

Cloud Migration Planning Services for Cloud

Where Curiosity Meets Creativity

Service Description

Defence and government cloud migration planning for maritime and C5ISR services. We baseline business capabilities and military capability, then develop TOGAF aligned enterprise architecture. We complete cloud gap assessments, evaluate sovereign private hybrid public options, and deliver costed roadmaps with assured governance, security, and accreditation readiness for controlled transition.

Features

1. Defence business capability mapping captures as is services, processes, constraints..
2. Future business capabilities model defines priorities, outcomes, measures, governance.
3. TOGAF enterprise architecture links C5ISR data, applications, technology layers.
4. Cloud gap assessment targets capability gaps with best fit services.
5. Architecture optioneering compares sovereign, private, hybrid, public cloud patterns.
6. Dependency mapping spans platform, shore, sensor, maritime, coalition integration.
7. Security, compliance, accreditation traced into designs, decisions, artefacts early.
8. Roadmaps sequence migration waves around operational availability and readiness.
9. Costed options analysis quantifies benefits, risks, effort, and timelines.
10. Assurance pack delivers audit ready traceability, metrics, and decision logs.

Benefits

1. Aligns cloud decisions to business capabilities and military capability outcomes..
2. Protects operational readiness by sequencing change around operational commitments carefully.
3. Improves C5ISR interoperability via standards led, coalition ready architectures.
4. Reduces maritime delivery risk using edge tolerant connectivity patterns.
5. Strengthens security posture with early accreditation alignment and controls.
6. Closes business capability gaps with targeted cloud services and governance.
7. Cuts rework by clarifying dependencies, data flows, and constraints.
8. Optimises spend with right fit platforms and phased migration.
9. Builds buyer confidence through auditable evidence, decisions, and artefacts.
10. Delivers executable roadmaps that sustain services through transition safely.
