SERVICE DEFINITION

Identity & Access Management

INTRODUCTION

Decillion Digital designs and implements secure Identity & Access Management (IdAM) frameworks that ensure the right users have the right access across complex environments. Our services span authentication, single sign-on, privileged access management, and zero-trust architecture. We help organisations safeguard data, strengthen compliance, and maintain consistent security controls across all IT systems.

SERVICE FEATURES

- Manage users, groups, and access controls to enforce secure, role-based permissions.
- Integrate seamless Single Sign-On (SSO) for unified authentication across systems.
- Administer and support Multi-Factor Authentication (MFA) for both users and administrators.
- Provide comprehensive Privileged Identity Management (PIM) to safeguard elevated accounts.
- Implement policy-driven, granular zero-trust access models.
- Automate user provisioning and deprovisioning to reduce risk and operational overhead.
- Maintain and optimise Active Directory replication and domain management.
- Deliver full security, compliance, and audit logging for traceability and governance.
- Enable real-time threat detection and automated incident response.
- Enforce separation of duties and controlled privilege allocation to strengthen security posture.

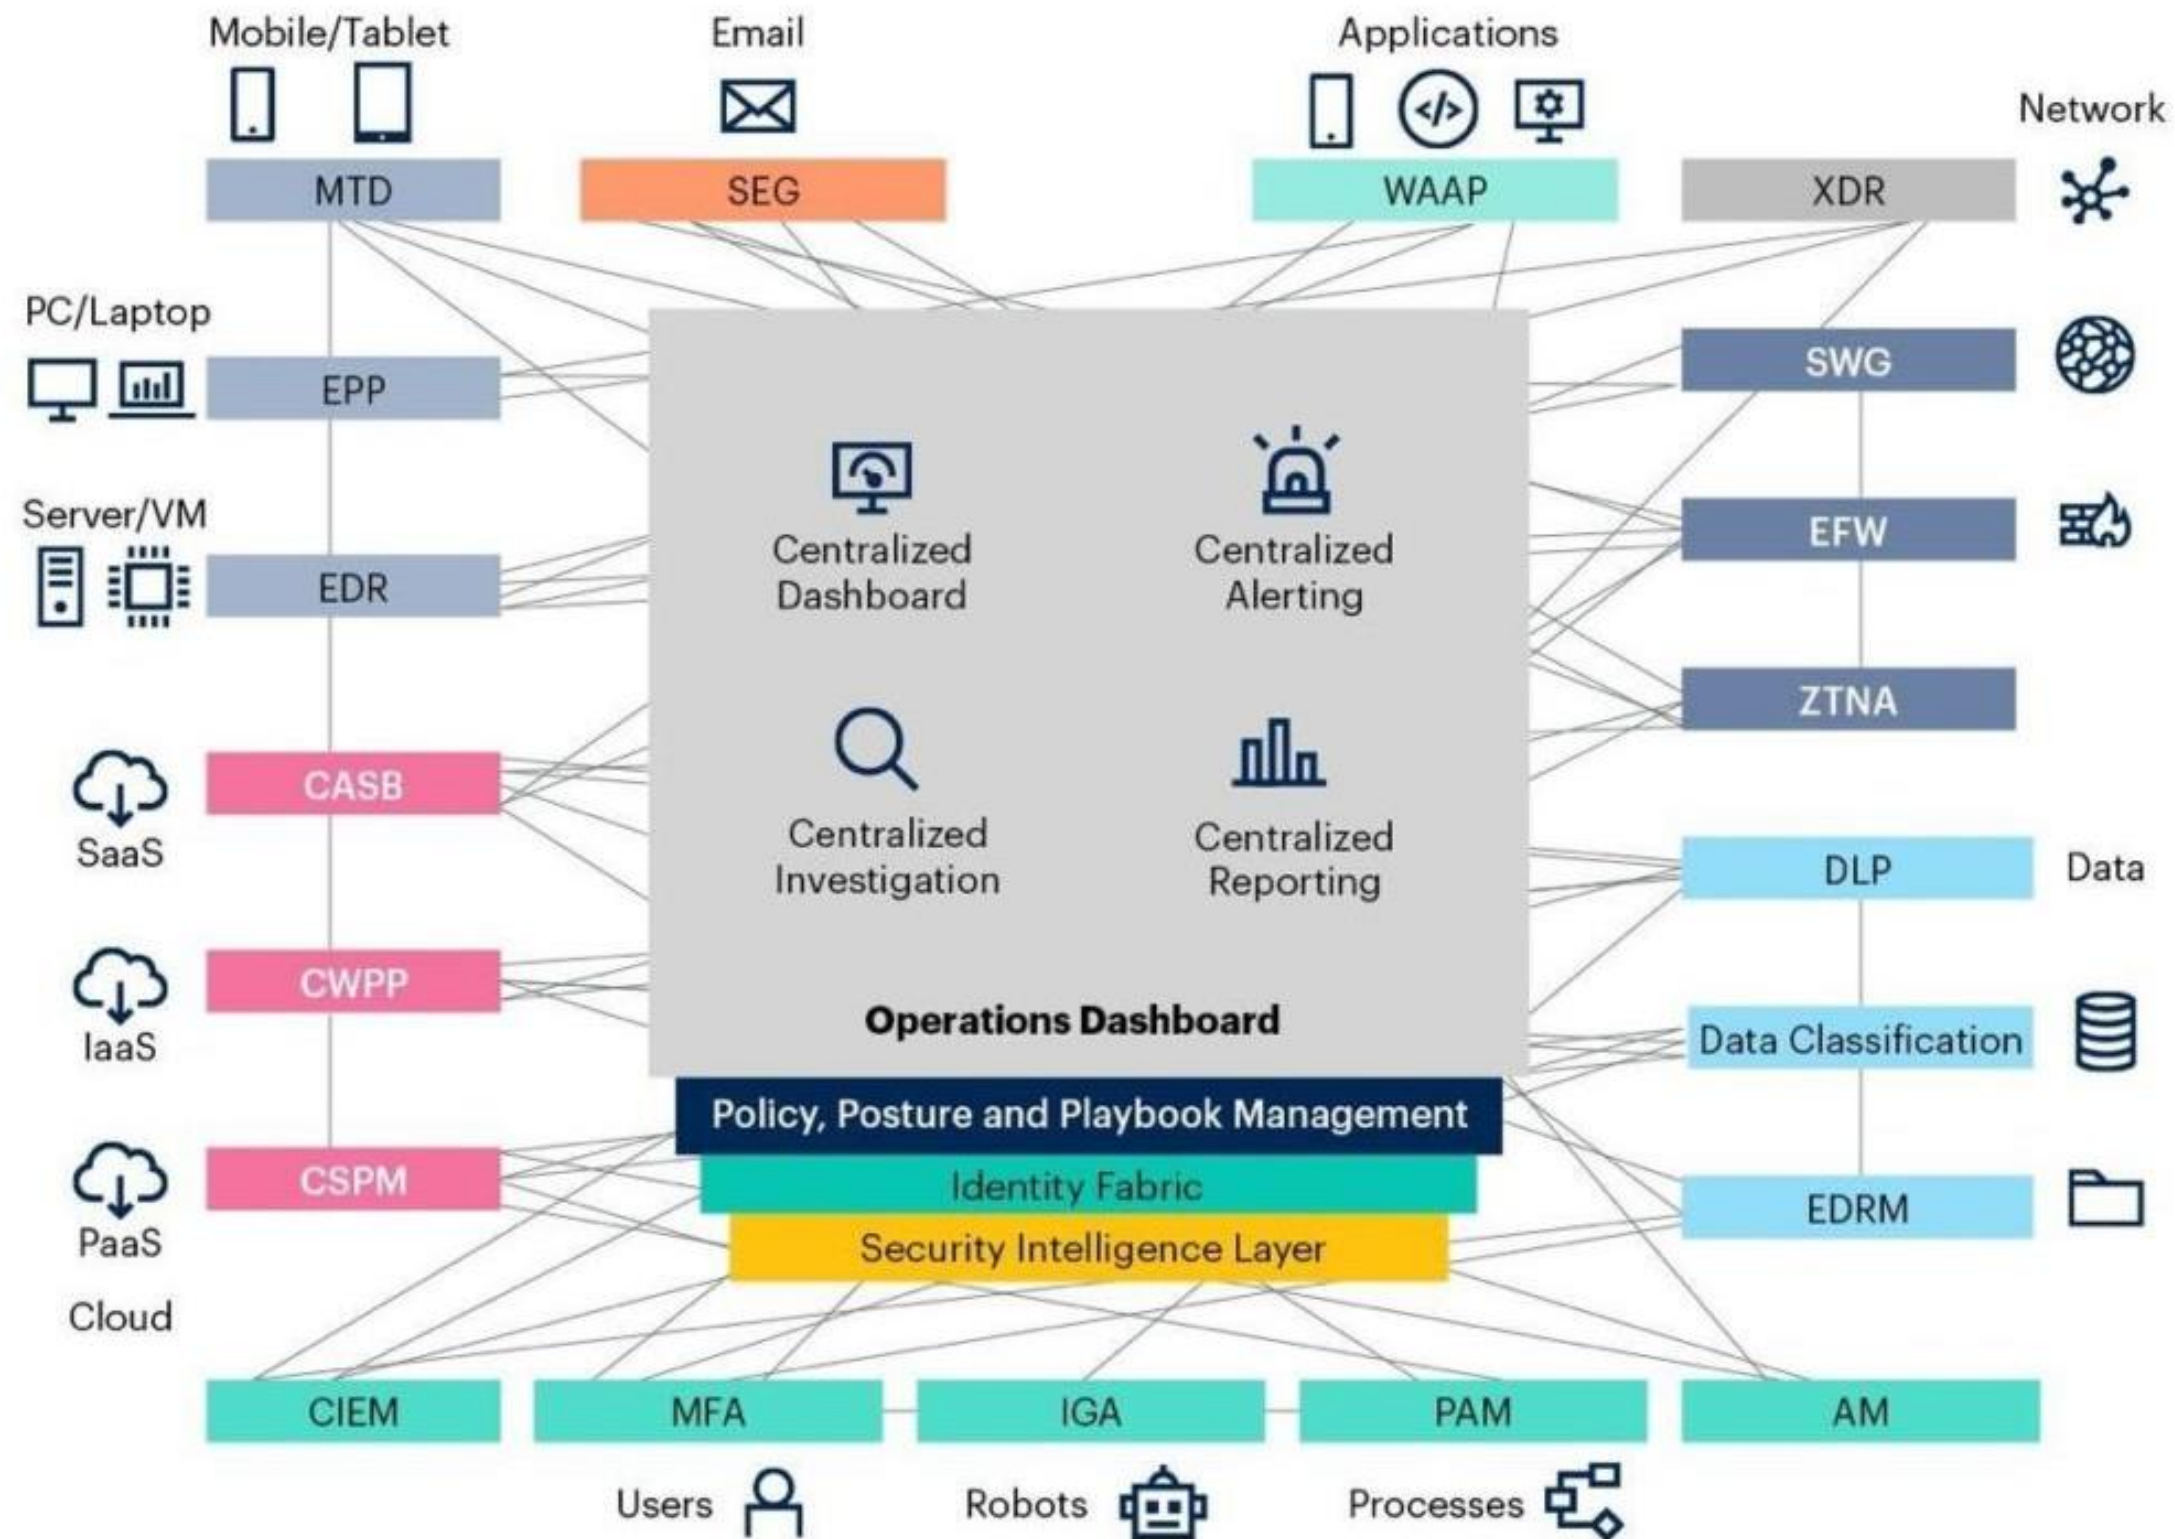

SERVICE BENEFITS

- Enforce regulated access control with streamlined, role-based permissions.
- Strengthen data protection and reduce the risk of security breaches.
- Improve user experience through simplified, well-managed access workflows.
- Reduce security exposure with stronger authentication and identity verification.
- Enhance governance with robust privileged-access controls and oversight.
- Lower operational overhead through efficient, automated user-management processes.
- Maintain real-time data consistency and resilient, fault-tolerant identity services.
- Protect remote environments and distributed resources with secure access policies.
- Ensure compliance and mitigate risk through continuous controls and monitoring.
- Provide centralised audit trails for complete visibility of user activity and access behaviour.

SOLUTION APPROACH

ABOUT US

As a Decillion we partner in bridging technology and business innovation. With an extensive background across diverse technological verticals, we are dedicated to empowering your business through tailored digital solutions.

Our Expertise

Microsoft Dynamics	Technical Consulting	Azure DevOps	Technology Training	E-commerce Solutions
We specialize in MS Dynamics to streamline CRM and ERP systems, enhancing efficiency and productivity for businesses of all sizes.	Our expert consultants are adept at diagnosing your technical challenges and crafting strategic solutions that align with your business objectives.	We leverage Azure to improve your software development lifecycle, enabling faster deployment, reliable operations, and seamless integration of disparate systems.	Decillion Digital offers comprehensive training programs designed to upskill your team and keep them abreast of the latest technological advancements.	We create robust e-commerce platforms tailored to your specific needs, ensuring scalable, secure, and user-friendly shopping experiences.

At Decillion, we believe in the power of technology to transform businesses. Our approach combines innovative strategies with cutting-edge technologies to deliver measurable results. We are committed to providing exceptional service and building long-lasting relationships with our clients.

OUR MISSION

To enable businesses to achieve their full potential through the strategic implementation of technology.

OUR MISSION

To be a leading provider of technology solutions, known for our commitment to innovation, quality, and client satisfaction.
