SERVICE DEFINITION

Fortinet

INTRODUCTION

Decillion Digital delivers fully managed Network and Perimeter Security services powered by Fortinet technologies. As an expert partner, we provide Managed Firewalls, SD-WAN, and SASE solutions supported by comprehensive discovery, design, and configuration services. Our 24/7 monitoring ensures a unified, secure, and high-availability platform with automated backups, proactive response, and end-to-end protection across the network estate.

SERVICE FEATURES

- Provide full firewall configuration, policy tuning, and ongoing management.
- Deliver real-time monitoring and alerting to identify threats and anomalies immediately.
- Automate off-site configuration backups to safeguard against data loss.
- Support high-availability deployments to ensure continuous security and uptime.
- Centralise the management of all security devices for unified oversight and control.
- Offer integrated reporting and advanced security analytics for informed decision-making.
- Enable workflow automation and rapid provisioning to streamline operations.
- Provide secure remote-access capabilities for safe administrative management.
- Deploy SD-WAN and SASE solutions to enhance connectivity and cloud-edge security.
- Leverage deep expertise with FortiManager and FortiAnalyzer for robust governance and visibility.

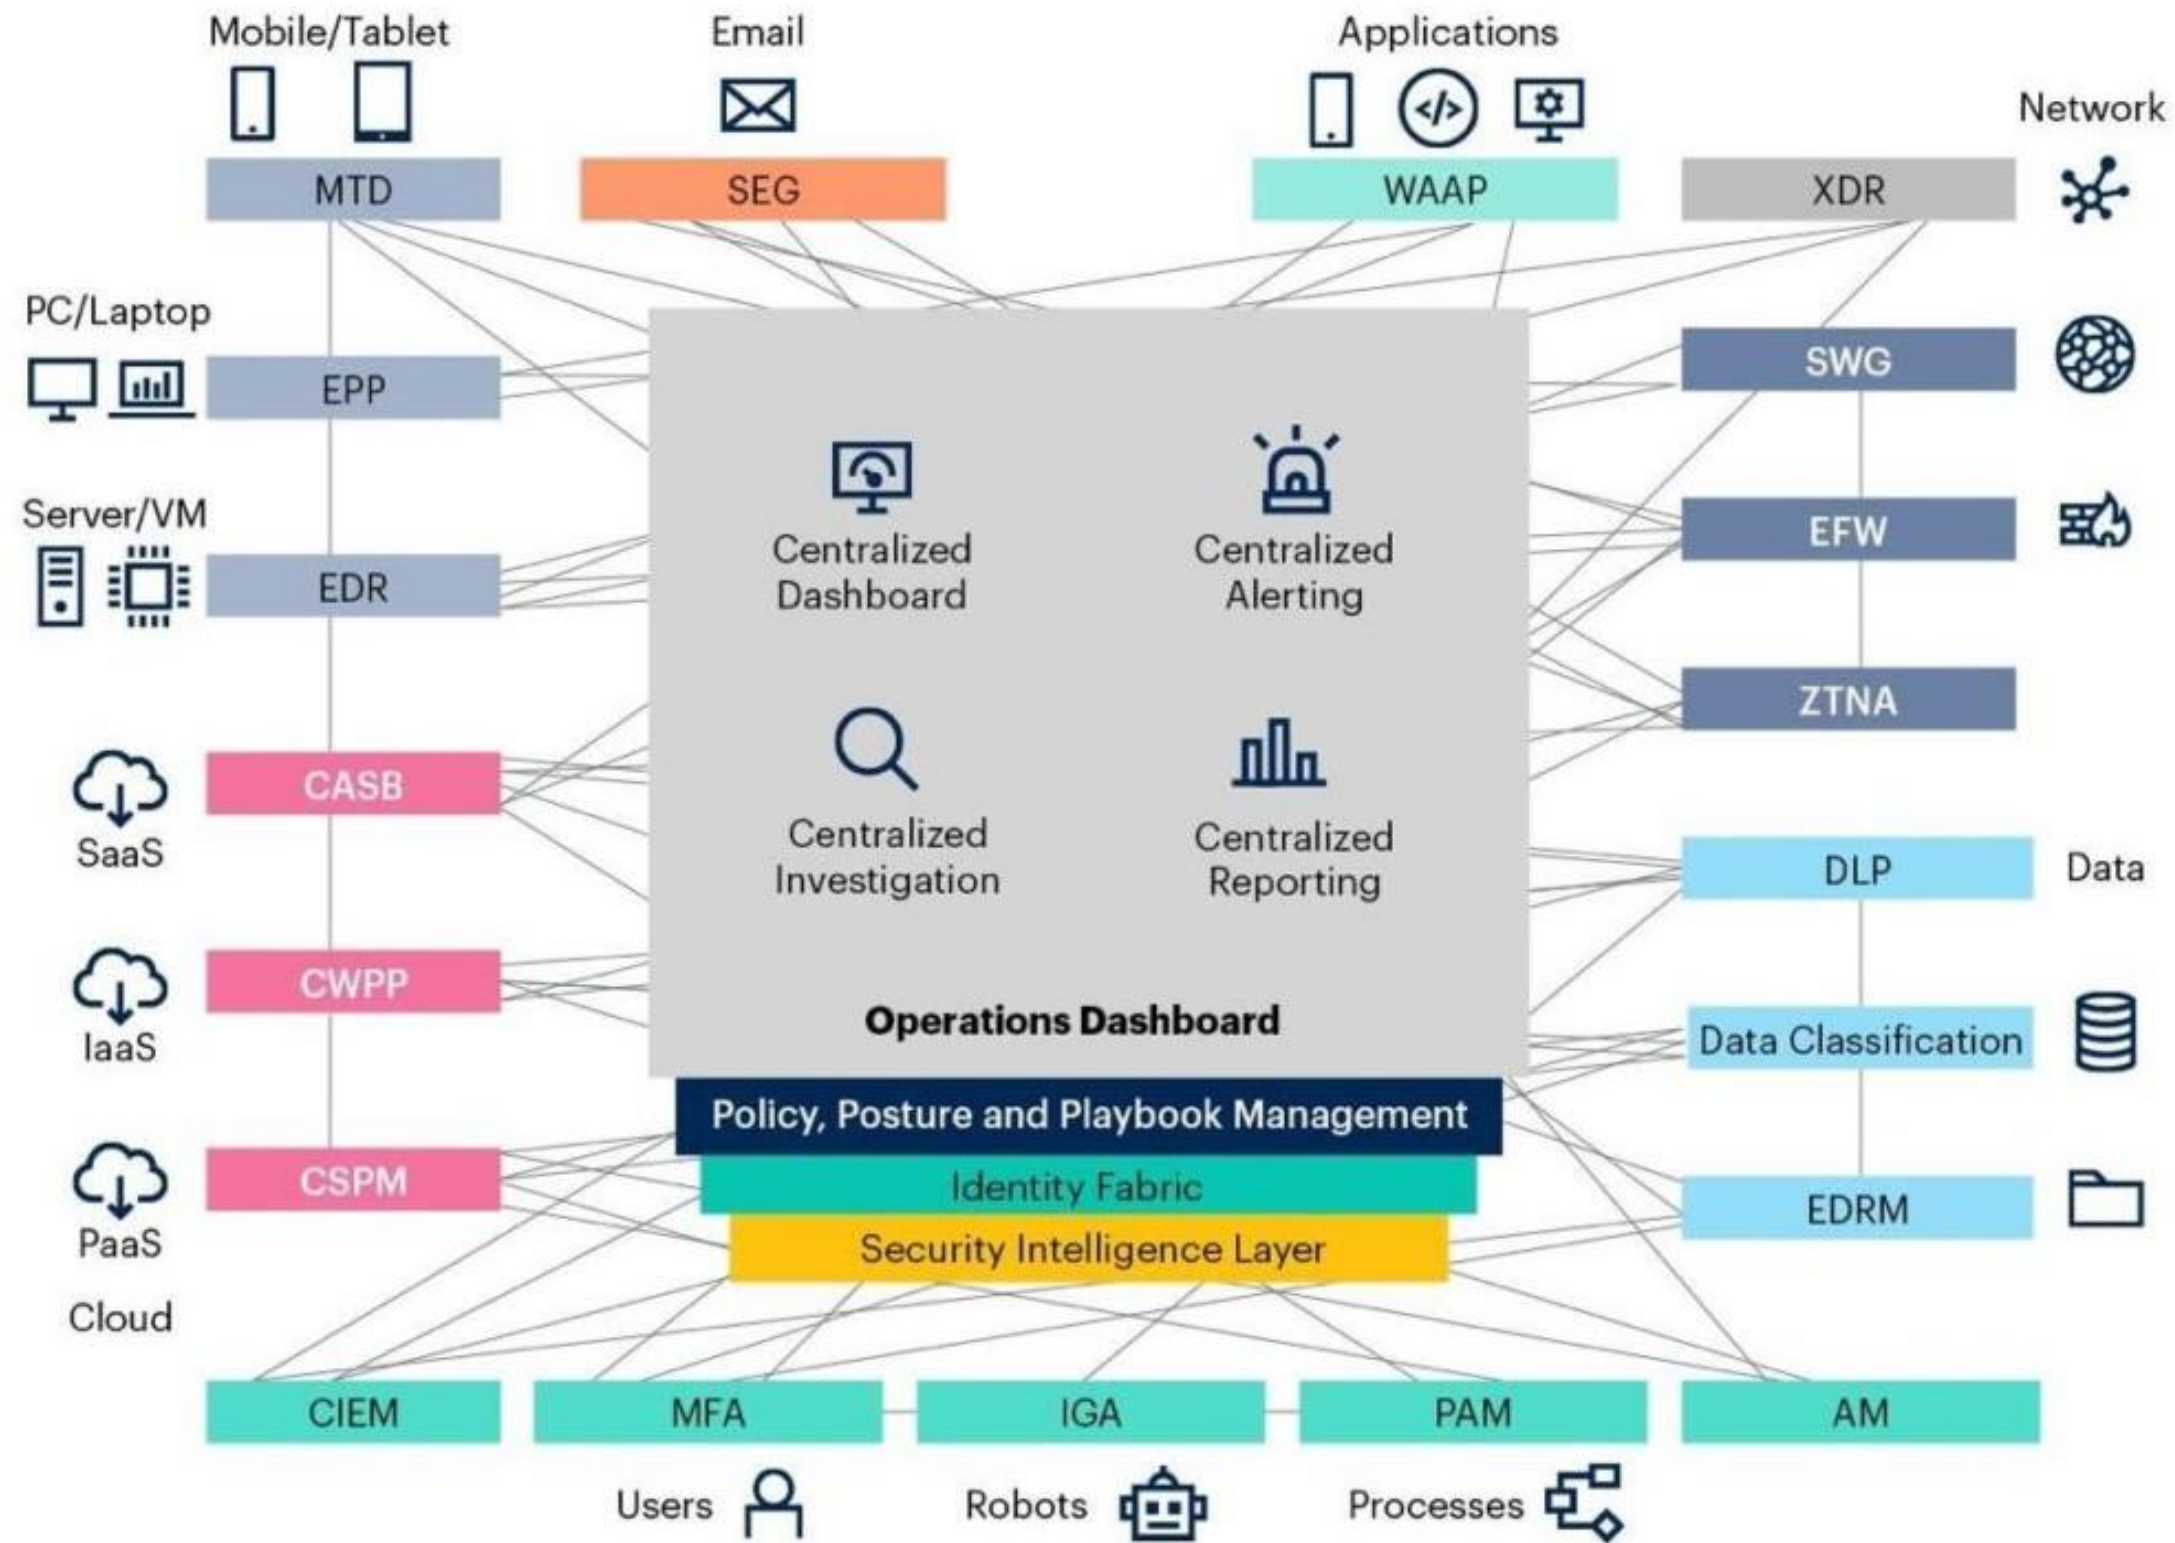

SERVICE BENEFITS

- Gain confidence with expert-led firewall configuration and assurance.
- Access actionable insights through centralised data collection and visibility.
- Stay protected around the clock with real-time monitoring and threat alerting.
- Ensure fast, reliable recovery through automated off-site configuration backups.
- Trust in resilient high-availability setups designed for complex environments.
- Manage your entire security estate through unified, centralised control.
- Maintain consistent policy enforcement and meet compliance requirements.
- Improve operational efficiency with intelligent workflow automation.
- Reduce administrative overhead and simplify day-to-day security management.
- Scale effortlessly with flexible deployment options tailored to organisational needs.

SOLUTION APPROACH

ABOUT US

As a Decillion we partner in bridging technology and business innovation. With an extensive background across diverse technological verticals, we are dedicated to empowering your business through tailored digital solutions.

Our Expertise

Microsoft Dynamics	Technical Consulting	Azure DevOps	Technology Training	E-commerce Solutions
We specialize in MS Dynamics to streamline CRM and ERP systems, enhancing efficiency and productivity for businesses of all sizes.	Our expert consultants are adept at diagnosing your technical challenges and crafting strategic solutions that align with your business objectives.	We leverage Azure to improve your software development lifecycle, enabling faster deployment, reliable operations, and seamless integration of disparate systems.	Decillion Digital offers comprehensive training programs designed to upskill your team and keep them abreast of the latest technological advancements.	We create robust e-commerce platforms tailored to your specific needs, ensuring scalable, secure, and user-friendly shopping experiences.

At Decillion, we believe in the power of technology to transform businesses. Our approach combines innovative strategies with cutting-edge technologies to deliver measurable results. We are committed to providing exceptional service and building long-lasting relationships with our clients.

OUR MISSION

To enable businesses to achieve their full potential through the strategic implementation of technology.

OUR MISSION

To be a leading provider of technology solutions, known for our commitment to innovation, quality, and client satisfaction.
