LMS-~~X~~

PRICING

LMS-X

Pricing

LMS-X is a best-of-breed, modern, Software as a Service (SaaS) learning management system. It is cost effective, flexible and secure, and provides customers with a reliable platform for the deployment of digital training materials, self-service classroom booking functionality, and robust training compliance reporting and much more. LMS-X implementations are straight forward, and customers are supported and guided throughout by our experienced team. Once using LMS-X, customers receive software updates and upgrades, with training if needed, included in the annual fee. All UK customers' LMS-X systems are hosted at the Amazon (AWS) datacentre facility in London, UK. This is a highly secure ISO-27001 compliant service and as such we are able to guarantee almost 100% secure uptime availability for our customers.

Annual Fee

To use LMS-X, customers pay a single annual fee for access to the system. This includes project implementation, hosting, maintenance, upgrades, installation of releases, and support services. There are no extra fees for upgrades and there is no access limit to support services.

Subscription Model

LMS-X is provided on a named user rather than a concurrency subscription basis. The subscription cost is driven by the number of active accounts (existing staff/new joiners/external learners). User accounts can be deactivated, for example when people leave the organisation, to remove their access to LMS-X and in doing so, they no longer count towards the total user licence. Meanwhile, their user and training records remain in the system and their data will remain available for reporting purposes.

Implementation

To enable you to go live with LMS-X as quickly as possible, we will work with your team from the outset to advise, train and support them as we set the system up and make it ready for launch. This is all included within the annual fee and typically includes analysis of your organisational structure and aligning the LMS accordingly, remote training sessions (administration of the system and reporting as needed), project management meetings, project administration, statement of work, process review, configuration review, standard interface branding, user data import with automated feed from HRIS.

Additional Implementation Options

As customer implementation requirements vary, there is an additional up-front fee for any services required outside of the standard implementation, which is included in the annual fee.

- ✓ Integration with MS Azure or OKTA for Single Sign: £450
- ✓ Upload of historical data: £900 to £1,800
- ✓ NHS Electronic Staff Records (ESR) integration: £7,500 (annual cost)

Annual Software Licence Fee

Active Users	500	1000	2500	5000	10000	20000
LMS-X	£ 9,030	£ 11,675	£ 19,390	£ 28,875	£ 36,670	£ 64,470
LMS-X Career Track	£ 13,545	£ 17,510	£ 29,080	£ 43,315	£ 55,000	£ 96,700

Terms and Conditions

1. Pricing assumes a two-year contract with the option to extend for subsequent years.
2. Pricing assumes standard implementation as described above.
3. Additional implementation costs may apply, depending on individual requirements.
4. All costs are shown exclusive of and subject to VAT.
5. Trainee employee travel and subsistence expenses, if incurred, are recharged at cost.
