Power Automate

Power Automate Service Offering

The Power Apps package enables rapid creation of custom, low-code applications that digitise processes, enhance workforce productivity, and connect seamlessly with your organisation's data and systems

Benefits

Benefits of the Power Automate development package include:-

- Expert consultancy guiding confident, specialist led automation decisions.
- Instant access to deep automation expertise and proven best practice patterns.
- Discovery clarifies complexity, validates needs, and targets the right workflows.
- Capability uplift builds internal confidence and reduces long term external reliance.
- End to end delivery ensuring smooth implementation, alignment, and adoption.
- Rapid development delivering high value workflows with measurable efficiency gains.

Features

Features of the CoE Power Automate package include:

- Discovery clarifies problems, aligns stakeholders, and delivers a prioritised roadmap.
- Continuous discovery ensures evolution with changing business needs.
- Multidisciplinary Marra fusion team supports full development lifecycle.
- We optimise processes to boost productivity and performance.
- We create automated workflows across Cloud, Desktop, and Business scenarios.
- Automation delivered using RPA and DPA to increase efficiency.
- Our approach increases ROI by reducing costs and streamlining processes.
- Automation reduces manual effort and improves resource utilisation.
- Targeted automation enables enhanced, efficient operations.
- Microsoft 365 integration enables seamless system and data connectivity.

Wider Service Offerings:

Marra can provide guidance on introducing additional packages for other Power Platform components if required (Power BI, Power Automate, Power Pages and CoE).

What we can deliver

Strategic Consultancy

Do you need an external specialist to drive your Microsoft Power Platform strategy?

We can:

- Review specific business areas and identify potential improvements
- Create a backlog of opportunities with you
- Triage, categorise and prioritise your backlog with you
- Define a roadmap with a timeline
- Agree on a delivery plan and approach

Managed Delivery

Do you need a skilled team to deliver specific Microsoft Power Platform projects?

Invest in a team to:

- Collaborate and deliver outcomes based on adding business value
- Focus on specific outcomes defined within a Statement of Work
- Upskill existing teams through collaboration and knowledge-sharing
- Create a culture for continuous improvement

Team Augmentation

Do you need extra capacity to meet those business deadlines?

Hire a UK based individual or team to:

- Boost your current team capacity
- Access to specialist consultants and specialist skill sets
- Enhance your team's capabilities through collaboration and knowledge-sharing
- Reduce skill and/or knowledge gaps

About Marra

Marra is a tech consultancy focused on Microsoft Power Platform.

We bring together expert tech professionals and Power Platform developers to create exceptional digital solutions and make technology accessible to everyone.

Our talented team—developers, analysts, testers, and designers—works together to solve your biggest business challenges and deliver user-friendly results.

We champion making technology usable for all, with user experience and inclusivity at the forefront.

The values that drive us

Bring the Expertise

We know Power Platform inside out and we love sharing what we know. Our curious minds never stop learning.

Empower Others

Our people have the tools, trust, and freedom to deliver. We bring clarity that helps our customers succeed.

Lead with Trust

We're honest, transparent, and have each other's backs. That's how we build relationships that last.

Work Together

We build solutions with our customers, not just for them — breaking barriers and pushing for real, lasting impact.

Champion Inclusion

We believe tech should include everyone. We build accessible solutions and a culture where all belong.

Build Resilience

We face challenges head-on, lead with positivity, and always keep moving forward, together.

Thank You!
