GCLOUD 15 - Pricing Information

AmberWolf – G-Cloud 15 Pricing Document

Service Overview

AmberWolf is a dedicated cyber security consultancy based in the UK, offering specialised services designed to address and mitigate diverse security challenges. Our team of expert consultants utilise cutting-edge techniques and methodologies to deliver tailored security solutions.

Core Pricing

Service Line	Average Day Rate	Description
Penetration Testing & Security Assessment	£1,250 - £1,650	Assessment of environment and security controls by conducting realistic, scenario-based penetration testing using advanced attacker tools, techniques, and procedures (TTPs). Full life-cycle penetration testing service including artificial intelligence (AI) scenario testing. CREST, CBEST and GBEST accredited.
Offensive Security Services	£1,650 - £1,850	Threat-led assessment, real-world attack simulation, and applied research to help organisations validate security controls and strengthen resilience.
Improvement & Transformation Services	£1,250 - £1,800	Practical, expert guidance to guide clients, strengthen their defences, reduce risk, and embed security into technology, processes, and culture. Automated and manual techniques to uncover vulnerabilities, identify innovative solutions and increase organisation-wide cybersecurity.
Security Consulting Services	£1,250 - £1,800	Proactive cyber defence services with innovative insights to help organisations mitigate cyber security threats and improve their resilience.

SFIA Rates

Our submission outlines the application of the Skills Framework for the Information Age (SFIA) to our cyber security consultancy service offering, with a focus on **Levels 4, 5, 6, and 7**. These levels represent advanced professional competencies, leadership, and strategic acumen in managing and safeguarding information assets crucial for public sector operations.

Our rate card reflects a commitment to providing scalable, expert-level cyber security consulting services that align with the strategic objectives and compliance requirements of the UK public sector.

For further details on our service offerings and to engage with us directly, please refer to the GCloud 15 portal or the use contact details listed on our website. We are prepared to discuss your specific needs and how we can support your objectives with our specialised services.

We look forward to the opportunity to contribute to the security and efficacy of your operations.
