Agile methodology adoption for efficient project execution	Focus on quality and value throughout engagements
Customer-focused implementation to educate and engage stakeholders from the beginning	Delivers operational insight across the organisation
Create and adjust analytics to address evolving business needs	Rapid insights delivery accelerates time-to-value
Creation of insights and AI/ML-driven recommendations to facilitate action	Access to highly experienced industry consultants
Oracle Certified consultants with analytics lifecycle and business process understanding	Continuous client enablement empowers internal teams
OAC, FADIP, OTBI, BI Publisher, Financial Reports Studio, HCM Extract	Improved user-centric experience creating buy-in and efficiencies

With extensive experience in implementing Oracle Analytics solutions for Oracle Fusion Cloud Applications, Advised Solutions stands ready to assist with your cloud endeavours. Whether initiating a new project, implementing additional modules, wanting to report on data across multiple systems, or introducing predictive analytics, Advised Solutions' seasoned professionals possess the expertise to actualise your Cloud aspirations.

Irrespective of data storage location, whether in the Cloud or on-premise, Advised Solutions consultants conduct comprehensive scoping exercises to help organisations discern their information needs, existing data assets, processes, desired outcomes from their Oracle system, and overall information requirements.

Advised Solution not only devises project strategies and execution plans but also considers the ongoing support necessary throughout the solution's lifecycle. Our UK-based Oracle Analytics consultants bring diverse business acumen, spanning HCM, ERP, SCM and CX. Proficient in Oracle applications, they adeptly apply functional expertise to Oracle Analytics Applications.

Beyond merely advising on optimal Oracle Analytics platform configurations, we collaborate with clients to deliver holistic solutions that continually drive business benefits and realise sustained value.

MANAGED SERVICES FOR ORACLE FUSION CLOUD ERP, HCM, SCM AND CX

Empower your organisation with our Managed Services for Oracle Fusion Cloud Applications. Our certified Oracle specialists provide proactive, end-to-end support across ERP, HCM, SCM, and CX, ensuring your systems run smoothly and efficiently. From issue resolution to continuous optimisation, we help you maintain peak performance, maximise your Oracle investment, and enable your teams to focus on driving business growth.

Service Features	Service Benefits
End-to-end Oracle Cloud support across ERP, HCM, SCM, and CX	Access certified Oracle specialists for trusted, responsive support
Certified Oracle experts ensuring quality service delivery	Reduce business risk through proven service expertise
Continuous improvement for lasting cloud performance gains	Complete, end-to-end support ensuring consistent quality
Technical support for Analytics, AI, Integrations and PaaS extensions	Apply global best practices from leading engagements
Enhancement identification driving adoption and business value	Drive value and excellence across every interaction
Environment management guidance for stable cloud operations	Allow teams to focus on core business priorities
Testing support for seamless quarterly releases using proven Automation tools	Smooth transition and planning with minimal disruption
Knowledge transfer to build client self-sufficiency	Gain insights from experienced industry consultants
Flexible support agreements tailored to business needs	Empower internal teams through continuous enablement
Maximised ROI through enhancement and optimisation initiatives	Enhance user experience, adoption, and efficiency

With extensive experience supporting Oracle Fusion Cloud Applications, Advised Solutions is your trusted partner for ongoing managed services. Whether maintaining day-to-day operations, supporting new module rollouts, or optimising performance across ERP, HCM, SCM, and CX, our certified Oracle experts ensure your Cloud environment continues to deliver exceptional value.

Advised Solutions provides tailored managed service frameworks that align with each organisation's operational goals. We perform detailed assessments to understand your business processes, environment configurations, and performance objectives, ensuring proactive management and seamless continuity throughout your Oracle landscape.

Our UK-based team combines deep Oracle functional and technical expertise with broad business understanding to deliver stable, efficient, and forward-looking service. Beyond

resolving issues, we focus on continuous optimisation, enhancement identification, and user adoption to maximise ROI and Cloud maturity.

We help clients take full advantage of new capabilities introduced with each quarterly Oracle release, ensuring rapid adoption of features that enhance performance and efficiency. In addition, Advised Solutions supports clients in exploring strategic innovations such as Agentic AI through Oracle AI Agent Studio, unlocking intelligent automation and data-driven decision-making.

Advised Solutions doesn't just support your Oracle environment—we help you evolve it. Through partnership, transparency, and innovation, we ensure your Oracle Fusion Cloud investment remains optimised, future-ready, and fully aligned with your strategic ambitions.
