CoPERCEPTUO

ABOUT US

AI-driven platform and supporting services, transforming IT governance and decision-making for organisations.

- Manchester-based team with decades of IT consultancy experience.
- Spun out of an IT consultancy, founded in 2022.
- Backed by Innovate UK and angel investors.
- Product launched in 2023 and now expanding into managed services and support.
- Experience across healthcare, local government, housing, charity and private sectors.

OUR MISSION & VALUES

Our Mission

- Give IT leaders trusted evidence to make confident, timely and assured decisions.

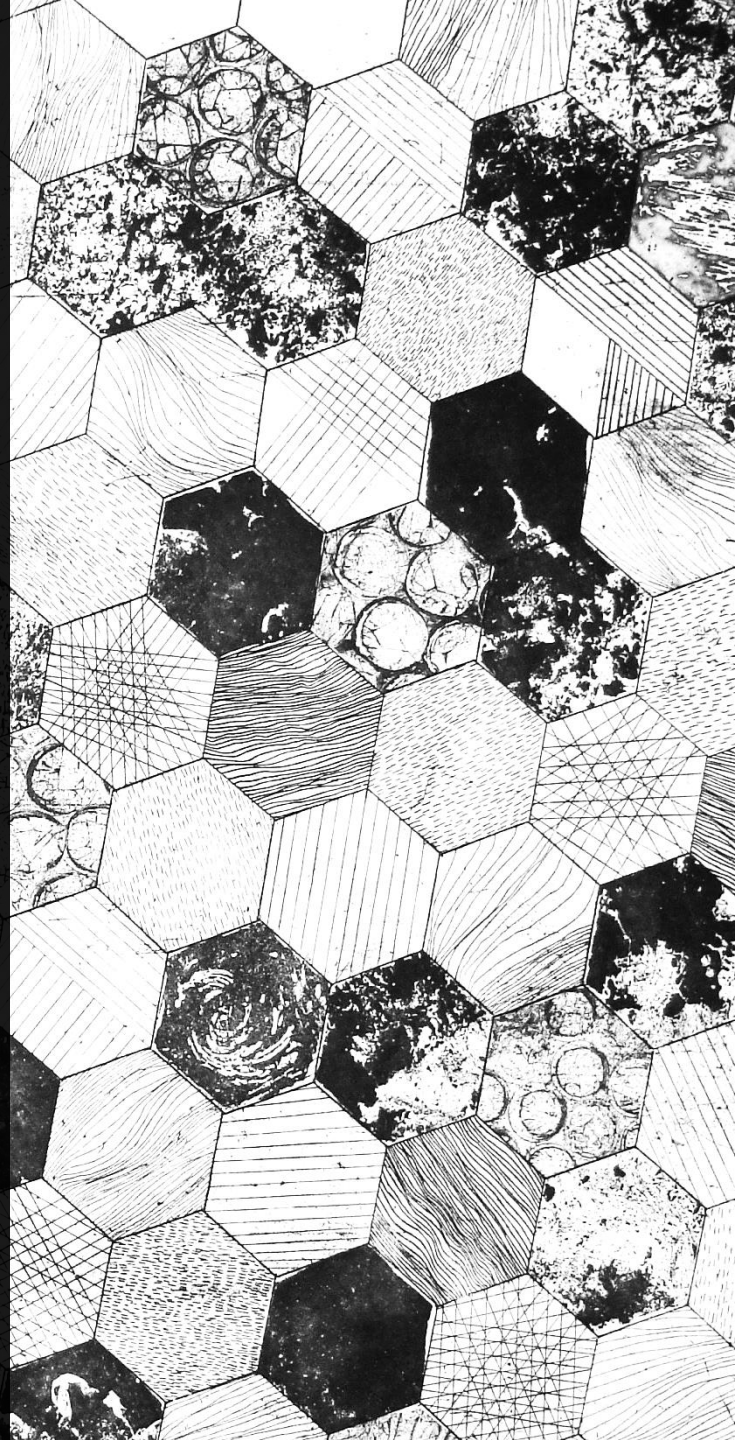

Our Values

- **Honest:** We are uncompromisingly honest in everything we do, providing data and insight that customers can rely on.
- **Inquisitive:** We are endlessly inquisitive in how we can improve, adapt and innovate to continually bring new value to our clients.
- **Mindful:** We are always mindful of and value the needs of our customers, team-mates, investors and the environment in which we operate.
- **Unique:** We have an underlying determination and passion to break the mould; not for the sake of it, but because we're passionate about change.

SERVICE OVERVIEW

Our Enterprise Architecture Support Service is a managed enterprise architecture service delivered through CoPerceptuo, providing ongoing curation of architecture data, insights and roadmaps. A dedicated enterprise architect works alongside your teams to maintain the repository, interpret insights and support governance forums such as design authorities and technology steering groups.

- **Managed EA service combining experienced architects with CoPerceptuo to provide a governance-ready architecture capability.**
- **Fractional capacity that can establish new EA functions or strengthen existing teams, without permanent headcount commitment.**
- **Ongoing curation of applications, integrations, services and suppliers, producing evidence-based views to guide investment decisions.**
- **Proactive support for design authorities and steering groups, including board materials, challenge and structured recommendations.**

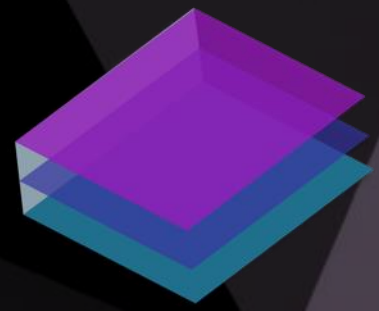

THE EA SERVICE

FEATURES:

- Dedicated enterprise architect acting as an extension of your team, curating applications, services, integrations and the technology catalogue.
- Maintenance of architecture artefacts including views, reference models and capability maps, kept current for stakeholders and governance forums.
- Regular review of CoPerceptuo insights on risk, cost and performance, identifying duplication and rationalisation opportunities across the estate.
- Support to define architecture principles, standards and technology roadmaps, ensuring change initiatives align with target architectures.
- Preparation of packs for boards and governance meetings, with advisory input for procurement, investment cases and periodic reporting on architecture health and improvements

BENEFITS:

- Stronger enterprise architecture capability without hiring permanent headcount or long-term commitment.
- Better-governed change through evidence-based decisions and visibility of risk and debt.
- Consistently maintained architecture repository reducing duplication and technology sprawl.
- Improved alignment between projects, strategy and target operating model.
- Reduced dependency on ad-hoc consultancy with faster impact analysis.
