MANAGED DETECTION & RESPONSE (MDR)

24x7 threat detection, investigation and response against todays' ever evolving cyber threats.

›› Secure Nexus Services

More than 90% of cyber breaches result from human error, often caused by phishing attacks, weak password practices, or mishandling of sensitive data.

Secure Nexus MDR provides continuous, round-the-clock monitoring, expert threat analysis, and rapid response to cyber incidents. By combining advanced endpoint visibility (EDR) with our UK-based Managed Security Operations Centre (SOC), we can detect and stop threats before they impact your business.

Keeping Your Organisation Ahead of Threats

Cyber threats are constantly evolving, and even the most robust systems can be vulnerable. Our MDR service ensures your organisation stays one step ahead by blending automated tools with skilled analysts who investigate, contain, and neutralise threats in real time. This proactive approach not only reduces risk but also gives your team peace of mind, knowing your systems and data are under continuous protection.

Comprehensive MDR Protection

- **Security in Our DNA:** Fully aligned with ISO 27001, ISO 9001, and Cyber Essentials Plus standards.
- **Human Expertise + Automation:** Our trained analysts monitor your environment 24×7, supported by automated containment capabilities.
- **UK-Based SOC:** Local support you can trust, with complete data sovereignty.
- **End-to-End Integration:** Works seamlessly with Secure Nexus EDR, Email Security, and Incident Response services.
- **Actionable Intelligence:** Receive contextualised threat insights and tailored remediation advice, so you know exactly what to do next.

Secure Nexus MDR provdes full visibility across endpoints, networks, and the cloud while turning alerts into actionable intelligence for faster detection and response.

Key Areas of Focus

Secure Nexus Managed Detection & Response (MDR) combines Endpoint Detection and Response (EDR) with our UK-based Managed SOC to deliver proactive protection. EDR secures devices using behaviour analytics and machine learning, while the SOC provides full visibility across endpoints, networks, users, and cloud environments. Together, they convert isolated alerts into coordinated, actionable intelligence, strengthening overall security posture.

Benefits

- Detects and contains threats across endpoints, servers, cloud services, and networks, including fileless or stealthy attacks.
- Seamless integration with Microsoft 365, Azure, AWS, and hybrid environments.
- Continuous monitoring and enriched threat intelligence for complete visibility.
- Proactive threat hunting keeps organisations ahead of emerging threats.
- Coordinated incident response reduces risk and minimises impact.

Outcomes

Secure Nexus analysts triage real-time alerts, correlate data from multiple sources, and execute immediate containment actions, such as isolating endpoints or terminating malicious processes. Organisations gain faster, smarter response capabilities, reduced operational risk, and a measurable improvement in threat detection, mitigation, and overall cybersecurity resilience.

At Secure Nexus, our mission is to empower small and medium-sized businesses with affordable, reliable, cutting-edge cybersecurity solutions.

We are dedicated to fortifying digital assets, connecting operations securely, and defending infrastructure against evolving cyber threats.

At Secure Nexus, we help your business navigate the digital landscape with confidence, ensuring your data and operations are always protected.

Our commitment is to make cybersecurity accessible, reliable, and tailored to each client. Together, we create a resilient foundation for your business in the digital age.

Why Work With Us

- **Security is in our DNA:** Trusted UK-based partner focused on measurable improvement and risk reduction.
- **End-to-End Managed Service:** From training delivery to progress reporting and dark web monitoring.
- **Continuous Improvement Model:** Data-driven insights into human risk and training effectiveness.
- **Tailored for SMEs & Public Sector:** Practical, accessible programmes that scale with your needs.
- **Tangible Results:** Measurable risk reduction, stronger compliance posture, and greater user accountability.

At Secure Nexus, our values guide everything we do. They drive our decisions, shape our culture, and ensure we deliver security with confidence, integrity, and impact.

Secure with Impact

We don't just protect systems; we build trust and peace of mind.

Own It, Together

Accountability strengthens both our team and yours.

Keep It Authentic

Honesty and integrity drive every interaction.

Stronger as One

Collaboration fuels resilience and innovation.

Think Bold, Act Smart

We embrace creativity and calculated risks to solve challenges in new ways.

Never Stop Growing

We learn and adapt continuously to stay ahead of threats.
