About this document

This pricing document sets out the fees for the EYEV: Autotriage cloud software service under G-Cloud 15. All prices are exclusive of VAT. Service description, features, service levels and support arrangements are included in the accompanying service definition document. Terms & Conditions are provided separately.

1. Introduction

EYEV: Autotriage is a clinically governed digital decision-support service supporting the safe, consistent and efficient triage of healthcare referrals within NHS referral management and Single Point of Access (SPOA) workflows.

A description of the service is provided in the accompanying Service Definition document.

2. Core pricing

Summary

Buyer type	Charging unit	Price (ex VAT)	Assumptions / notes
Community providers	Per triaged referral	£1.25	Usage-based.
Hospital trusts	Per specialty per year	£4,500	Price is based on an assumption of 10,000 triaged referrals per specialty per year (equivalent to £0.45

			per referral at this volume).
--	--	--	-------------------------------

Pricing detail

Community providers

- £1.25 per triaged referral (ex VAT).

A “triaged referral” is a referral processed through the Autotriage workflow resulting in an auditable decision-support output.

Hospital trusts

- £4,500 per specialty per year (ex VAT).

The price above is based on an assumption of 10,000 triaged referrals per specialty per year. The equivalent unit cost at this volume is £0.45 per triaged referral.

3. Rate card

Additional services (for example pathway design workshops, configuration support, integrations, bespoke reporting, testing support, or additional training) can be provided under the rate card below and agreed through the call-off contract.

Description	Standard day rate (ex VAT)
Digital Health Consultant	£1,100
Software Architect	£900
Software Developer	£800

All prices are exclusive of VAT.
