

ParaFolio – Pricing Document

All ParaFolio users require a ParaPass licence. An organisational subscription to ParaPass works on a user licence basis. Each person will have a user licence allocated to them, this will enable them to download the app from the App Store or Google Play onto their phone or tablet and use the website version to access the content. For group subscriptions we require a minimum of 10 users. The user licences work on a 'per seat' basis, so if staff member A leaves and staff member B joins, their licence can be transferred.

The base price for an ParaPass user licences is £39.99 (2025 pricing). This user licence price may vary depending on organisational type.

ParaFolio offers the option to purchase bespoke Modules for specific teams and processes.

As of October 2025, the bespoke modules available are:

- **NQP and Mentor**
- **EPRR**
- **Advanced and Specialist Paramedics**
- **Telephone Triage**
- **HART Instructors**
- **HART Enhanced Skills**

Each module varies in price depending on scope. Pricing is determined after the initial call with the customer. The pricing range is £20,000 - £70,000+VAT. There will be an annual maintenance fee for the upkeep of a bespoke module, this is 20% of the original set up cost.

Creation of Enhanced Reporting Dashboard is £9,000+VAT. This is an additional cost to the development of the modules. There will be an annual maintenance fee for the Enhanced Reporting Dashboard, this is £3,000+VAT.
