SERVICE PRICING

The pricing is based on a combination of time required and day rates.

UNIT BASED

We charge for our services in one of two ways:

1. We offer fixed fees for smaller projects with a defined work package with known timescales, including all our expenses. These fixed fees are calculated using our tendered day rates and the required days.
2. The primary pricing model is based on tendered day rates as defined below. We charge for our services on a 'pay as you go' basis using our tendered day rates, including all our expenses and the number of days used.
