

VIRGULE /
International
...Possibilities to Certainties!

SERVICE DEFINITION
Microsoft D365 FSCM

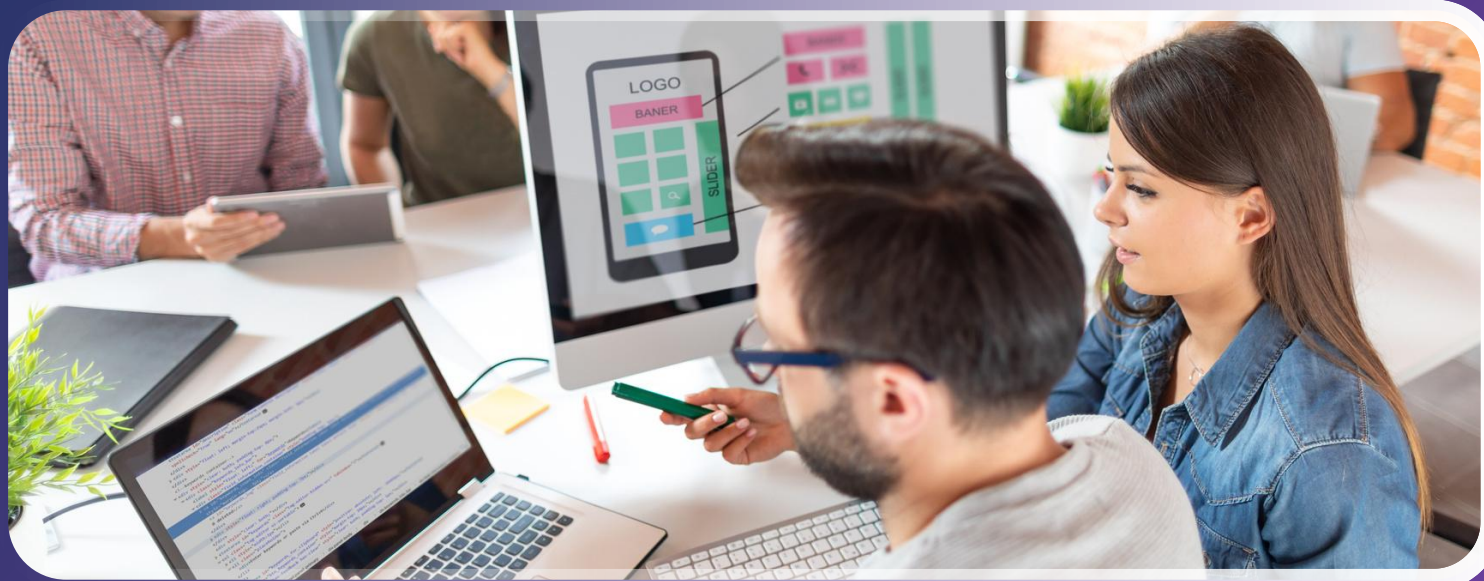

INTRODUCTION

- ✓ VIRGULE offers Microsoft Dynamics 365 Finance and Supply Chain Management.
- ✓ As a Microsoft Gold Partner, we provide tools to efficiently manage finance and operations.
- ✓ Our solution leverages AI/ML for insights, integrates with the Microsoft ecosystem, and ensures strict security and regulatory compliance.

Services Features

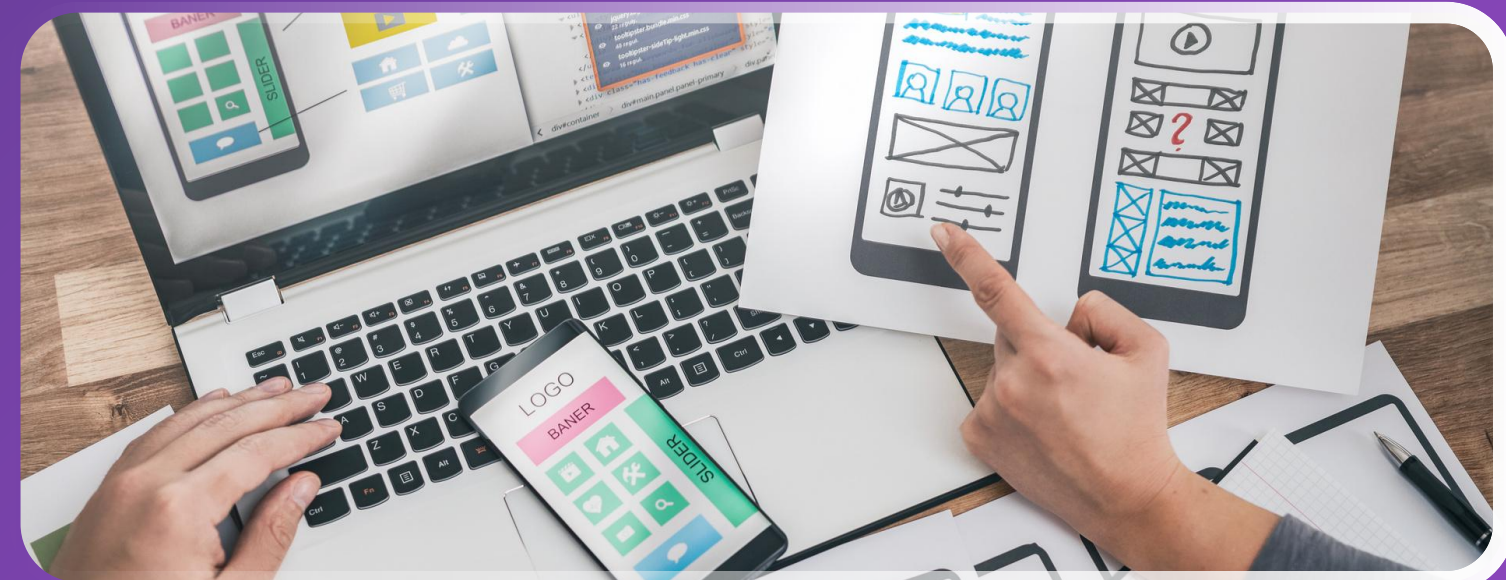

- ✓ Integrated financial and supply chain management platform
- ✓ AI and ML driven predictive insights
- ✓ Predictive forecasting and real-time reporting
- ✓ Seamless integration with Office 365 and Power Platform
- ✓ Granular access controls and data encryption
- ✓ End-to-end operational visibility and control
- ✓ Compliance with industry regulatory requirements
- ✓ Multi-entity management capabilities
- ✓ Scalable architecture for complex financial processes

Service Benefits

- ✓ Predictive insights for better resource planning
- ✓ Streamlined global supply chain operations
- ✓ High availability and reliability
- ✓ Compliance with industry security standards

- ✓ Informed decision-making with real-time data
- ✓ Reduced costs through operational efficiency
- ✓ Enhanced security and data privacy
- ✓ Seamless collaboration via Microsoft ecosystem
- ✓ Adaptable to changing business requirements

Approach to Design

Azure-First Architecture

Designing solutions that fully leverage Azure services such as Azure Virtual Machines, App Services, Containers, and PaaS offerings to ensure scalability and long-term flexibility.

Microsoft (CAF) Alignment

Following Microsoft's proven Cloud Adoption Framework to guide planning, readiness, migration, innovation, and governance across the cloud journey.

Business-Centric Solution Planning

Translating business goals into technical roadmaps through close alignment with stakeholders, ensuring measurable outcomes and value-driven cloud design.

Iterative Migration & Deployment Model

Executing phased migrations with continuous validation, reducing risk while enabling faster time-to-value and minimal business disruption.

User Experience–Driven Design

Focusing on performance, accessibility, and usability to ensure cloud applications deliver consistent and intuitive experiences for end users.

Built-In Governance & Security Controls

Integrating identity management, encryption, compliance controls, and monitoring at every design stage to ensure end-to-end security.

Development Approach

01

Cloud Readiness–Driven Execution

We begin by assessing application, data, and infrastructure readiness to define the right Azure migration path rehost, refactor, re-architect, or rebuild ensuring optimal outcomes.

03

Infrastructure as Code (IaC) Enablement

Azure environments are provisioned using ARM templates, Bicep, or Terraform to ensure consistency, repeatability, and faster environment setup across development, test, and production.

02

Continuous Integration & Deployment

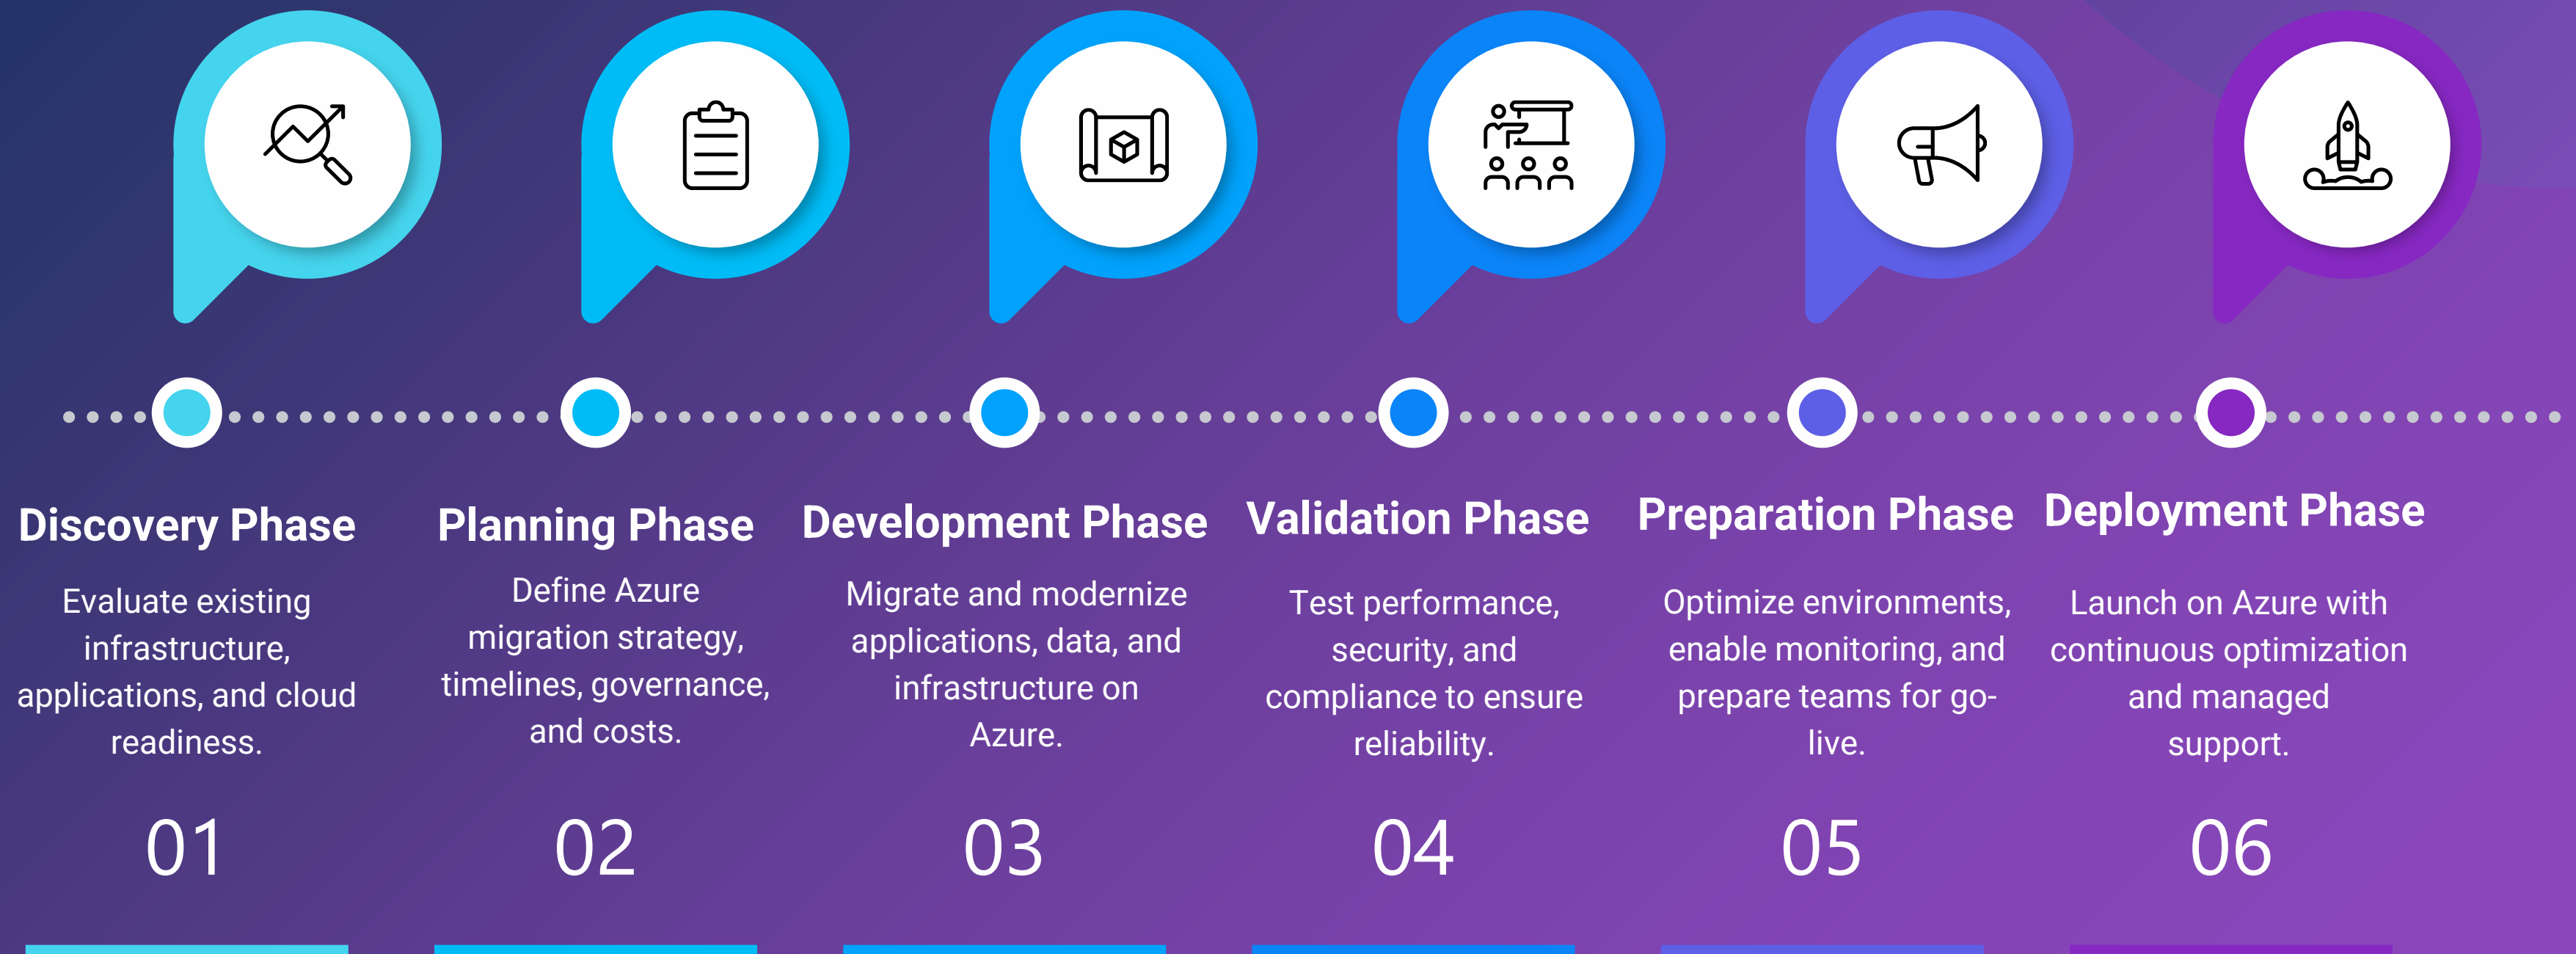

Azure DevOps pipelines automate build, test, and release workflows, enabling frequent, reliable deployments with reduced manual intervention and faster release cycles.

04

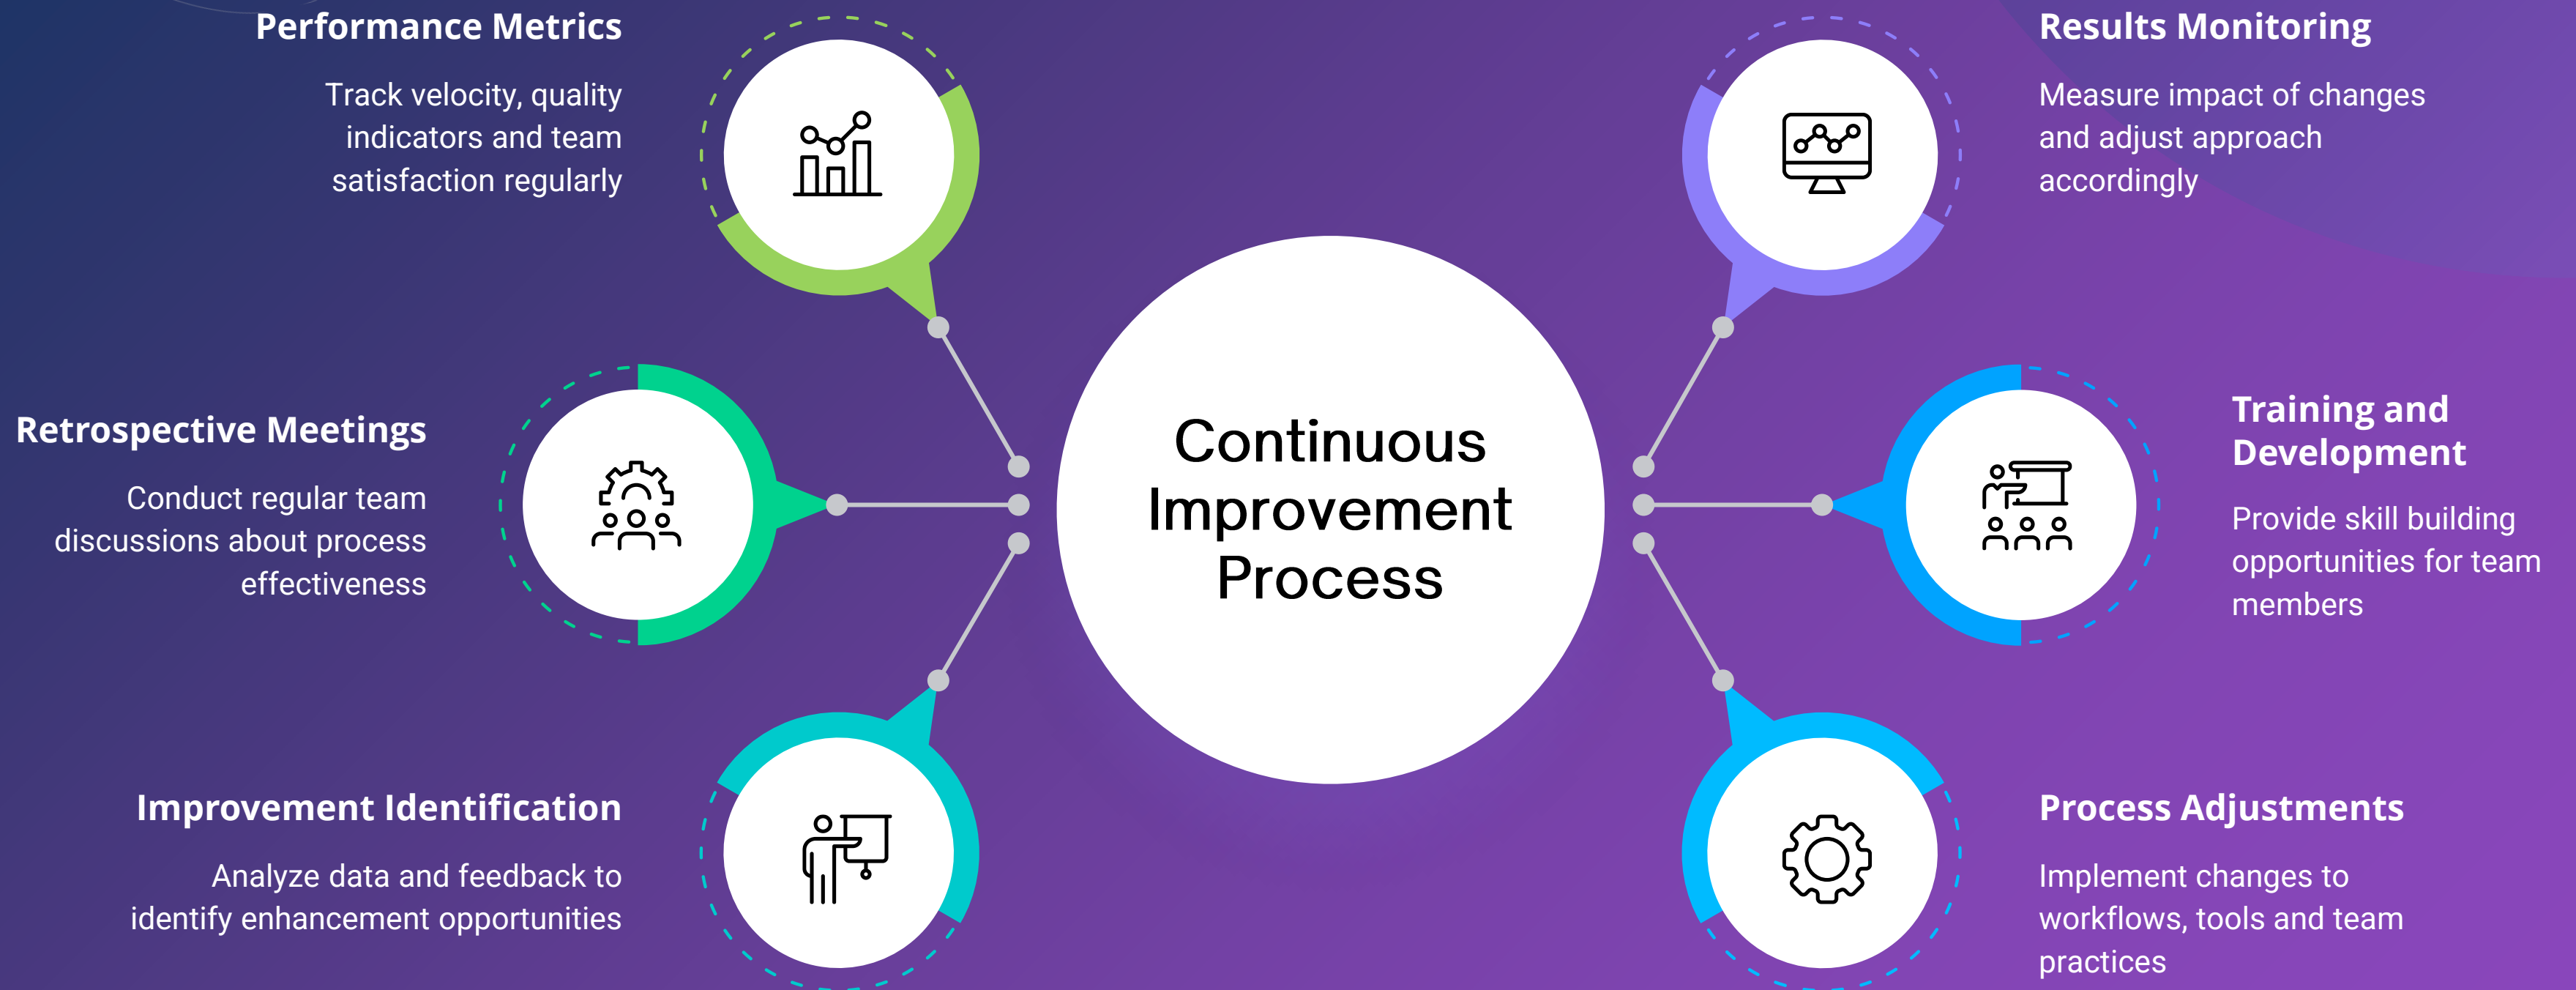

Monitoring-Led Optimization

Post-deployment, we leverage Azure Monitor, Log Analytics, and Application Insights to proactively track performance, reliability, and cost efficiency for continuous improvement.

Strategic Product Development Roadmap

Development Approach

Our Differentiators

Virgule International, located in the heart of UK and has been serving its key clients for over a decade now. Our strong delivery model and customer focus is a key differentiator while we continue to engage into new territories with our clientele.

Partner with purpose

We embed within client ecosystems to understand unspoken cultural nuances, team dynamics, and innovation tolerance

Industry Expertise

Apply Digital Solutions to IT problems

Digital Technologies

Latest Technologies. Implemented
