

Pricing

Service: Snapshot AI

Supplier: Vesper Software Limited

Pricing model

Snapshot AI is priced on a per-user, per-month subscription basis.

Subscription fees

The price is USD \$19 per user per month, or the GBP equivalent at the prevailing exchange rate at the time of invoicing. Pricing applies to each named user with access to the service.

What is included

The subscription fee includes access to the Snapshot AI service, standard support via email and phone during business hours, regular service updates, and access to data export at the end of the contract.

Additional costs

Optional services such as enhanced support, a dedicated account manager, additional technical or cloud support, custom dashboard configuration, and onsite training may be provided by agreement at additional cost.

Billing and invoicing

Subscription fees are billed monthly or annually in advance, as agreed with the customer. Taxes are excluded unless otherwise stated.

Accessibility

This pricing document is provided in an accessible format suitable for screen readers and assistive technologies when exported as PDF/A or Open Document Format.
