Sonatype Nexus Repository Cloud

Sonatype Nexus Repository Cloud is a secure, SaaS-based binary repository manager. It centralizes management of build artifacts and binaries across universal formats (Docker, Maven, npm, PyPI). The service ensures reliable software supply chains with high availability, SSO/RBAC, and seamless CI/CD integration, acting as a single source of truth for DevSecOps.

1. Pricing Overview

Sonatype Nexus Repository Cloud provides a fully managed, SaaS-based single source of truth for all your software artifacts, binaries, and build artifacts.

Pricing for this service is structured on a Subscription basis, consisting of a Platform Fee (which includes a defined allowance of storage/data transfer) and an On-Demand Consumption rate for usage exceeding the contracted allowance.

All prices quoted are in GBP (£) and exclude VAT.

2. Cloud Subscription Pricing

The Annual Platform Fee grants access to the Nexus Repository Cloud environment, including maintenance, standard support, and infrastructure management.

Storage + Egress (GB / month)	**Platform Fee GBP (£) ex. VAT**	**Overage Fee (GB / month)**
500 GB / month	£8,220	£1.10
1,000 GB / month	£14,820	£0.90
2,500 GB / month	£31,020	£0.70
5,000 GB / month	£52,020	£0.59

SKU is CS-NX-001.

Additional tiers are available upon request.

Pricing for on-premise (self-hosted) and air-gapped installations available upon request.

Minimum Contract Term: 12 Months.
Billing Frequency: Annual in advance.

3. Consumption & Overage Rates

Shock Protection is included - but should usage exceed the 110% of the purchased allowance included in the Platform Fee above, additional consumption is billed monthly in arrears at the listed rate specified in Section 2, or can be pre-purchased in blocks.

4. Optional Add-Ons & Modules

Enhance your Repository Cloud instance with automated malware blocking and policy-based enforcement for proxy repositories with Sonatype Repository Firewall. This is priced at £300 per User/year* (SKU CS-NF-001).

*User definition: A "User" is defined as any individual (employee or contractor) who produces, consumes, or evaluates software artifacts stored in or scanned by the Sonatype platform.

5. Volume Discounts

Volume discounts are covered in Section 2 based on committed pre-purchased consumption.

6. Education & Non-Profit Pricing

There is no preferred pricing for educational or non-profit organizations.

7. Professional Services (Onboarding & Training)

While Sonatype Nexus Repository Cloud is designed for ease of use, we offer specific packages to accelerate time-to-value.

White-Glove Migration Service

Sonatype's White-Glove Repository Migration Service is available to anticipate any concerns and use validated tooling and a structured delivery approach to ensure continuity, visibility, and peace of mind.

Sonatype will be engaged to confirm which tier applies.

Tier	Constraints	Fee
Free	Under 6TB of storage; migrating from self-hosted Sonatype Nexus Repository to Cloud	*Included*
Essential	Up to 20TB of storage; migrating from self-hosted Sonatype Nexus Repository or jFrog Artifactory	£5,000
Standard	Up to 35TB of storage; migrating from self-hosted Sonatype Nexus Repository or jFrog	£10,000

	Artifactory	
Enterprise	Over 35TB of storage; migrating from self-hosted Sonatype Nexus Repository or jFrog Artifactory	£15,000

All tiers use SKU TR-NRM-001.

Educational Workshops & Training

*For bespoke consultancy, please refer to our separate **SFIA Rate Card** uploaded to the Digital Marketplace.*

The following workshops are available to purchase and are delivered by Sonatype. Please see https://www.sonatype.com/learn-training-workshops for details on each workshop.

SKU	Workshop	Virtual / In-Person	Fee
TR-NRH-001	Nexus Repository Manager Hands-On Training	Virtual	£4,000
TR-NRH-002	Nexus Repository Manager Hands-On Training	In-Person	£5,000
TR-NRC-001	Nexus Repository Manager Health Check	Virtual	£10,000
TR-NRC-002	Nexus Repository Manager Health Check	In-Person	£11,000
TR-RAD-001	Nexus Repository Advanced Deployment	Virtual	£15,000

8. Support Levels

Standard Support is included in the Cloud Platform Fee Subscription. Premium options are available for mission-critical deployments as described in detail in the Service Definition document uploaded to the Digital Marketplace.

SKU	Support Level	Fee
-	Standard	*Included*
SO-SUP-001	Extended	£3,500
SO-SUP-005	Gold	Starting at £50,000

9. Terms & Conditions

- **Prices:** All prices are fixed for the duration of the G-Cloud 15 Framework agreement (subject to any indexation clauses allowed by the framework).
- **Invoicing:** Invoices are raised annually in advance for the platform fee. Payment terms are 30 days net.
- **Termination:** Cancellations require 90 days' written notice prior to the renewal date.
- **Data Extraction:** Upon termination, customers may extract their artifacts. Assistance with bulk extraction may incur Professional Services fees at the standard SFIA rate.

sonatype

Sonatype is the leader in secure software development built on open source and AI. As the maintainers of Maven Central and creators of Nexus Repository, Sonatype has spent two decades pioneering how the world manages and secures open source software — making Sonatype the trusted authority for modern software supply chains. With unmatched open source visibility and a unified product suite built for modern software development, Sonatype gives enterprises the intelligence and automated governance they need to harness the full potential of open source and AI. Sonatype handles the complexity behind the scenes: guiding component and model selection, blocking harmful malicious code, automating dependency and vulnerability management, and ensuring faster, more reliable builds — so developers spend more time on innovation and less time on remediation and rework. Trusted by more than 15 million developers, Sonatype helps power secure, modern software development at nearly 2,000 global organizations including 70% of the Fortune 100. To learn more about Sonatype, please visit www.sonatype.com.

Frontier

Frontier is a platform engineering company who enable organisations to operate predictably and innovate safely by integrating technology that's secure by default, resilient, scalable, observable, maintainable and cost-effective. Frontier are experts in Kubernetes, Cloud, Data & AI, Security and Automation. They're trusted by major global organisations like Mastercard, HSBC, Fidelity International, and SITA. To learn more about Frontier, please visit frontierhq.com.
