

LEXACOM[®]

Pricing: Lexacom

Lexacom pricing summary

Lexacom pricing is based on a per user or per patient annual subscription.

Licensing can be flexible to match specific customer requirements where appropriate.

Simple modular pricing allows customers to purchase just the services they require.

Module/licence	Cost per user per year	Billing frequency
<i>Lexacom</i> Base digital dictation platform	£ 120 +VAT	Annually
<i>Lexacom</i> Digital dictation, workflow with ambient scribe, AI workflows	£ 240 +VAT	Annually
<i>Lexacom with Echo, EchoScribe</i> Digital dictation, workflow, ambient scribe, AI workflows, Lexacom Echo live speech recognition, EchoScribe deferred speech recognition	£ 360 +VAT	Annually

Pricing for organisations in primary care with a patient list size.

Module/licence	Cost per patient per year	Billing frequency
<i>Lexacom</i> Base digital dictation platform	£ 0.12 +VAT	Annually
<i>Lexacom</i> Digital dictation, workflow with ambient scribe, AI workflows	£ 0.24 +VAT	Annually
<i>Lexacom with Echo, EchoScribe</i> Digital dictation, workflow, ambient scribe, AI workflows, Lexacom Echo live speech recognition, EchoScribe deferred speech recognition	£ 0.36 +VAT	Annually

Discounts of 5% for PCN and 10% for ICB purchases are available.

Implementation/deployment costs

Lexacom provide a range of implementation/deployment methods to suit the specific requirements of the customer.

Remote installation/training is included within the software subscription. Onsite training is available from £600 +VAT per day.

Extra services/costs

Microphones and secretarial hardware are not included in the subscription cost. The recommended devices can be optionally purchased separately:

Hardware	Cost
Microphone	£ 175 +VAT
Secretarial pedal	£ 69.30 +VAT
Secretarial headset	£ 28.88 +VAT

Under the call-off contract, charges are fixed for the initial term. For any extension period, pricing may be reassessed where there have been material increases in cloud infrastructure costs or notable inflationary changes, with any such adjustment subject to the transparency, notification, and agreement requirements of the G-Cloud framework.
