

ParaPass – Pricing Document

An organisational subscription to ParaPass works on a user licence basis. Each person will have a user licence allocated to them, this will enable them to download the app from the App Store or Google Play onto their phone or tablet and use the website version to access the content. For group subscriptions we require a minimum of 10 users. The user licences work on a 'per seat' basis, so if staff member A leaves and staff member B joins, their licence can be transferred.

The base price for an ParaPass user licences is £39.99 (2025 pricing). This user licence price may vary depending on organisational type.
