Frontier

Operate predictably. Innovate safely.

Elastic Security solution

G-Cloud 15 Lot 3 (Cloud Support)

© Frontier 2026

Service Overview

- We provide Elastic Security implementation and support services to help organisations design, deploy, and operate security analytics and threat detection capabilities at scale.

- The service covers the automated deployment, configuration, and optimisation of Elastic Security platforms, aligned to vendor best practices. Delivered by Elastic Certified Engineers, we support the integration of security analytics, threat detection rules, and operational workflows to enable faster detection, investigation, and response, alongside hands-on engineering support and knowledge transfer

Key Features & Benefits

Key features

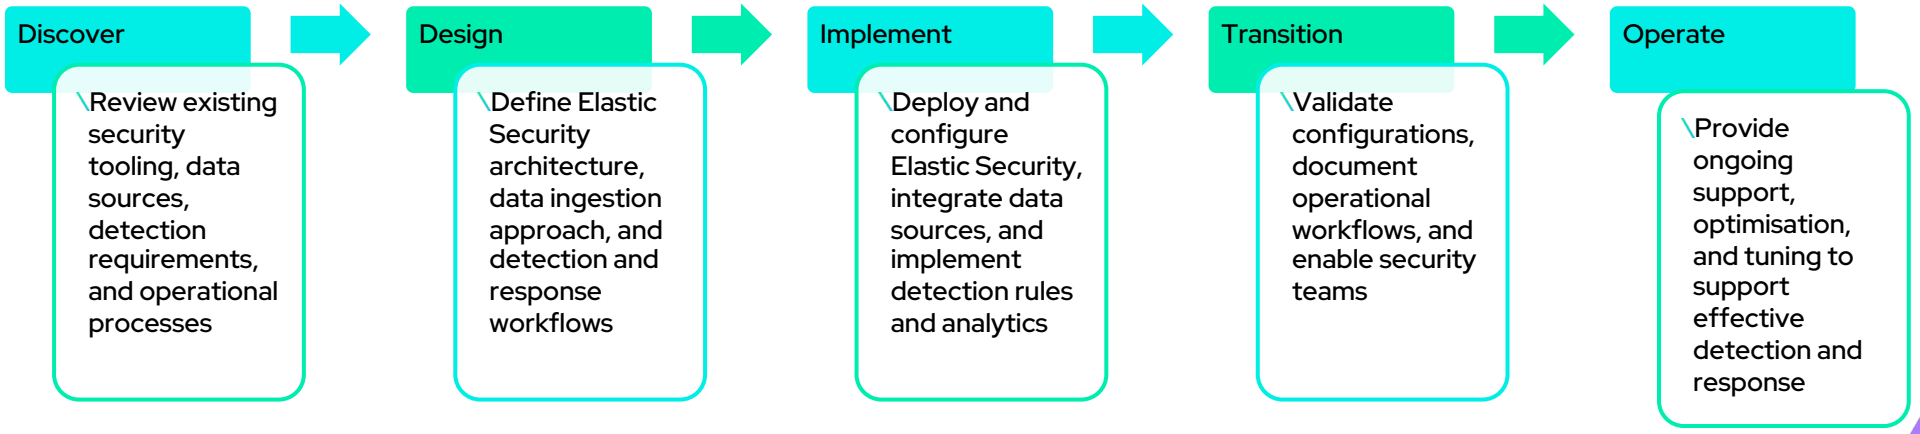

- Modernised SecOps with AI-driven security analytics.
- Automated threat detection with advanced analytics and prebuilt rules.
- Contextualised LLM prompts with hyper-relevant results.
- Designed, deployed, and configured following vendor best practices.
- End-to-end automation and re-use as standard.

Key benefits

- Delivered by an accredited team of UK-based experts.
- Built secure by default, cost-effective and ready to scale.
- Automated following best practices to be predictable, repeatable, and maintainable.
- Provisioned and documented to enable you to operate successfully.
- Supported by a team when and where you need them.

Delivery Format

Delivery format:

- **Format:** Remote delivery (Teams/Zoom) as standard, with on-site support available by agreement.
- **Engagement model:** Delivered on either a time-and-materials (T&M) basis or as a fixed-price engagement, depending on scope and requirements.
- **Duration:** Delivered as a fixed-duration implementation and configuration activity with optional follow-on support, optimisation, or managed service engagements.
- **Capacity:** Delivered by Frontier Elastic Certified Engineers working with customer security, platform, and operational teams.
- **Materials:** Architecture documentation, configuration artefacts, automation assets, and recommendations provided where applicable.

© Frontier 2026

Prerequisites (onboarding)

- **Access:** Appropriate access to the customer's Elastic environments, data sources, cloud platforms, and relevant security tooling, as agreed.
- **Permissions:** Administrative or delegated permissions required to deploy, configure, and support Elastic Security components and integrations.
- **Documentation:** Existing security architecture, data sources, logging pipelines, detection requirements, and operational processes where available.
- **Skill level:** Customer technical contacts with working knowledge of security operations, logging and monitoring, and cloud platforms.

© Frontier 2026

Service Constraints

- **Scope:** Services are delivered within the agreed scope of Elastic Security implementation, configuration, and support defined at engagement start.
- **Access:** Delivery is dependent on timely access to the customer's Elastic environments, data sources, cloud platforms, and supporting systems.
- **Platforms:** Support is limited to Elastic Security and related platforms and services agreed as part of the engagement.
- **Language:** Services are delivered in English.

© Frontier 2026

Service Levels

- **Support hours:** Support provided during standard business hours, with optional enhanced or premium support offering extended availability.
- **Response times:** Initial response times depend on the agreed support level and incident priority, with faster response for enhanced and premium support.
- **Escalation:** Issues are escalated to senior engineers where required, in line with the agreed support model.
- **Scheduling:** Planned support activities are scheduled by mutual agreement.
- **Hyper-care support:** Where applicable, up to five (5) business days post-implementation, onboarding, or migration.

© Frontier 2026

Security & Accreditations

- **Security posture:** We are committed to meeting the highest standards of security for public sector engagements.
- **Vetting:** All consultants are UK-based and hold BPSS clearance as a minimum, with SC-cleared consultants available where required.
- **Data handling:** Services are delivered within the customer's secure environment. We do not host or remove customer data unless explicitly agreed.
- **Certifications:** We hold Cyber Essentials Plus and ISO/IEC 27001 certification.

© Frontier 2026

Why Frontier?

- **Cloud and platform engineering specialists:** We provide hands-on support and consultancy across cloud and platform services.
- **Trusted partnerships:** We work with leading cloud and technology partners to support customer environments using industry-recognised platforms and tools.
- **Public sector ready:** Experienced in secure and regulated environments, with a strong understanding of public sector delivery and procurement.
- **Practical delivery:** We work alongside customer teams to bridge strategy and day-to-day operational needs.
- **Flexible engagement:** Our engineers integrate with existing teams and delivery models, including Agile ways of working.

Ordering & Pricing

- **Ordering:** Services are ordered via the G-Cloud Digital Marketplace in line with framework rules.
- **Pricing:** Priced using SFIA-aligned day rates (see attached Pricing document).
- **Invoicing:** Invoiced monthly in arrears based on days delivered.
- **Contact:** hello@frontierhq.com for service enquiries.

Who we are

© Frontier 2026

Who we are
Engineering philosophy

Operate predictably. Innovate safely.

It's not just a tagline, it's our engineering philosophy.
It influences everything we do.

© Frontier 2026

Solid foundations

At the core of our engineering philosophy lies a commitment to building solid foundations.

© Frontier 2024

Operate predictably

Operate predictably, as an integral facet, represents our pursuit to enable trust and confidence in technology.

© Frontier 2024

Innovate safely

Innovate safely, as a leading edge, represents our resolve to ensure safe exploration and advancement.
