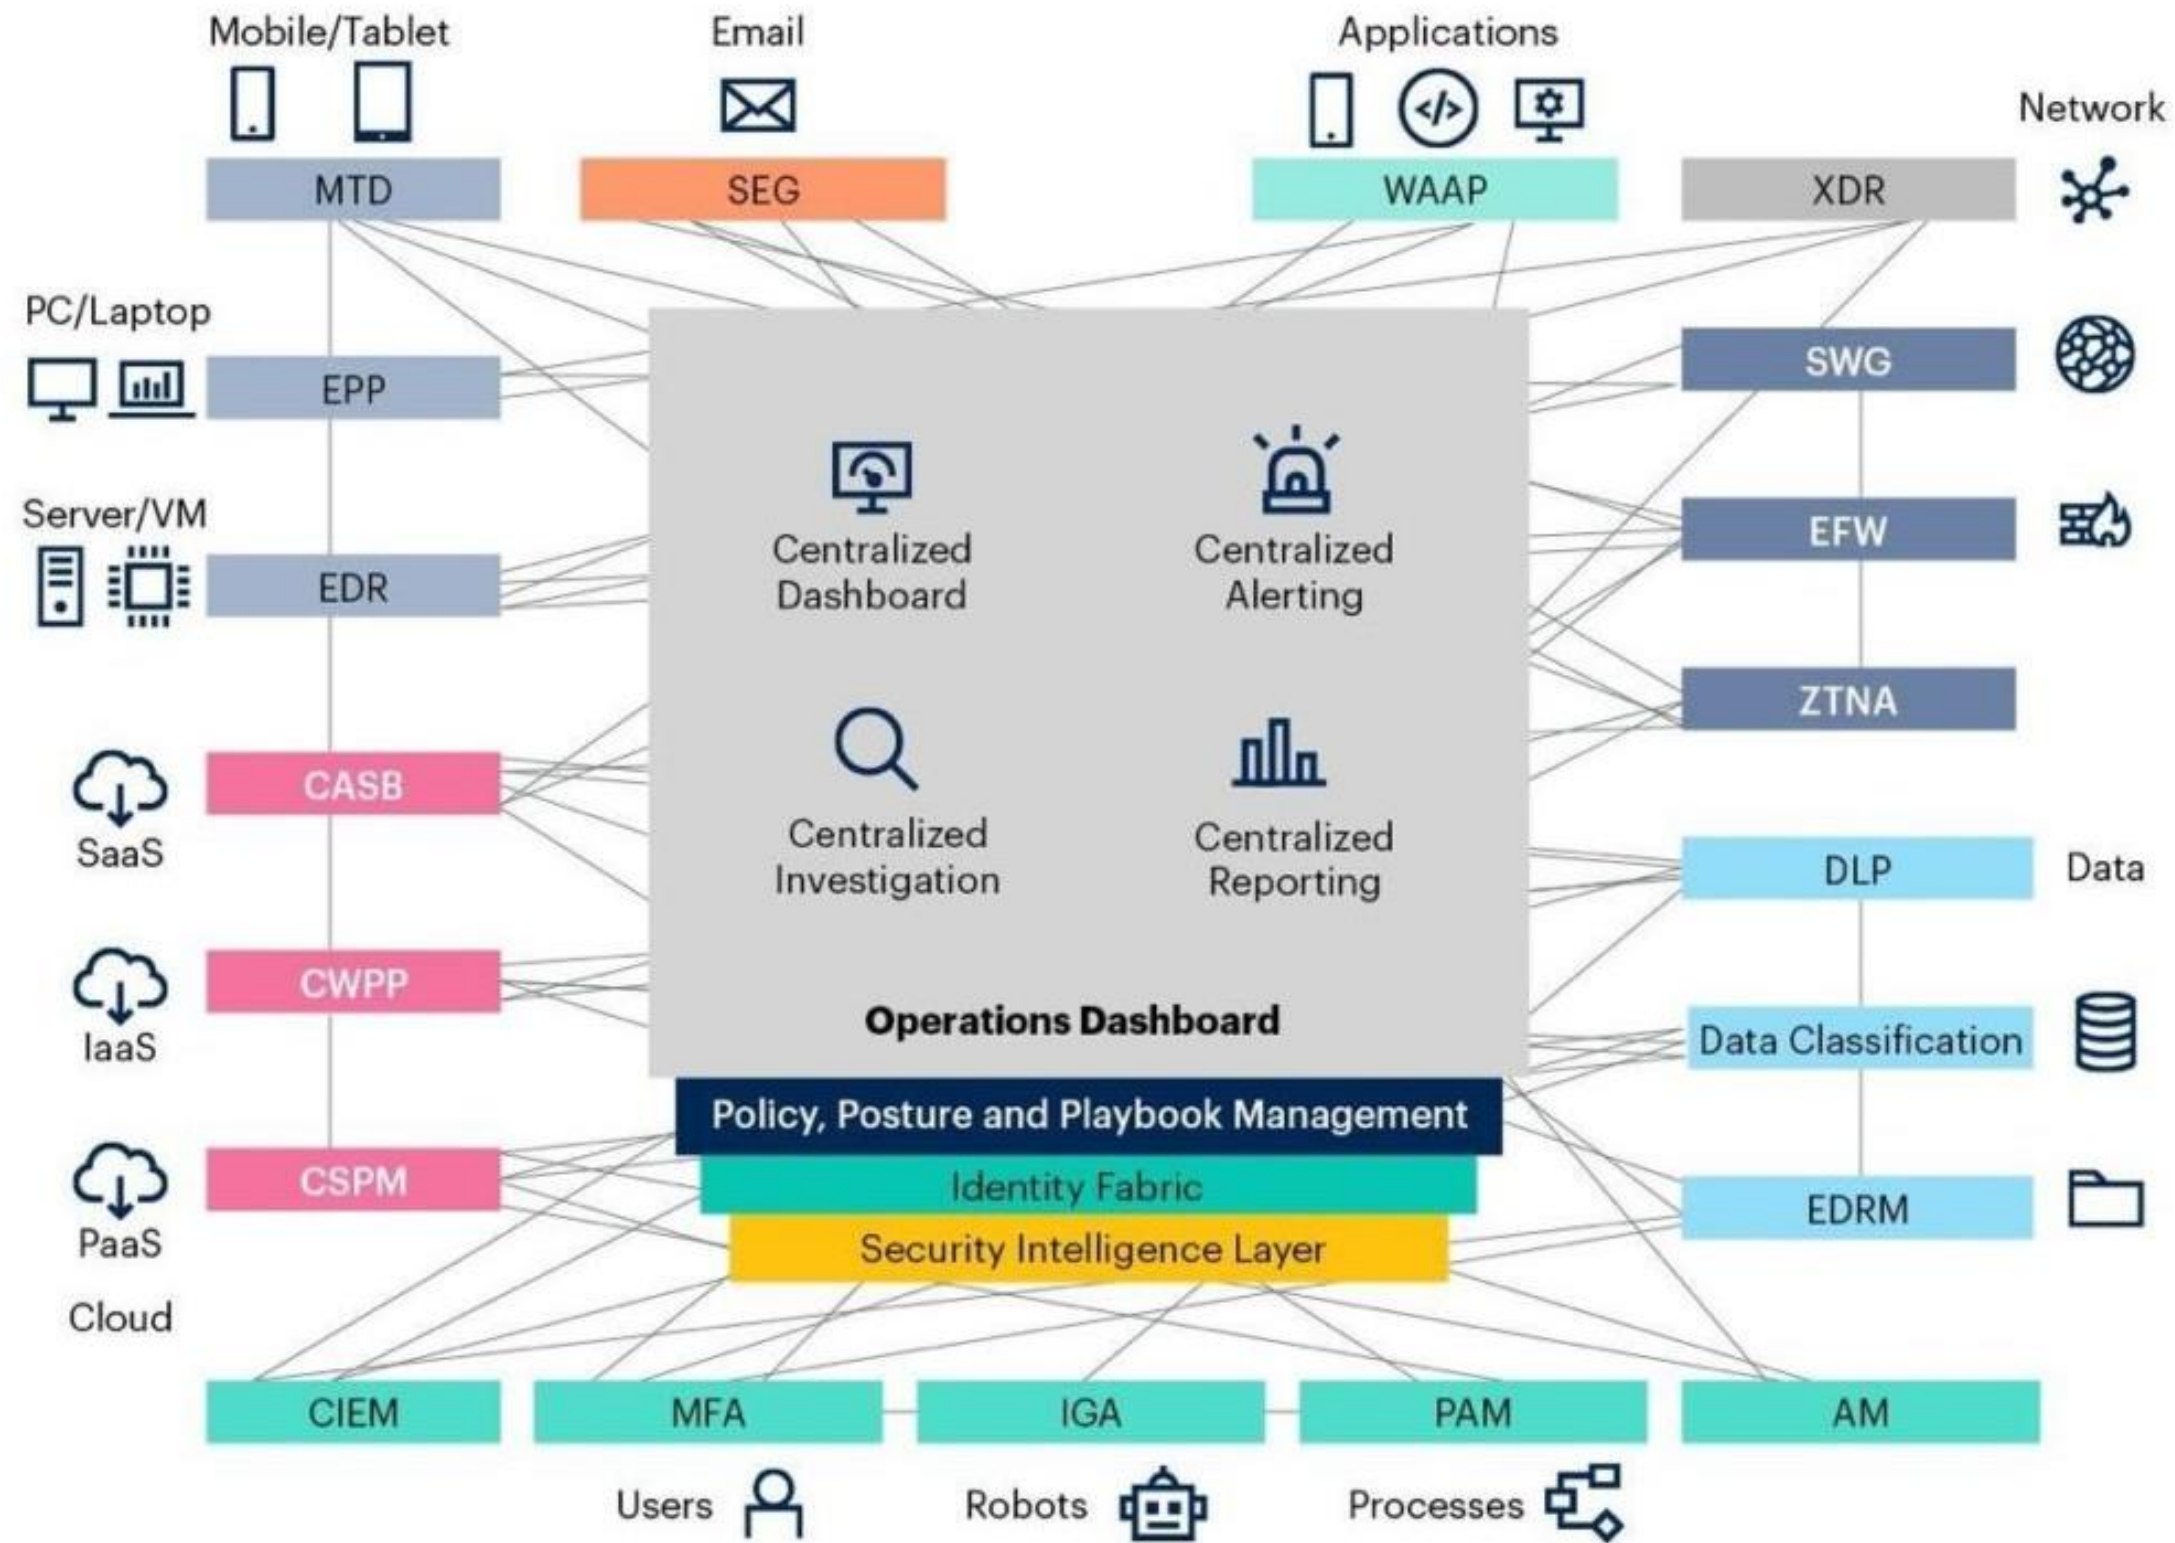

# SERVICE BENEFITS

- Provide assured, fully validated OS installation and configuration services.
- Deliver deep Linux/Unix technical expertise for complex enterprise environments.
- Accelerate and simplify deployments through advanced automation.
- Engineer cloud-native solutions optimised for modern infrastructures. Implement secure, hardened system architectures to meet stringent security standards.
- Ensure business continuity through high-availability design and failover capabilities.
- Optimise performance for mission-critical workloads and demanding applications.
- Integrate seamlessly with existing infrastructure, platforms, and toolchains.
- Reduce operational risk with expert ongoing support and proactive management.
- Extend system value through comprehensive lifecycle maintenance and optimisation.

# SOLUTION APPROACH

# ABOUT US

As a Decillion we partner in bridging technology and business innovation. With an extensive background across diverse technological verticals, we are dedicated to empowering your business through tailored digital solutions.

## Our Expertise

| Microsoft Dynamics                                                                                                                 | Technical Consulting                                                                                                                                | Azure DevOps                                                                                                                                                      | Technology Training                                                                                                                                    | E-commerce Solutions                                                                                                                      |
