1. Pricing

This document provides transparent pricing for MaxIron's IBM Maximo Application Suite (MAS) as a Service offering.

Pricing is based on the environment type and intended workload (production, pre-production and non-production). All prices are in GBP per month, excluding VAT and any pre-agreed expenses.

Our solution is designed to provide competitive production Maximo Application Suite (MAS) Environments. To accommodate varying needs, we operate a pricing model based on the size and purpose of the environment. Below, you will find detailed information on our pricing model.

We believe in flexible pricing without compromising on quality or functionality. Additionally, we provide excellent support to ensure that you get the most out of our service.

1.1 Production

Environment Type	No. of Users	Monthly Cost	Hours Per Month	Features
Production – Standard	1 - 500	GBP2500	No restriction	Dedicated RHOS Cluster Separated UI, Integration and reporting workloads
Production - Advanced	1 - 500	GBP10000	No restriction	High Availability Resilient Dedicated RHOS Cluster Separated UI, Integration and reporting workloads

These environments are dedicated environments and will be high availability and resilient in terms of being load balanced.

1.2 Non-production environments

Environment type	Typical users	Monthly cost	Included hours	Notes / features
Sandbox	1–2	£600	215	Configuration and functionality review
Developer	1–2	£600	215	Development
Data	1–2	£1,000	No restriction	Data loading and review
Test	20–50	£2,000	No restriction	Functionality testing and review
Training	20–50	£2,000	No restriction	Training

1.3 Licensing

MAS licensing can be provided in either of the following ways (as specified in the Order Form and Service Definition):

- Bring Your Own Licence (BYOL): the Customer provides IBM MAS licences.
- MaxIron-provided licensing: MaxIron can supply IBM MAS licences as part of the service.

Where applicable, IBM MAS App Points can be purchased as an add-on to support the required MAS applications and optional modules. The following table provides indicative maximum unit pricing for App Points:

App Point Quantity	App Point Price
1-100	GBP750
101-1000	GBP600
1000+	GBP500

1.4 Commercial notes

- Prices exclude VAT.
- Support and service levels are defined in the Service Definition.
- Onboarding/setup activities can be priced separately if required.
- Optional modules and integrations may require additional IBM licensing
