SERVICE DEFINITION

Microsoft Azure Cloud Migration and Implementation Service

www.virguleinternational.com | virgule@virguleinternational.com | +44 7478739133

INTRODUCTION

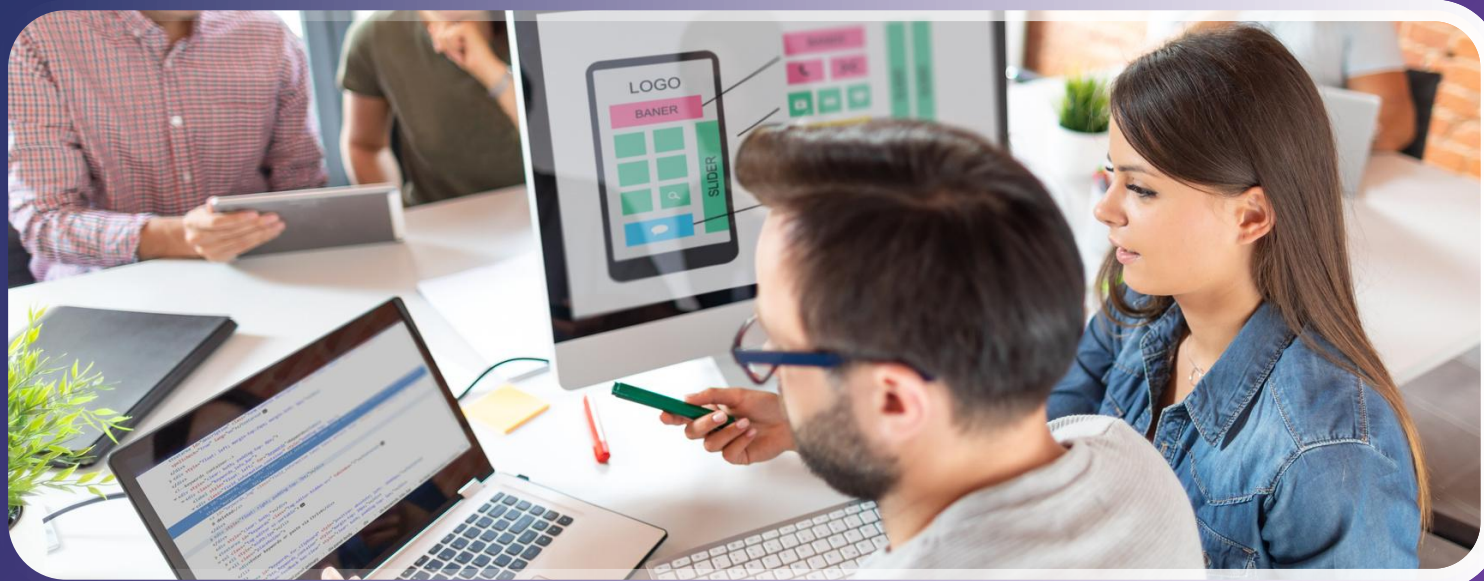

- ✓ A trusted global provider of Microsoft Azure cloud migration and implementation services, delivering secure, scalable, and high-performance cloud solutions.
- ✓ Delivering enterprise-grade Azure migration and implementation services that help organizations modernize infrastructure and adopt cloud with confidence.
- ✓ Comprehensive support across cloud strategy, assessment, project management, migration, and application modernization to ensure a smooth Azure transition.
- ✓ Leverage Azure-native services, AI/ML tools, and advanced analytics to drive innovation, optimize performance, and unlock business insights.
- ✓ Provide structured training, best practices, and post-migration support to empower teams and ensure long-term cloud success.

Services Features

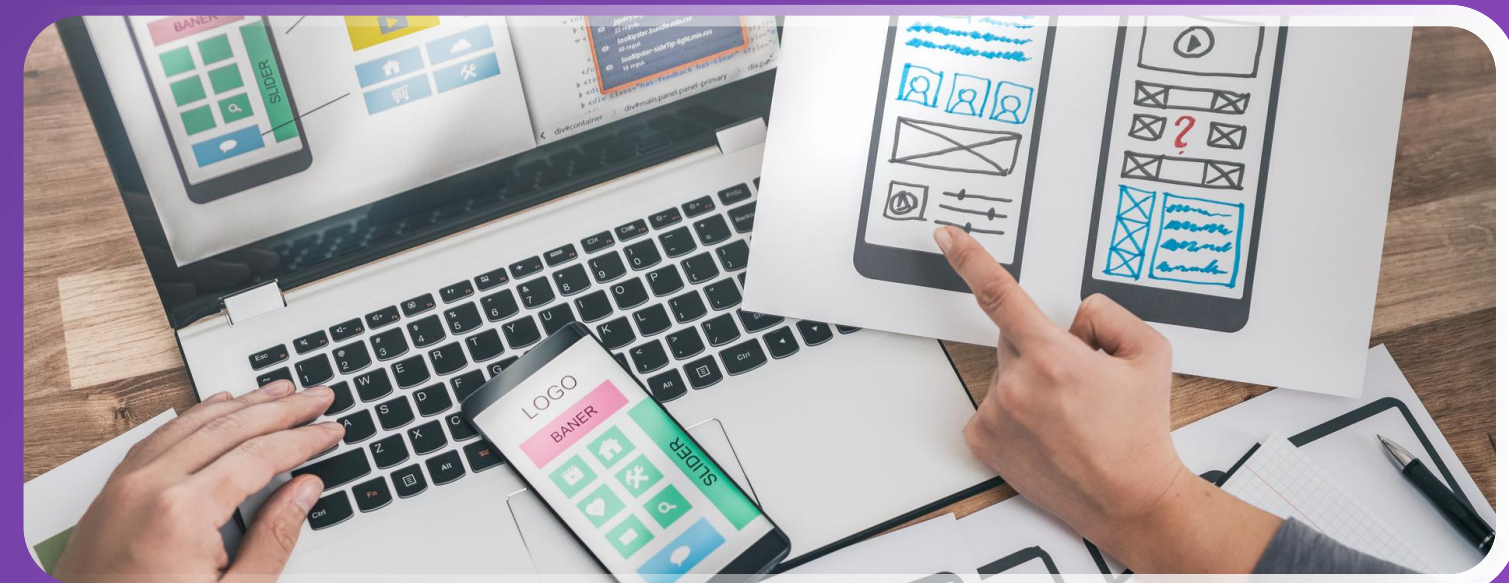

- ✓ Certified Microsoft Azure architects & cloud engineers
- ✓ End-to-end Azure cloud migration & implementation
- ✓ Secure, scalable Azure architectures following best practices
- ✓ Expertise in Azure Virtual Machines, Storage, Networking & Azure AD
- ✓ DevOps automation using Azure DevOps & CI/CD pipelines
- ✓ Application modernization with PaaS, containers & microservices
- ✓ Advanced data, analytics & AI/ML solutions on Azure
- ✓ Cost optimization, performance monitoring & 24/7 managed support

Service Benefits

- ✓ Proven expertise delivering Azure cloud solutions across diverse industries
- ✓ Global delivery capability supported by Microsoft-certified Azure architects and engineers
- ✓ Faster cloud adoption through structured Azure migration frameworks and automation tools

- ✓ Access to comprehensive Azure skills covering compute, storage, networking, DevOps, data & security
- ✓ Extensive experience modernizing legacy applications into scalable, cloud-native Azure solutions
- ✓ Seamless integration across applications, databases, hybrid and multi-cloud environments

Approach to Design

Azure-First Architecture

Designing solutions that fully leverage Azure services such as Azure Virtual Machines, App Services, Containers, and PaaS offerings to ensure scalability and long-term flexibility.

Microsoft (CAF) Alignment

Following Microsoft's proven Cloud Adoption Framework to guide planning, readiness, migration, innovation, and governance across the cloud journey.

Business-Centric Solution Planning

Translating business goals into technical roadmaps through close alignment with stakeholders, ensuring measurable outcomes and value-driven cloud design.

Iterative Migration & Deployment Model

Executing phased migrations with continuous validation, reducing risk while enabling faster time-to-value and minimal business disruption.

User Experience–Driven Design

Focusing on performance, accessibility, and usability to ensure cloud applications deliver consistent and intuitive experiences for end users.

Built-In Governance & Security Controls

Integrating identity management, encryption, compliance controls, and monitoring at every design stage to ensure end-to-end security.

Development Approach

01

Cloud Readiness–Driven Execution

We begin by assessing application, data, and infrastructure readiness to define the right Azure migration path rehost, refactor, re-architect, or rebuild ensuring optimal outcomes.

03

Infrastructure as Code (IaC) Enablement

Azure environments are provisioned using ARM templates, Bicep, or Terraform to ensure consistency, repeatability, and faster environment setup across development, test, and production.

02

Continuous Integration & Deployment

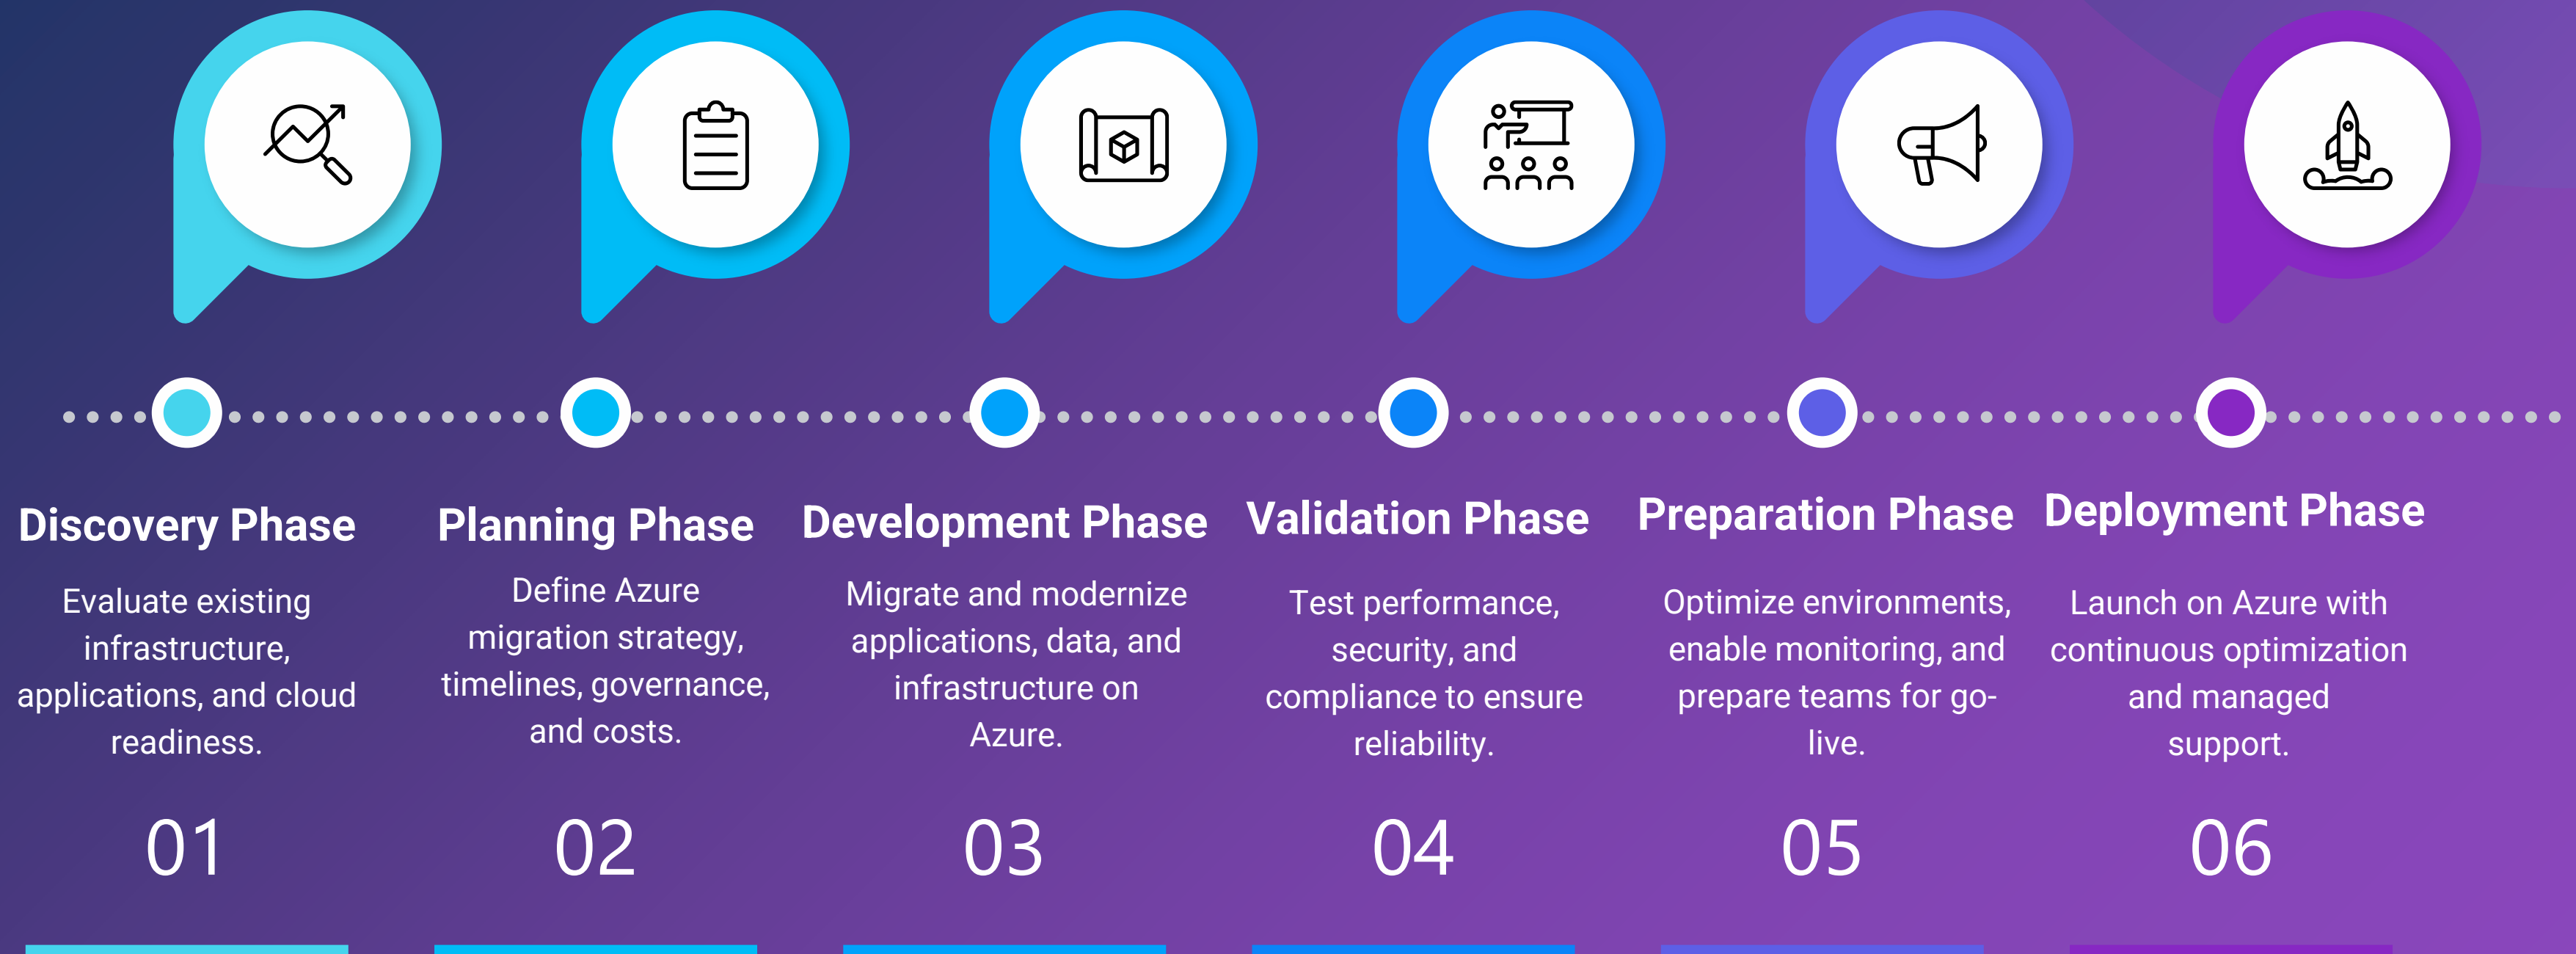

Azure DevOps pipelines automate build, test, and release workflows, enabling frequent, reliable deployments with reduced manual intervention and faster release cycles.

04

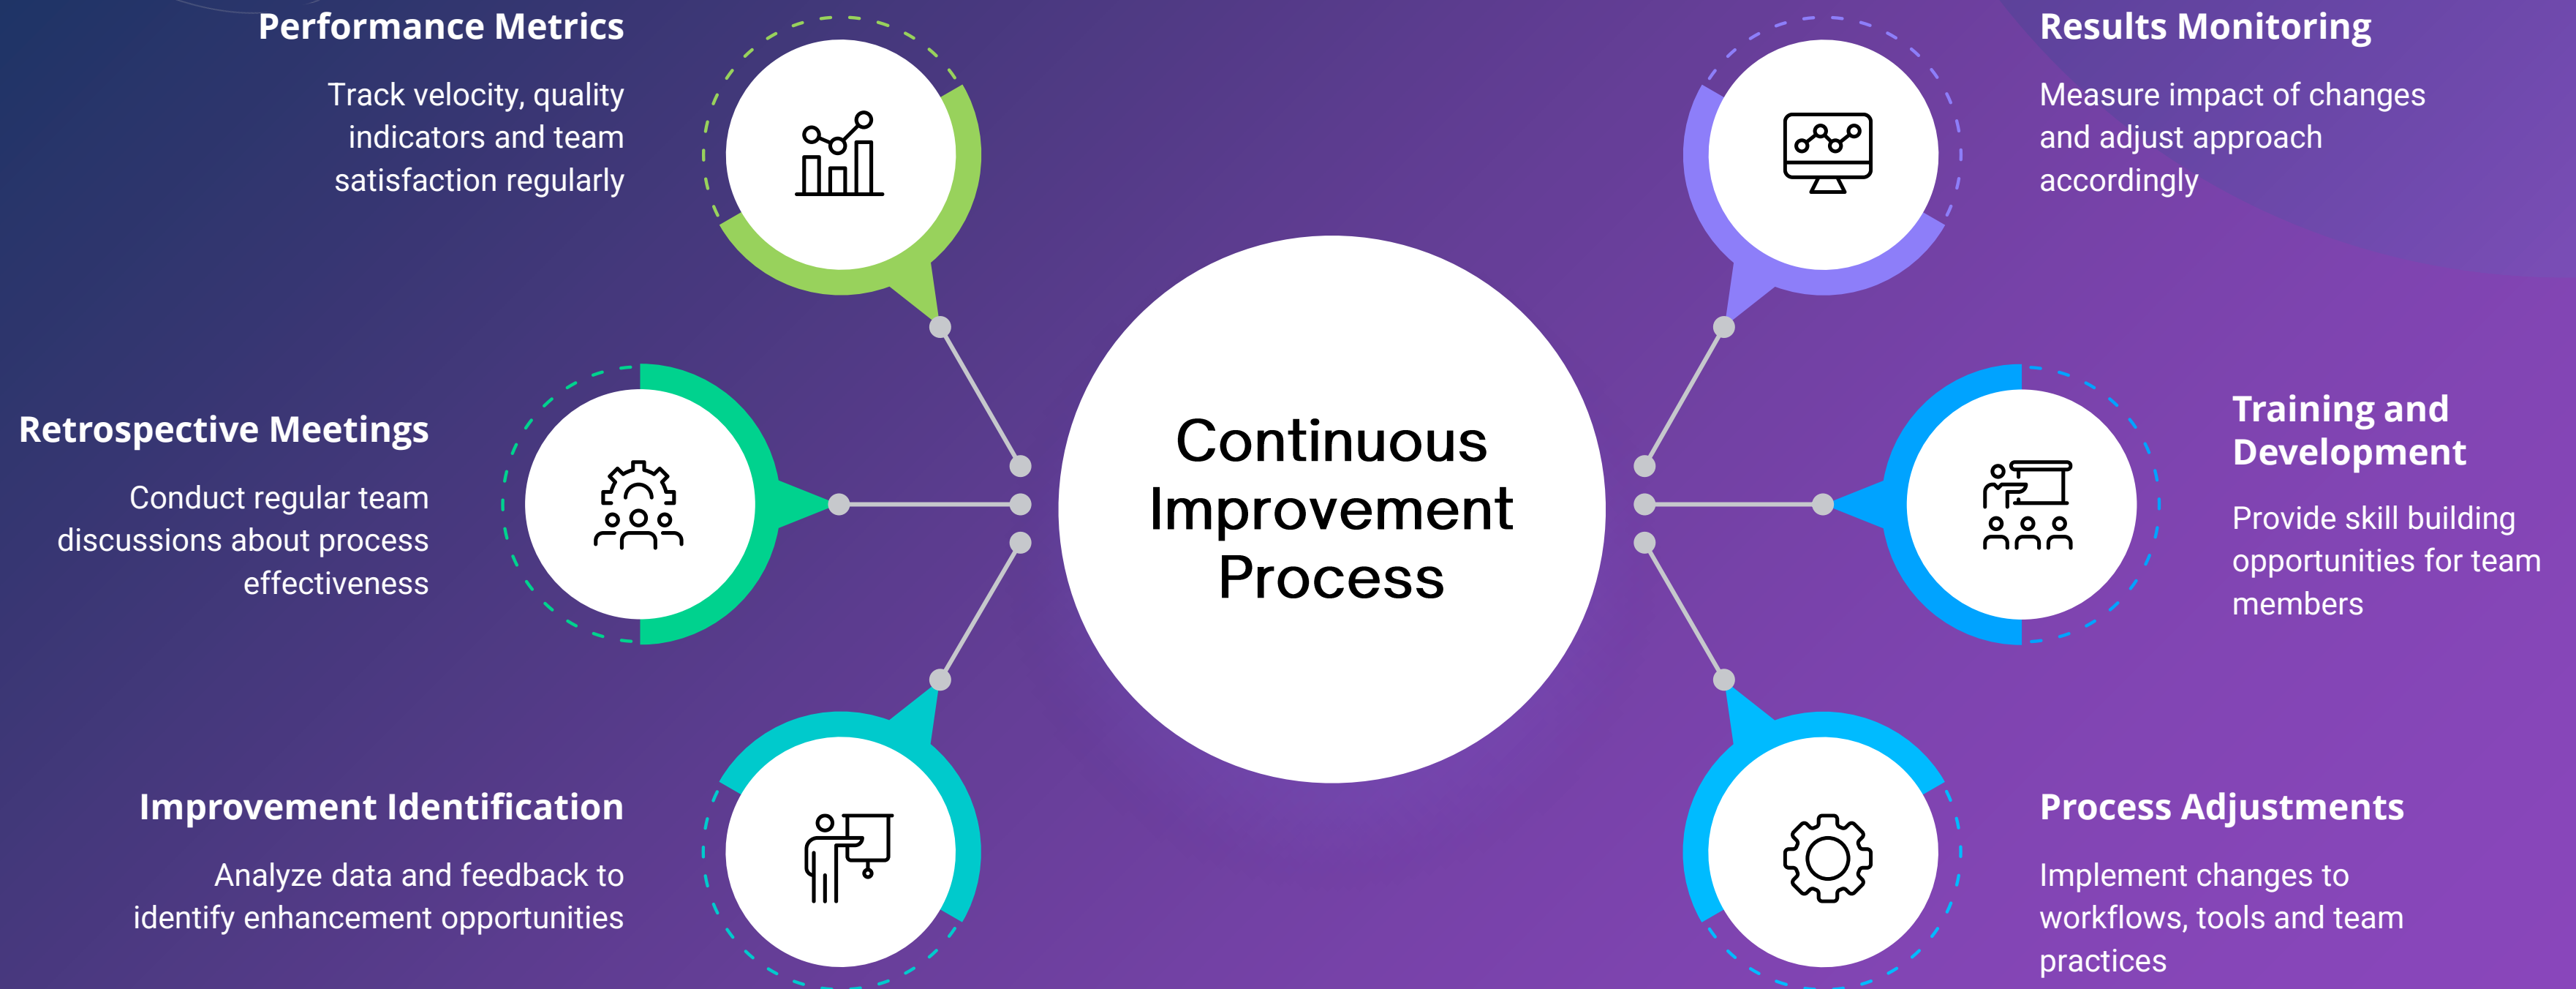

Monitoring-Led Optimization

Post-deployment, we leverage Azure Monitor, Log Analytics, and Application Insights to proactively track performance, reliability, and cost efficiency for continuous improvement.

Strategic Product Development Roadmap

Development Approach

Our Differentiators

Virgule International, located in the heart of UK and has been serving its key clients for over a decade now. Our strong delivery model and customer focus is a key differentiator while we continue to engage into new territories with our clientele.

Partner with purpose

We embed within client ecosystems to understand unspoken cultural nuances, team dynamics, and innovation tolerance

Industry Expertise

Apply Digital Solutions to IT problems

Digital Technologies

Latest Technologies. Implemented

Return on Investments

Making solutions drive growth
