G-CLOUD 15 PRICING MODEL

January 2026

More than just a CaFM

Compliance and Risk Control

Ensures full regulatory compliance across your estate with built-in risk assessment tools, audit trails, and automated reporting to keep you ahead of evolving legislation.

Scheduling of Planned Preventative Maintenance

Automate and optimise your PPM schedules to reduce downtime, extend asset lifespan, and ensure critical maintenance tasks are never missed.

AI and Smart Building Integration

Leverage artificial intelligence and IoT-connected smart building technology to predict issues before they arise, optimise energy usage, and drive data-led decision making.

Estate & Asset Lifecycle Management

Track every asset from acquisition through to disposal with comprehensive lifecycle visibility, condition monitoring, and replacement planning across your entire estate.

Workforce Scheduling & Oversight

Schedules and monitors internal staff and contractors to ensure the right tasks are completed efficiently and to the highest standards.

Third-Party System Integration

Supports integration with third-party systems, including IoT solutions, to enhance operational efficiency and provide seamless connectivity.

Pricing Model Overview

User Types

There are two licence categories – Full Users (administrators, back-office staff with reporting/configuration access) and Mobile/Field Users (engineers or contractors using mobile/tablet access with more limited needs).

Monthly Per-User Pricing

Fees are charged per user per month (GBP). Tiered volume discounts apply – the per-user rate decreases as the total number of users grows.

All-in-one Subscription

All modules and features are included in every user licence by default (no module add-on fees).

Implementation & Training

A one-off implementation and training fee applies, tailored to the size of your organisation and your individual requirements.

Tiered Monthly Pricing

Number of Users	Full User Licence per user / month	Mobile / Field User Licence per user / month	Implementation one-off cost
 10 Users	£90	£50	£2,000
 11–50 Users	£80	£45	£5,000
 51–100 Users	£70	£40	£9,000
 101+ Users	£60	£35	£15,000

Additional Professional Services £990 per day

Optional expert support available on a day-rate basis, tailored to your specific needs beyond the core implementation.

- Consultation
- Additional Training
- System Customisation
- Data Cleansing
