

Pricing: Rostrata

G-Cloud 15

Dec 2025

1. INTRODUCTION

The pricing provided in this document assumes a standard configuration and represents the annual ongoing cost for the relevant service.

Pricing for implementation and further configuration will vary according to specific customer requirements, complexity and client organisation and will be based on the rate card provided in the Digital Marketplace.

Unless stated otherwise, prices exclude VAT.

Please contact Alocura via sales@alocura.care or 01942 233422 for further information.

2. PRICING

Rostrata for care delivered in a community or non-hospital setting, through commissioned service, personal health budget, personal budget, or other payment mechanism.

Implementation: Any professional service(s) provided during implementation are charged according to the SFIA rate table later in this document. Following an initial scoping exercise (and if required) a quote will be issued for implementation, based on the agreed scope.

Ongoing licence fees: Rostrata is a cloud-based management system and support service. It is utilised by Local Authority and Healthcare commissioners to set policy, administer, control and report on care planned and delivered in the community or other non-hospital settings, delivered directly via commissioned services, personal health budgets or personal budgets. Funds can be held by Alocura, the provider, the individual, other third party or the commissioner, and payments facilitated through Rostrata.

Our ongoing costs have been designed to incorporate the various types of payment mechanisms required across the health and social care sectors. Alocura fees operate on a straightforward 'per user' licence fee basis:

- **£14.75 per user/ month.**
