

Efficio Supply Chain Management as a Service

LOT 3: CLOUD SUPPORT

JANUARY 2026

Service Description

Efficio's Supply Chain Management as a service equips organisations with tools and strategies to optimise supply chain operations. Our comprehensive approach includes supply chain strategy, network design, process improvement, and digital transformation. By focusing on resilience and efficiency, we enable clients to achieve agility and competitiveness in dynamic market environments.

Features

- Supply chain strategy development for long-term resilience and competitiveness
- Network design optimisation to enhance efficiency and responsiveness
- Process improvement initiatives to streamline supply chain workflows and operations
- Digital transformation solutions for enhanced visibility, control, and collaboration
- Supplier collaboration strategies to foster innovation and improve performance
- Inventory management optimisation for reduced costs and improved service levels
- Risk management frameworks to identify and mitigate supply chain disruptions
- Sustainable supply chain practices to promote environmental and social responsibility
- Performance measurement and analytics for data-driven decision-making and continuous improvement
- Change management support for successful supply chain transformation initiatives

Benefits

- Supply chain strategy improves resilience, agility, and competitiveness
- Opportunity identification highlights network, inventory, and logistics levers
- Cost intelligence improves cost-to-serve and planning decisions
- Commercial intelligence strengthens supplier collaboration and risk management
- Transformation supported through controlled digital enablement and adoption
- Procurement orchestration improves alignment across supply chain stakeholders
- Value creation improved through reduced waste and improved service levels
- Value delivery sustained through governance, metrics, and continuous improvement
- Capability augmentation improves skills, processes, and operational discipline
- Commercial management strengthens accountability and delivery control

Why Efficio?

Efficio is the world's largest international procurement service provider with an unrivalled track record of delivering significant results for our client base.

For more than two decades, our deep expertise, hands-on approach, global scale, and ever-evolving technology have helped our clients realise their supply chain and procurement ambitions. We have developed purposefully as specialists, achieving consistent rapid growth to become the largest independent consultants in our field.

We combine the human intelligence and deep expertise of our consultants with the data and content gleaned from our years of specialist focus. So, whether it's setting you up for procurement excellence, solving supply chain challenges, or optimising costs - from cost reduction to working capital management - we work alongside you to navigate the ups and downs of the procurement and supply chain landscape.

We work across all industries including Public Sector, Healthcare and NHS, Defence, Construction and Infrastructure, Energy and Utilities, Financial Services, Private Equity, Manufacturing, and Technology. Our talent pool of >1400 procurement specialists include 750+ specialists with deep experience in PCR 2015, DSPCR, and Procurement Act 2023 environments. We deploy SC-cleared resource, comply with Cabinet Office standards (Sourcing Playbook, Green Book, Delivery Model Assessments), and work across departments including the Home Office, NHS England, AWE, FCDO Services, UKHSA, and CCS.

We have extensive expertise in procurement, category management, supply chain, change implementation, programme management & project delivery. We provide clients with data analytics, reporting and operational data management, transferring knowledge and supporting the recruitment, onboarding and upskilling of client teams, including use of our training academy.

Efficio's deep experience in regulated, high-security, and public sector environments means we understand how to deliver value within the constraints of public procurement legislation - including PCR 2015, DSPCR, and the Procurement Act 2023. We help clients challenge suppliers constructively while ensuring compliance, transparency, and strong commercial outcomes.
