

Efficio GCloud 15 Rate Card

LOT 2b: SOFTWARE AS A SERVICE

JANUARY 2026

Pricing Document

Our Connected Platform is offered as a flexible, license-based SaaS solution. While we have standard license tiers, we understand that each client's needs are unique. Therefore, the exact cost per license is determined in discussion with each client to ensure it aligns with their scale of use and commitment period.

Discounts and Volume Pricing

Tiered discounts are available based on the number of licences purchased, with additional discounts for multi-year commitments. Contract value discounts are set out separately in the applicable pricing table. Any discounts are discussed and agreed during the engagement process.

Included Features

Each license grants full access to the Connected Platform's core functionalities, as described in the Service definition document, for the duration of the contract. Additional costs may apply for:

- Access to advanced or client-configured capabilities,
- Services beyond the standard licence scope,
- Additional data extracts or bespoke reporting,
- Advanced configuration or integration work,
- Onsite activities, where reasonable travel and expenses apply.

Any additional costs will be discussed directly with the customer and agreed in advance.

Rate card for additional services

Where customers require services beyond the standard Connected Platform licence, such services are provided on a time-and-materials basis using a standard rate card. Additional services may include, for example:

- Platform configuration or set-up support
- Data preparation or data integration activities
- Advanced or client-configured capabilities
- Technical or platform support
- Quality assurance or specialist review
- Software development, UX or architecture support
- Advisory or consulting services related to platform use

Rates are determined by location (onshore or offshore), and not by role type. Rates exclude VAT and expenses. The same rate card applies across all services roles, including:

- Product and delivery roles
- Data and analytics roles
- IT and platform roles
- Quality assurance
- Software development
- UX and architecture
- Related consulting or advisory services

SFIA Level	Onshore (£/day)	Offshore (£/day)
SFIA Level 1	£997.50	£902.50
SFIA Level 2	£1,144.50	£1,035.50
SFIA Level 3	£1,281.00	£1,159.00
SFIA Level 4	£1,438.50	£1,301.50
SFIA Level 5	£1,890.00	£1,710.00
SFIA Level 6	£2,310.00	£2,090.00
SFIA Level 7	£2,625.00	£2,375.00

Tailored Pricing Discussions

We will work closely with each client to finalize the pricing details to ensure it aligns with your specific usage and organizational requirements. This approach allows us to provide the most cost-effective and value-driven solution for your needs.
